wifi 6 not getting full speed r homenetworking reddit

Oct 22 2022

using a 1gbps up and down fiber internet connection on a wifi 6 device i get about 600mbps down and about 200mbps up on a speedtest net app speed test but when i test to a local lan device wifi lan i get full wire speed 1gbps up and down i tried testing the speed in another home that was setup by verizon fios and the result was the same

solved can t seem to get full speed out of my wifi router

Sep 20 2022

you might get more with a desktop that has a 4x4 mimo card sitting next to the router but then you just use ethernet pretty much the only way you are going to be able to use the connection at full speed on a single device is if you connect via ethernet on a gigabit port
