2404 15276 smpler taming transformers for monocular 3d Jan 17 2023

existing transformers for monocular 3d human shape and pose estimation typically have a quadratic computation and memory complexity with respect to the feature length which hinders the exploitation of fine grained information in high resolution features that is beneficial for accurate reconstruction in this work we propose an smpl based transformer framework smpler to address this issue

tybcom sem 6 financial accounting paper pattern mumbai Dec 16 2022
