stemmatology studies aspects of textual criticism that use genealogical methods to analyse a set of copies of a text whose autograph has been lost this handbook is the first to cover the entire field encompassing both theoretical and practical aspects of traditional as well as modern digital methods and their history as an art ars stemmatology s main goal is editing and thus presenting to the reader a historical text in the most satisfactory way as a more abstract discipline scientia it is interested in the general principles of how texts change in the process of being copied thirty eight experts from all of the fields involved have joined forces to write this handbook whose eight chapters cover material aspects of text traditions the genesis and methods of traditional lachmannian textual criticism and the objections raised against it as well as modern digital methods used in the field the two concluding chapters take a closer look at how this approach towards texts and textual criticism has developed in some disciplines of textual scholarship and compare methods used in other fields that deal with descent with modification the handbook thus serves as an introduction to this interdisciplinary field

Handbook of Stemmatology 2020-09-07

a reader of the epyllion by dracontius the elegy by maximianus and the epigram by luxorius should not expect that these works and these new embodiments of the old genres will be wholly identical with their archetypes were it so it would mean that we read but second rate versifiers indeed we may expect rather that thanks to the reading of dracontius s epyllion maximianus s

elegy and luxorius s epigram our understanding of these very genres may become fuller and deeper than if it was narrowed only to the study of the classical phase of the roman literature therefore i have decided to employ in the title of my book the expression genres rediscovered i have found it fair to emphasize that the poets whose works have been studied here merit appreciation for their creativity and indeed courage in reusing and reinterpreting the classical and truly classic literary heritage in addition i have found it similarly fair to stress that for the students of latin literature the borderline between the classical and the post classical is and should be flexible it is not my intention of course to imply that aesthetic and poetological differences should be ignored or blurred quite the reverse these differences are profound and multidimensional and as such must be properly understood and explained the main issue is the fact that studies of latin literature or rather of literature in general and especially generic studies require a proper i e diachronic perspective a description of a certain genre based merely on its most important or generally known representative representatives will always risk becoming incomplete and limited in genology one must be utterly prudent in defining the main and the marginal the relevant and the negligible in this sense an insight into a few genres practiced by some classical and classic roman poets from the perspective of their post classical followers may be also for a genologist an intriguing rediscovery

Genres Rediscovered *2011*

the metaphor of marriage often describes the relationship between poetry and music in both medieval and modern writing while the troubadours stand out for their tendency to blur the distinction between speaking and singing between poetry and song a certain degree of semantic slippage extends into the realm of italian literature through the use of genre names like canzone sonetto and ballata yet paradoxically scholars have traditionally identified a divorce between music and poetry as the defining feature of early italian lyric senza vestimenta reintegrates poetic and musical traditions in late medieval italy through a fresh evaluation of more than fifty literary sources transmitting trecento song texts these manuscripts have been long noted by musicologists but until now they have been used to bolster rather than to debunk the notion that so called poesia per musica was relegated to the margins of poetic production jennings revises this view by exploring how scribes and readers interacted with song as a fundamentally interdisciplinary art form within a broad range of literary settings her study sheds light on the broader cultural world surrounding the reception of the italian ars nova repertoire by uncovering new diverse readers ranging from wealthy merchants to modest artisans

Senza Vestimenta: The Literary Tradition of Trecento Song

2016-04-01

the purpose of this volume is to investigate the crucial role played by the return of knowledge of

