superb vetter s incisive introduction offers one of the first approaches to theorizing women s late modernist literary production as advancing specifically hybrid works located at the juncture of personal national and nationalist concerns cynthia hogue coeditor of the sword went out to sea this edition with its finely written introduction and meticulous annotation opens up new understandings of h d the major modernist writer as she meditates postwar on the inner life of shakespeare the icon of english literature and on the women missing from his plays a beautiful and thoughtful book jane augustine editor of the gift and the mystery h d called by avon river the first book that really made me happy in this annotated edition lara vetter argues that the volume represented a turning point in h d s career a major shift from lyric poetry to the experimental forms of writing that would dominate her later works near the end of world war ii after having remained in london throughout the blitz h d made a pilgrimage to stratford upon avon shakespeare s birthplace this experience resulted in a hybrid volume of poetry about the tempest and prose about shakespeare and his contemporaries featuring a tour de force introduction and extensive explanatory notes this is the first edition of the work to appear since its original publication in 1949 increasingly after the war h d sought new forms of writing to express her persistent interests in the politics of gender and in issues of nationhood and home by avon river was one of her only postwar works to cross over to mainstream audiences and as such is a welcome addition to our understanding of this significant modernist writer

for this anthology i have tried to range over the whole field of english verse from the beginning or from the thirteenth century to this closing year of the nineteenth and to choose the best nor have i sought in these islands only but wheresoever the muse has followed the tongue which among living tongues she most delights to honour to bring home and render so great a spoil compendiously has been my capital difficulty it is for the reader to judge if i have so managed it as to serve those who already love poetry and to implant that love in some young minds not yet initiated my scheme is simple i have arranged the poets as nearly as possible in order of birth with such groupings of anonymous pieces as seemed convenient for convenience too as well as to avoid a dispute royal i have gathered the most of the ballads into the middle of the seventeenth century where they fill a languid interval between two winds of inspirationÑthe italian dying down with milton and the french following at the heels of the restored royalists for convenience again i have set myself certain rules of spelling in the very earliest poems inflection and spelling are structural and to modernize is to destroy but as old inflections fade into modern the old spelling becomes less and less vital and has been brought not i hope too abruptly into line with that sanctioned by use and familiar to do this seemed wiser than to discourage many readers for the sake of diverting others by a scent of antiquity whichÑto be essentialÑ should breathe of something rarer than an odd arrangement of type but there are scholars whom i cannot expect to agree with me and to conciliate them i have excepted spenser and milton from the rule glosses of archaic and otherwise difficult words are given at the foot of the page but the text has not been disfigured with reference marks and rather than make the book unwieldy i have eschewed notesÑreluctantly when some obscure passage or allusion seemed to ask for a timely word with more equanimity when the temptation was to criticize or appreciate for the function of the anthologist includes criticizing in silence

what was the role of anthropology in the german enlightenment why did this discipline emerge as one of the most popular modes of inquiry in the eighteenth century permeating fields as disparate as aesthetics medicine and law as the essays in this volume show the body of enlightenment knowledge was by no means universal during the german enlightenment the study of nature humanity and everything that humanity created was the topic of the day but the period that defined moral reason as the sovereign human faculty also applied its scrutiny to the body that such a mind inhabited what did it look like could moral superiority be deduced from physiognomy in the massive effort to educate the german populace on what were seen to be the fundamental a priori differences physical and moral between the sexes and the races the european bourgeois man was considered to embody all human virtues and talents and stem from the only race and sex capable of ruling itself democratically and rationally to examine the role of anthropology in this enterprise contributors to this volume were asked to investigate what constitutes the german enlightenment s interaction between its self proclaimed rationalism and the pervasive presence of the non rational that is the corporeal book jacket title summary field provided by blackwell north america inc all rights reserved
