fellow painters he was content to paint for himself protecting his privacy and exhibiting rarely if he did show his work collectors rushed to acquire it among curators he was a legendary figure when his body was found after a police search in 2015 his death made headlines at art college in the early 1960s he was a star of his generation but he walked out on a scholarship to the royal college of art and returned to practise on his own in the south wales mining village and terraced house where he grew up he devoted himself to painting living simply and working as a casual labourer opencast miner and art tutor while producing work of extraordinary beauty and sophistication after his parents deaths the whole house became his studio this book presents for the first time the extraordinary power and beauty of his work across his whole career comparisons can be drawn with great twentieth century abstract artists dubuffet de staël and tàpies but roger cecil sought to be and was remarkably uninfluenced the reputation of his mesmerising art can only grow as his legacy is revealed