greek in the transformation of european culture both through the translation of texts and through the direct study of the language it aims to collect and organize in one database all the digitalised versions of the first editions of greek grammars lexica and school texts available in europe in the 14th and 15th centuries between two crucial dates the start of chrysoloras's teaching in florence c 1397 and the end of the activity of aldo manuzio and andrea asolano in venice c 1529 this is the first step in a major investigation into the knowledge of greek and its dissemination in western europe the selection of the texts and the first milestones in teaching methods were put together in that period through the work of scholars like chrysoloras guarino and many others a remarkable role was played also by the men involved in the council of ferrara 1438-39 where there was a large circulation of greek books and ideas about ten years later giovanni tortelli together with pope nicholas v took the first steps in founding the vatican library research into the return of the knowledge of greek to western europe has suffered for a long time from the lack of intersection of skills and fields of research to fully understand this phenomenon one has to go back a very long way through the tradition of the texts and their reception in contexts as different as the middle ages and the beginning of renaissance humanism however over the past thirty years scholars have demonstrated the crucial role played by the return of knowledge of greek in the transformation of european culture both through the translation of texts and through the direct study of the language in addition the actual translations from greek into latin remain poorly studied and a clear understanding of the intellectual and cultural contexts that produced them is lacking in the middle ages the knowledge of greek was limited to isolated areas that had no reciprocal links as had happened to many latin authors all greek literature was rather neglected perhaps because a number of philosophical texts had already been available in translation from the seventh century ad or because of a sense of mistrust due to their ethnic and religious differences between the 12th and 14th century ad a change is perceptible the sharp decrease in greek texts and knowledge in the south of italy once a reference point for this kind of study was perhaps an important reason prompting italian humanists to go and study greek in constantinople over the past thirty years it has become evident to scholars that humanism through the re-appreciation of classical antiquity created a bridge to the modern era which also includes the middle ages the criticism by the humanists of medieval authors did not prevent them from using a number of tools that the middle ages had developed or synthesized glossaries epitomes dictionaries encyclopaedias translations commentaries at present one thing that is missing however is a systematic study of the tools used for the study of greek between the 15th and 16th century this is truly important because in the following centuries greek culture provided the basis of european thought in all the most important fields of knowledge this volume seeks to supply that gap

Making and Rethinking the Renaissance 2019-06-04

larvatus prodeoque announced rené descartes at the beginning of the seventeenth century i come forward masked deliberately disguising or silencing their most intimate thoughts and emotions many early modern europeans besides descartes princes courtiers aristocrats and commoners alike

chose to practice the shadowy art of dissimulation for men and women who could not risk revealing their inner lives to those around them this art of incommunicativity was crucial both personally and politically many writers and intellectuals sought to explain expose justify or condemn the emergence of this new culture of secrecy and from naples to the netherlands controversy swirled for two centuries around the powers and limits of dissimulation whether in affairs of state or affairs of the heart this beautifully written work crisscrosses europe with a special focus on italy to explore attitudes toward the art of dissimulation in the sixteenth and seventeenth centuries discussing many canonical and lesser known works jon r snyder examines the treatment of dissimulation in early modern treatises and writings on the court civility moral philosophy political theory and in the visual arts

Dissimulation and the Culture of Secrecy in Early Modern Europe *2009-08-19*

lexicon grammaticorum is a biographical and bibliographical reference work on the history of all the world s traditions of linguistics each article consists of a short definition details of the life work and influence of the subject and a primary and secondary bibliography the authors include some of the most renowned linguistic scholars alive today for the second edition twenty co editors were commissioned to propose articles and authors for their areas of expertise thus this edition contains some 500 new articles by more than 400 authors from 25 countries in addition to the completely revised 1 500 articles from the first edition attention has been paid to making the articles more reader friendly in particular by resolving abbreviations in the textual sections key features essential reference book for linguists worldwide 500 new articles over 400 contributors of 25 countries

the early modern and modern cultural world in the west would be unthinkable without petrarch and boccaccio despite this fact there is still no scholarly contribution entirely devoted to analysing their intellectual revolution internationally renowned scholars are invited to discuss and rethink the historical intellectual and literary roles of petrarch and boccaccio between the great model of dante s encyclopedia and the ideas of a double or multifaceted culture in the era of italian renaissance humanism in his lyrical poems and latin treatises petrarch created a cultural pattern

that was both christian and classical exercising immense influence on the western world in the centuries to come boccaccio translated this pattern into his own vernacular narratives and erudite works ultimately claiming as his own achievement the reconstructed unity of the ancient greek and latin world in his contemporary age the volume reconsiders petrarch s and boccaccio s heritages from different perspectives philosophy theology history philology paleography literature theory and investigates how these heritages shaped the cultural transition between the end of the middle ages and the early modern era as well as european identity

