Statecraft as Soulcraft 1984-05-17

george f will purports that the proper goals of statecraft are justice social cohesion and national strength therefore he urges the development of a conservatism with a kindly face capable of respecting private enterprise and at the same time espousing an affirmative doctrine of the welfare state which will sees as an embodiment of the wholesome ethic of common provision proper government involves the cultivation of good character in citizens this is what is meant by statecraft as soulcraft

Statecraft as Soulcraft 1983

politics is concerned with citizenship and the administration of justice how communities are formed and governed the role of christians in the political process is hotly contested but as citizens francis beckwith argues christians have a rich heritage of sophisticated thought as well as a genuine responsibility to contribute to the shaping of public policy in particular beckwith addresses the contention that christians or indeed religious citizens of any faith should set aside their beliefs before they enter the public square what role should religious citizens take in a liberal democracy what is the proper separation of church and state what place should be made for natural rights and the moral law within a secular state this cogent introduction to political thought surveys political science politics and government while making the case for how statecraft may genuinely contribute to soulcraft politics for christians is part of the christian worldview integration series

Politics for Christians 2012-05-20

what role should religious citizens take in a liberal democracy what is the proper separation of church and state what place should be made for natural rights and the moral law within a secular state francis j beckwith s cogent introduction to political thought surveys political science politics and government while making the case for how statecraft may genuinely contribute to soulcraft

Politics for Christians 2010-02-02

winner of the helen and howard marraro prize a times literary supplement book of the year perhaps the greatest study ever written of renaissance political thought jeffrey collins times literary supplement magisterial hankins shows that the humanists obsession with character explains their surprising indifference to particular forms of government if rulers lacked authentic virtue they believed it did

not matter what institutions framed their power wall street journal puts the politics back into humanism in an extraordinarily deep and far reaching way for generations to come all who write about the political thought of italian humanism will have to refer to it its influence will be nothing less than transformative noel malcolm american affairs a masterpiece it is only hankins s tireless exploration of forgotten documents and extraordinary endeavors of editing translation and exposition that allow us to reconstruct almost for the first time in 550 years the humanists three compelling arguments for why a strong moral character and habits of truth are vital for governing well yet they are as relevant to contemporary democracy in britain and in the united states as to machiavelli rory stewart times literary supplement the lessons for today are clear and profound robert d kaplan convulsed by a civilizational crisis the great thinkers of the renaissance set out to reconceive the nature of society everywhere they saw problems corrupt and reckless tyrants sowing discord and ruling through fear elites who prized wealth and status over the common good religious leaders preoccupied with self advancement while feuding armies waged endless wars their solution was at once simple and radical men not walls make a city as thucydides so memorably said they would rebuild the fabric of society by transforming the moral character of its citizens soulcraft they believed was a precondition of successful statecraft a landmark reappraisal of renaissance political thought virtue politics challenges the traditional narrative that looks to the renaissance as the seedbed of modern republicanism and sees machiavelli as its exemplary thinker james hankins reveals that what most concerned the humanists was not reforming institutions so much as shaping citizens if character mattered more than laws it would have to be nurtured through a new program of education they called the studia humanitatis the precursor to our embattled humanities

a philosopher mechanic s wise and sometimes funny look at the challenges and pleasures of working with one s hands this is a deep exploration of craftsmanship by someone with real hands on knowledge the book is also quirky surprising and sometimes quite moving richard sennett author of the craftsman called the sleeper hit of the publishing season by the boston globe shop class as soulcraft became

an instant bestseller attracting readers with its radical and timely reappraisal of the merits of skilled manual labor on both economic and psychological grounds author matthew b crawford questions the educational imperative of turning everyone into a knowledge worker based on a misguided separation of thinking from doing using his own experience as an electrician and mechanic crawford presents a wonderfully articulated call for self reliance and a moving reflection on how we can live concretely in an ever more abstract world

Shop Class as Soulcraft 2009-05-28

mcclean argues that a collective move towards stewardship within the financial industry is necessary to restore ethical behaviour and public confidence drawing on practical examples and offering new policy recommendations this unique philosophical study paints a picture of what a truly ethical trading culture of the future might look like

Wall Street, Reforming the Unreformable 2015-10-06

from inside the book since 1980 the economy has been growing and productivity has been growing but trickle down values that we the american people promote pursuant to the republican party s conservative ideology have rigged the economy to continuously upwardly redistribute those revenues attributable to our increased productivity yielding a productivity wage disconnect resulting in increased concentration of income and wealth at the top in corporations and among older americans beneficiaries of income from social security pensions and investments and continuing income due to delaying retirement and the lowest percentage of gdp attributable to wages and highest attributable to profits since world war ii but trickle down has not only distorted our economic thought it has also distorted our political thought our sociology and our concept of the rule of law the result has been that the trickle down policies promoted by the republican party are undermining our economy democracy institutions and health for further discussion contact author at johnjseip gmail com

The Trickle-Down Delusion 2016-05-02

the pulitzer prize winning columnist s astonishing and enthralling new york times bestseller and notable book about how the founders belief in natural rights created a great american political tradition
booklist easily one of the best books on american conservatism ever written jonah goldberg for more than four decades george f will has

attempted to discern the principles of the western political tradition and apply them to america s civic life today the stakes could hardly be higher vital questions about the nature of man of rights of equality of majority rule are bubbling just beneath the surface of daily events in america the founders vision articulated first in the declaration of independence and carried out in the constitution gave the new republic a framework for government unique in world history their beliefs in natural rights limited government religious freedom and in human virtue and dignity ushered in two centuries of american prosperity now as will shows conservatism is under threat both from progressives and elements inside the republican party america has become an administrative state while destructive trends have overtaken family life and higher education semi autonomous executive agencies wield essentially unaccountable power congress has failed in its duty to exercise its legislative powers and the executive branch has slipped the constitution s leash in the intellectual battle between the vision of founding fathers like james madison who advanced the notion of natural rights that pre exist government and the progressivism advanced by woodrow wilson the founders have been losing it s time to reverse america s political fortunes expansive intellectually thrilling and written with the erudite wit that has made will beloved by millions of readers the conservative sensibility is an extraordinary new book from one of america s most celebrated political writers

