cultural grammars of nation diaspora and indigeneity in canada considers how the terms of critical debate in literary and cultural studies in canada have shifted with respect to race nation and difference in asking how indigenous and diasporic interventions have remapped these debates the contributors argue that a new cultural grammar is at work and attempt to sketch out some of the ways it operates the essays reference pivotal moments in canadian literary and cultural history and speak to ongoing debates about canadian nationalism postcolonialism migrancy and transnationalism topics covered include the asian race riots in vancouver in 1907 the cultural memory of internment and dispersal of japanese canadians in the 1940s the politics of migrant labour and the domestic labour scheme in the 1960s and the trial of robert pickton in vancouver in 2007 the contributors are particularly interested in how diaspora and indigeneity continue to contribute to this critical reconfiguration and in how conversations about diaspora and indigeneity in the canadian context have themselves been transformed cultural grammars is an attempt to address both the interconnections and the schisms between these multiply fractured critical terms as well as the larger conceptual shifts that have occurred in response to national and postnational arguments

ottawa book award 2015 shortlisted between 1918 and 1921 a great storm blew through canada and raised the expectations of a new world in which all things would be possible the years after world war i were among the most tumultuous in canadian history a period of unrelenting change drama and conflict they were in the words of stephen leacock a time such as there never was before the war had been a great crusade promising a world made new but it had cost canada sixty thousand dead and many more wounded and it had widened the many fault lines in a young diverse country in a nation struggling to define itself and its place in the world labour farmers businessmen churches social reformers and minorities had extravagant hopes irrational fears and contradictory demands what had this sacrifice achieved whose hopes would be realized and whose dreams would end in disillusionment which

changes would prove permanent and which would be transitory a time such as there never was before describes how this exciting period laid the foundation of the canada we know today

most accounts of canada and the first world war either ignore or merely mention in passing the churches experience such neglect does not do justice to the remarkable influence of the wartime churches nor to the religious identity of the young dominion the churches support for the war was often wholehearted but just as often nuanced and critical shaped by either the classic just war paradigm or pacifism s outright rejection of violence the war heightened issues of canadianization attitudes to violence and ministry to the bereaved and the disillusioned it also exacerbated ethnic tensions within and between denominations and challenged notions of national and imperial identity the authors of this volume provide a detailed summary of various christian traditions and the war both synthesizing and furthering previous research in addition to examining the experience of roman catholics english and french speaking anglicans presbyterians methodists baptists lutherans mennonites and quakers there are chapters on precedents formed during the south african war the work of military chaplains and the roles of church women on the home front

four artists who are today relatively or almost entirely unknown one woman and three men nevertheless played a part in the aesthetic upheavals that led to abstraction in 1940s montreal very active in the art milieu throughout the decade marian dale scott fritz brandtner henry eveleigh and gordon webber captured the attention of critics of the time who employed the term abstract art to describe both non objective works and bold formal explorations that retained some reference to visible reality an examination of these artists practices reveals a remarkable openness to international contemporary art trends french german british and american their work and its critical reception conjure a complex picture of the debates on abstraction that took place in montreal during the 1940s so often reduced to the controversies surrounding the emergence of the automatiste movement the artistic

innovations of paul Émile borduas and his group and the radical tone of their 1948 manifesto refus global cemented their status as quebec s abstract avant garde but also had the effect of eclipsing other visions of abstraction being explored during the same period this book reinstates the oeuvres of these forgotten protagonists in the narrative of abstract art illustrating how their practices encompassed a variety of themes emotion science human experience in the broadest sense but also as the second world war unfolded the violence that marked their era

in philip k dick s short story minority report the institution of precrime punishes people with imprisonment for crimes they would have committed had they not been prevented with dick s allegorical inspiration the authors of criminal law and precrime legal studies in canadian punishment and surveillance in anticipation of criminal guilt posit that recent developments in canadian law indicate a trend toward imposing punitive measures at increasingly earlier stages of the prosecutorial process the result is a potentially new field of criminal management that could be characterized as precrime particularly the use of the law as a technology of surveillance and prevention since terror became a justification for intervention the authors note that as risk management logics based in actuarial sciences have shifted to precautionary ones based in administrative sciences the law has responded by developing techniques in the arena of criminal regulation in light of the war on terror the need to ensure security the proliferation of digital data and the development of drones social networking and cloud storage to gather personal data the authors view shifts in criminal investigation the substantive criminal law of sexual expression conduct and work and civil forfeiture as emblematic of precrime populism the unifying theme of these techniques is that they occur prior to state identified crime arise out of a precautionary philosophy and seek to presume or circumvent criminality the book is a provocative read for scholars and students in criminal law policing and surveillance as well as for those interested in how areas of law such as immigration health and anti terrorism are mobilizing the logics of risk and surveillance in new ways that emphasize precaution the authors invite legal scholars to place the analytical lens of precrime on criminal and regulatory practices in canada as well as other western nations across the globe