Petrarch and Boccaccio 2018-02-19

the thirty pieces of silver coin relics in medieval and modern europe discusses many interconnected topics relating to the most perfidious monetary transaction in history the betrayal of jesus by judas for thirty pieces of silver according to medieval legend these coins had existed since the time of abraham s father and had been used in many transactions recorded in the bible this book documents fifty specimens of coins which were venerated as holy relics in medieval and modern churches and monasteries of europe from valencia to uppsala most of these relics are ancient greek silver coins in origin mounted in precious reliquaries or used for the distribution of their wax imprints believed to have healing powers drawing from a wide range of historical sources from hagiography to numismatics this book will appeal to students and academics researching late antique medieval and early modern history theology as well as all those interested in the function of relics throughout christendom the thirty pieces of silver is a study that invites meditation on the highly symbolic and powerful role of money through coins which were the price value and measure of christ and which despite being the most abject objects managed to become relics

The Thirty Pieces of Silver 2022-01-19

this invaluable collection explores the many faces of murder and its cultural presences across the italian peninsula between 1350 and 1650 these shape the content in different ways the faces of homicide range from the ordinary to the sensational from the professional to the accidental from the domestic to the public while the cultural presence of homicide is revealed through new studies of sculpture paintings and popular literature dealing with a range of murders and informed by the latest criminological research on homicide it brings together new research by an international team of specialists on a broad range of themes different kinds of killers by gender occupation and situation different kinds of victim by ethnicity gender and status and different kinds of evidence legal judicial literary and pictorial it will be an indispensable resource for students of renaissance italy late medieval early modern crime and violence and homicide studies

Murder in Renaissance Italy 2017-07-13

a new reconstruction and edition of the placita of aëtius ca 50 ce arguably the most important work of ancient doxography covering the entire field of natural philosophy accompanied by a full commentary it replaces the seminal edition of herman diels 1879

Aëtiana V (4 vols.) 2020-08-10

in all the history of hand written books one of the most distinctive and handsome scripts is that of the abbey of monte cassino this study examines for the first time in detail the development of this script during the abbey s greatest period of wealth and influence under desiderius abbot 1058 1087 and his successor oderisius abbot 1087 1105 the characteristic cassinese hand was established long before but in this period it was transformed into what is today considered its classic form the present study rests on a fresh examination of many details of the beneventan south italian script in aspects incompletely studied before it aims to provide a new history of monte cassino as a writing centre and to offer a context for many unique or valuable texts manuscripts that it processed

The Scriptorium and Library at Monte Cassino, 1058-1105 1999-04-29

whilst educational theory has developed significantly in recent years much of the law curriculum remains content driven and delivered traditionally predominantly through lecture format students are in the main treated as empty vessels to be filled by the eminent academics of the day re thinking legal education under the common and civil law draws on the experience of teachers practitioners and students across the world who are committed to developing a more effective learning process little attention has historically been paid to the importance of the application of theory the role of reflective learning the understanding and acquisition of lawyering skills and the development of professional responsibility and wider ethical values with contributions from across the global north and south this book examines the history of educating our lawyers the influences and constraints that may shape the curriculum the means of delivering it and the models that could be used to tackle current shortcomings the whole is intended to represent what might be desirable and possible if we are to produce lawyers that are fit for purpose in the 21st century be that in either in civil or common law jurisdictions this book will be of direct assistance to those who wish to understand the theory and practice of legal pedagogy in an experiential context it will be essential reading for academics researchers and teachers in the fields of law and education particularly those concerned with curriculum design and developing interactive teaching methods it is likely to be of interest to law students too particularly those who value a more direct engagement in their learning

Re-thinking Legal Education under the Civil and Common Law

Bibliography of Semiotics, 1975-1985 1986-01-01

this volume integrates the theme of spain in italy into a broad synthesis of late renaissance and early modern italy by restoring the contingency of events local and imperial decision making and the distinct voices of individual spaniards and italians

Spain in Italy 2007

cities are shaped as much by a repertoire of buildings works and objects as by cultural institutions ideas and interactions between forms and practices entangled in identity formations this is particularly true when seen through a city as forceful and splendid as venice the essays in this volume investigate these connections between art and identity through discussions of patronage space and the dissemination of architectural models and knowledge in venice its territories and beyond they celebrate professor deborah howard s leading role in fostering a historically grounded and interdisciplinary approach to the art and architecture of venice based on an examination and re interpretation of a wide range of archival material and primary sources the contributing authors approach the notion of identity in its many guises as self representation as strong sub currents of spatial strategies as visual and semantic discourses and as political and imperial aspirations employing interdisciplinary modes of interpretation these studies offer ground breaking analyses of canonical sites and works of art diverse groups of patrons as well as the life and oeuvre of leading architects such as jacopo sansovino and andrea palladio in so doing they link together citizens and nobles past and present the real and the symbolic space and sound religion and power the city and its parts venice and the stato da mar the serenissima and the sublime port

