the field of european integration but also because they discuss the ideals and aims that lay behind these efforts many of which still resonate today as europe confronts questions about its political destiny and ideal shape this volume contains articles in english and french henry o pollak chairman of the international program committee bell laboratories murray hill new jersey usa the fourth international congress on mathematics education was held in berkeley california usa august 10 16 1980 previous congresses were held in lyons in 1969 exeter in 1972 and karlsruhe in 1976 attendance at berkeley was about 1800 full and 500 associate members from about 90 countries at least half of these come from outside of north america about 450 persons participated in the program either as speakers or as presiders approximately 40 percent of these came from the u s or canada there were four plenary addresses they were delivered by hans freudenthal on major problems of mathematics education hermina sinclair on the relationship between the learning of language and of mathematics seymour papert on the computer as carrier of mathematical culture and hua loo keng on popularising and applying mathematical methods gearge polya was the honorary president of the congress illness prevented his planned attendance but he sent a brief presentation entitled mathematics improves the mind there was a full program of speakers panelists debates miniconferences and meetings of working and study groups in addition 18 major projects from around the world were invited to make presentations and various groups representing special areas of concern had the opportunity to meet and to plan their future activities the need for safety nets in sub saharan africa is vast in addition to being the world s

la publication synthétise les conclusions et les enseignements tirés jusqu'à présent des travaux sur l'accès équitable à l'eau et à l'assainissement menés dans le cadre du protocole sur l'eau et la santé dont le secrétariat est assuré par la CEE, l'ONU et le bureau régional de l'OMS pour l'Europe. Elle présente les expériences de onze pays de la région paneuropéenne qui ont établi des mesures de référence de leur situation en matière d'accès équitable à l'eau et à l'assainissement. Ces expériences ont été possibles grâce à des processus d'évaluation multipartites en examinant les disparités géographiques, les obstacles spécifiques rencontrés par les groupes vulnérables et marginalisés, les problèmes d'accessibilité financière ainsi que le cadre de gouvernance. La publication présente également les mesures techniques et politiques concrètes prises par ces pays pour assurer un accès équitable à l'eau et à l'assainissement. Elle examine les expériences nationales en matière d'élaboration de plans d'action pour l'accès équitable et examine les mesures pratiques qui peuvent être prises pour améliorer la planification et le financement de plans d'action spécifiques. Les exemples et l'analyse des tendances communes et des considérations importantes présentés dans cette publication visent à inspirer de nouvelles actions pour parvenir à un accès équitable à l'eau et à l'assainissement dans la région paneuropéenne aux niveaux national et