"Architecture, Art and Identity in Venice and its Territories, 1450?750 " 2017-07-05

the papers in the economic integration of roman italy use various archaeological data particularly recent field survey and excavation data to explore the changes rome s territorial and economic expansion brought about in the italian countryside

The Economic Integration of Roman Italy 2017-08-10

questo volume che inaugura la pubblicazione in formato elettronico delle opere complete di Bruno Leoni include tutte le 408 recensioni scritte per la rivista *il politico* nel corso di un decennio 1950-1959 a sorprendere non è soltanto l'elevato numero di recensioni ma anche la diversità degli argomenti trattati dalla psichiatria all'arte dalla religione alla letteratura dall'archeologia alle civiltà orientali dalla storia all'architettura oltre naturalmente alla politica all'economia e al diritto si tratta di un testo utile per due motivi in particolare da un lato per capire meglio il pensiero di Leoni poiché in queste recensioni i suoi riferimenti culturali vengono esplicitati e si chiarisce bene quale fosse la sua concezione della politica della filosofia e della società dall'altro esso consente di farsi un'idea sugli argomenti di cui non si discuteva in Italia negli anni cinquanta *il politico* fondato dallo stesso Leoni nel 1950 fu infatti un mirabile tentativo di innovare la cultura italiana e in queste recensioni che sono per la maggior parte di libri stranieri l'autore suggerisce traduzioni e propone idee e argomenti in Italia allora poco conosciuti o spesso conosciuti male le recensioni non sono mai banali e anzi vi emerge con chiarezza quali siano le valutazioni le idee e in generale il pensiero di Leoni fare esplorazioni in campi così diversi e saperne trarre vantaggio nell'elaborazione di idee nel proprio settore di ricerca richiede indubbiamente un'intelligenza e una cultura fuori dall'ordinario ma questo era il suo approccio metodologico le scienze umane gli apparivano intimamente connesse e solo da una loro trattazione comune era convinto di poter trovare la soluzione ai problemi sociali

Opere complete: XI: Recensioni di libri (1950-1959) 2013-05-27

the first comprehensive account of how and why architects learned to communicate through color architectural drawings of the Italian Renaissance were largely devoid of color but from the seventeenth century through the nineteenth polychromy in architectural representation grew and flourished Basile Baudez argues that colors appeared on paper when architects adapted the pictorial tools of imitation cartographers natural signs military engineers conventions and finally painters affective goals in an attempt to communicate with a broad public inessential colors traces the use of color in European architectural drawings and prints revealing how this phenomenon reflected the professional anxieties of an emerging professional practice that was simultaneously art and science traversing national borders the book addresses color as a key player in the long history of rivalry and exchange between European traditions in architectural representation and practice featuring a wealth of previously unpublished drawings inessential colors challenges the long standing misreading of architectural drawings as illustrations rather than representations pointing instead to their inherent qualities as independent objects whose beauty paved the way for the visual system architects use today

Inessential Colors *2021-12-21*

cultural and intellectual dynamism often stand in close relationship to the expression of viewpoints and positions that are in tension or even conflict with one another this phenomenon has a particular relevance for early modern europe which was heavily marked by polemical discourse the dimensions and manifestations of this streitkultur are being explored by an international network funded by the leverhulme trust united kingdom the present volume contains the proceedings of the network s first colloquium which focused on the forms of renaissance conflict and rivalries from the perspectives of history language and literature

Forms of Conflict and Rivalries in Renaissance Europe *2015*

this collective volume contains studies in the field of ancient grammar poetics and philosophy of language the contributions written by specialists in the field focus on central themes in the historiography of ancient linguistics such as the status of grammar as a discipline in antiquity the relationship between poetics and grammatical theory the constitution and development of the word class system the descriptive format of grammars the nature and description of specific word classes the development of grammatical argumentation in addition several methodological issues in the study of ancient grammar and philosophy of language are dealt with the problem of continuity vs discontinuity in the history of linguistic thought the role of schoolroom activities in the development of grammatical description and theory formation and problems concerning tradition influence and originality in ancient linguistics the volume is rounded off with extensive indices of proper names concepts and technical terms

Grammatical Theory and Philosophy of Language in Antiquity *2002*

measurement is all around us from the circumference of a pizza to the square footage of an apartment from the length of a newborn baby to the number of miles between neighboring towns whether inches or miles centimeters or kilometers measures of distance stand at the very foundation of everything we do so much so that we take them for granted yet this has not always been the case this book reaches back to medieval italy to speak of a time when measurements were displayed in the open showing how such a deceptively simple innovation triggered a chain of cultural transformations whose consequences are visible today on a global scale drawing from literary works and frescoes architectural surveys and legal compilations emanuele lugli offers a history of material practices widely overlooked by historians he argues that the public display of measurements in italy s newly formed city republics not only laid the foundation for now centuries old practices of making but also helped to legitimize local governments and shore up church power buttressing fantasies of exactitude and certainty that linger to this day this ambitious

truly interdisciplinary book explains how measurements rather than being mere descriptors of the real themselves work as powerful molds of ideas affecting our notions of what we consider similar accurate and truthful

The Making of Measure and the Promise of Sameness 2019-05-29

dedicato alla madre e rivolto alle giovani donne nella speranza che il risorgimento politico fosse anche un risorgimento femminile è lo scritto la donna e i suoi rapporti sociali pubblicato nel 1864 convinta repubblicana non esita a rimproverare a mazzini e ai suoi seguaci l'idea conservatrice che il posto della donna stia soltanto nella famiglia non dite più che la donna è fatta per la famiglia che nella famiglia è il suo regno e il suo impero le son queste vacue declamazioni come mille altre di simil genere ella esiste nella famiglia nella città in faccia ai pesi e ai doveri di questi all'infuori ella non esiste in nessun luogo il presente ebook ricalca e rinforza i temi già sviluppati in la donna e i suoi rapporti sociali

La Liberazione della Donna 2014-10-25

this is a subtle intelligent and deeply learned recasting of a whole range of issues central to art history the place of the baroque in the construction of modern art histories the peculiar aesthetics of propaganda as a distinctively institutional mobilizing of images and forms the role of the jesuits in constructing and then deconstructing the relation of architectural style and ideology evonne levy's careful readings of key monuments in the catholic baroque shed light not only on those works but on the whole evolution of art historical understanding and misunderstanding that has made the baroque so central and problematic for the discipline of art history w j t mitchell editor of critical inquiry and author of iconology and picture theory one of the most original and provocative books in the field of baroque studies to emerge in the last twenty years propaganda and the jesuit baroque at once presents a wealth of new materials and radically rethinks what has long been known about the jesuit order as a patron of the arts through the lens of propaganda evonne levy illuminates her subject in an unprecedented way steven f ostrow author of art and spirituality in counter reformation rome

Propaganda and the Jesuit Baroque 2004-04-14

this book translated from italian discusses the influence of galileo on hobbes natural philosophy in his de motu loco et tempore or anti white 1643 thomas hobbes describes galileo as the greatest philosopher of all times and in de corpore 1655 the italian scientist is presented as the one who opened the door of all physics that is the nature of motion the book gives a detailed analysis of galileo's legacy in hobbes's philosophy exploring four main issues a comparison between hobbes and mersenne's natural philosophies the galilean principles of hobbes philosophical system a comparison between galileo's momentum and hobbes's conatus and hobbes and galileo's theories of

matter the book also analyses the role played by marin mersenne in spreading galileo s ideas in france and as a discussant of hobbes it highlights the many aspects of hobbes relationship with galileo the methodological and epistemological elements but also the conceptual and the lexical analogies in the field of physics to arrive finally at a close comparison on the subject of the matter from this analysis emerges a shared mechanical conception of the universe open and infinite that replaces the aristotelian cosmos and which is populated by two elements only matter and motion

Hobbes and Galileo: Method, Matter and the Science of Motion

a major contribution not only to puccini studies but also to the study of nineteenth century italian opera in general nineteenth century music review in this groundbreaking survey of the fundamentals methods and formulas that were taught at italian music conservatories during the 19th century nicholas baragwanath explores the compositional significance of tradition in rossini bellini donizetti verdi boito and most importantly puccini taking account of some 400 primary sources baragwanath explains the varying theories and practices of the period in light of current theoretical and analytical conceptions of this music the italian traditions and puccini offers a guide to an informed interpretation and appreciation of italian opera by underscoring the proximity of archaic traditions to the music of puccini dense and challenging in its detail and analysis this work

is an important addition to the growing corpus of puccini studies highly recommended choice

The Italian Traditions & Puccini 2011-07-08

this volume assembles 50 contributions presented at the xvii international colloquium on latin linguistics they embrace essential topics of latin linguistics with different theoretical and methodological approaches phonetics syntax etymology and semantics pragmatics and textual analysis it is a useful resource for the study of comparative and general linguistics not only for linguists but also for scholars of classical philology

LATINITATIS RATIONES 2016-12-05

this book written mainly with the non italian reader in mind addresses a central problem in textual criticism namely how to try to correctly reconstruct a text of the past so that even if not identical it is as close as possible to the lost original starting from a number of copies more or less full of mistakes that is to say how to preserve part of the memory of our past preface p 13

Rivista Di Agronomia 1967

language is the species specific human version of the animal system of communication in contrast to non human animals language enables humans to invent a plurality of possible worlds reflect upon signs be responsible for our actions gain conscious awareness of our inevitable mutual involvement in the network of life on this planet and be responsibly involved in the destiny of the planet the author looks at semiotics the study of signs symbols and communication as developing sequentially rather than successively more synchronically than diachronically she discusses the contemporary phenomenon that people in today s society have witnessed and participated in as part of the development of semiotics although there is a long history preceding semiotics in a sense the field is as a phenomenon more of our time than of any time past its leading figures whom petrilli examines belong to the twentieth and twenty first century semiotics is associated with a capacity for listening this capacity is also the condition for reconnecting to and recovering the ancient vocation of semiotics as that branch of medical science relating to the interpretation of signs or symptoms the pragmatic aspect of global semiotics studies the impact of language or signs on those who use them and looks for consequences in actual practice in this respect petrilli theorizes that the task for semiotics in the era of globalization is nothing less than to take responsibility for life in its totality

The New Universal English and Italian Dictionary, Etc 1849

this book meets the need to revise the standard interpretations of an apparently aporetic dialogue full of eloquent silences and tricky suggestions as it explores among many other topics the

dramatis personae including plato s self references behind the scene and the role of socrates on stage the question of method and refutation and the way dialectics plays a part in the dialogue more especially it contains a set of papers devoted to perception and plato s criticism of heraclitus and protagoras a section deals with the problem of the relation between knowledge and thinking including the aviary model and the possibility of error it also emphasizes some positive contributions to the classical platonic doctrines and his philosophy of education the reception of the dialogue in antiquity and the medieval age closes the analysis representing different hermeneutical traditions prestigious scholars engage with these issues in divergent ways as they shed new light on a complex controversial work

Everything You Always Wanted to Know about Lachmann's Method **2014**

brill s companion to the reception of plutarch offers the first comprehensive analysis of plutarch s rich reception history from the high roman empire late antiquity and byzantium to the renaissance enlightenment and the modern era across various cultures in europe america north africa and the middle east

Sign Crossroads in Global Perspective **2017-09-08**

zeitliche und regionale entwicklungen ebenso wie offensichtliche präferenzen von antiken verfassern und auftraggebern prägen die enorme vielfalt der carmina latina epigraphica in der römischen republik und kaiserzeit dominieren grabinschriften in versmaß seit der spätantike werden offensichtlich auch andere textgruppen zunehmend attraktiver in republik und spätantike waren solche eingeschriebenen gedichte mit oder ohne prosa rahmung eher ein elitenphänomen wohingegen die epigramme in der kaiserzeit eine populäre textgruppe für breite bevölkerungsschichten waren im band werden verschiedene aspekte von text entwicklungen durch die jahrhunderte ebenso untersucht wie regionale veränderungen und wechselwirkungen von texten und ihren objektträgern oft genug lassen sich aber einzelne dieser gedichte der einordnung in vermeintlich regionale und zeitlich vorherrschende epigraphic habits nicht einordnen auch für solch singuläre sehr individuell gestaltete inschriften werden mögliche kontextualisierung aufgezeigt vor allem durch verbindungen zu anderen textgattungen und traditionen mit diesem band wird daher das die editionen und analysen zumeist dominierende regionale prinzip für die carmina latina epigraphica auf die probe gestellt