The Conservative Sensibility 2019-06-04

the role of leaders is never more crucial than during times of war the ability to inspire confidence and communicate resolution is essential to the national interest the requirements of leadership are not limited to military affairs citizens look to leaders to guide the economy protect the laws and safeguard national values leadership has never been simple but it is even more complicated in the age of mass democracy globalization the power of the media and the constraints of bureaucracy are among the many challenges facing leaders at the beginning of the twenty first century what do leaders need to know in order to be effective carnes lord an eminent political scientist who has held a number of high level positions in the united states government here offers witty and trenchant counsel to both leaders and the citizens who elect them exploring such issues as leadership in war and crises diplomacy the use of secret intelligence the role of political advisors and the media lord enumerates the major challenges confronting modern leaders and offers practical advice on how leaders can deal with them effectively

The Modern Prince 2008-10-01

this book explores the founders conception of american political order including traditional american rights and their relation to the rule of law the purpose of government the meaning of social contract the elements of liberal democracy and various assumptions explicit and implicit underlying the founders constitutional design

Freedom and Political Order 2018-01-11

for forty years harvey mansfield has been worth reading whether plumbing the depths of machiavellian discourses or explaining what was at stake in bill clinton's impeachment mansfield's work in political philosophy and political science has set the standard in educating the prince twenty one of his students themselves distinguished scholars try to live up to that standard their essays offer penetrating analyses of machiavellianism liberalism and america all of them informed by mansfield's own work the volume also includes a bibliography of mansfield's writings

Educating the Prince 2000

multiculturalism and the politics of guilt extends paul gottfried's examination of western managerial government's growth in the last third of the twentieth century linking multiculturalism to a distinctive political and religious context the book argues that welfare state democracy unlike bourgeois liberalism has rejected the once conventional distinction between government and civil society gottfried argues that the west's relentless celebrations of diversity have resulted in the downgrading of the once dominant western culture the moral rationale of government has become the consciousness raising of a presumed majority population while welfare states continue to provide entitlements and fulfill the other material programs of older welfare regimes they have ceased to make qualitative leaps in the direction of social democracy for the new political elite nationalization and income redistributions have become less significant than controlling the speech and thought of democratic citizens an escalating hostility toward the bourgeois christian past explicit or at least implicit in the policies undertaken by the west and urged by the media is characteristic of what gottfried labels an emerging therapeutic state for gottfried acceptance of an intrusive political correctness has transformed the religious consciousness of western particularly protestant society the casting of true christianity as a religion of sensitivity only toward victims has created a precondition for extensive social engineering gottfried examines late twentieth century liberal christianity as the promoter

of the politics of guilt metaphysical guilt has been transformed into self abasement in relation to the suffering just identified with racial cultural and lifestyle minorities unlike earlier proponents of religious liberalism the therapeutic statistis oppose anything including empirical knowledge that impedes the expression of social and cultural guilt in an effort to raise the self esteem of designated victims equally troubling to gottfried is the growth of an american empire that is influencing european values and fashions europeans have begun he says to embrace the multicultural movement that originated with american liberal protestantism s emphasis on diversity as essential for democracy he sees europeans bringing authoritarian zeal to enforcing ideas and behavior imported from the united states multiculturalism and the politics of guilt extends the arguments of the author s earlier after liberalism whether one challenges or supports gottfried s conclusions all will profit from a careful reading of this latest diagnosis of the american condition

Multiculturalism and the Politics of Guilt

2004-01-02

what you believe about politics matters the decades since the cold war with new alignments of post 9 11 global politics and the chaos of the late 2010s are swirling with alternative visions of political life ranging from ethnic nationalism to individualistic liberalism political ideologies are not merely a matter of governmental efficacy but are intrinsically and inescapably religious each carries certain assumptions about the nature of reality individuals and society as well as a particular vision for the common good these fundamental beliefs transcend the political sphere and the astute christian observer can discern the ways sometimes subtle sometimes not in which ideologies are rooted in idolatrous worldviews in this freshly updated comprehensive study political scientist david koyzis surveys the key political ideologies of our era including liberalism conservatism nationalism democracy and socialism koyzis gives each philosophy careful analysis and fair critique unpacking the worldview issues inherent to each and pointing out essential strengths and weaknesses as well as revealing the narrative structure of each the stories they tell to make sense of public life and the direction of history koyzis concludes by proposing alternative models that flow out of christianity s historic engagement with the public square retrieving approaches for both individuals and the global institutional church that hold promise for the complex political realities of the twenty first century writing with broad international perspective and keen analytical insight koyzis is a sane and sensible guide for christians working in the public square culture watchers political pundits and all students of modern political thought

Political Visions & Illusions 2019-05-07

during the 1990s both the united states and britain shifted from entitlement to work based systems for supporting their poor citizens much research has examined the implications of welfare reform for the economic well being of the poor but the new legislation also affects our view of democracy and how it ought to function by eliminating entitlement and setting behavioral conditions on aid welfare reform challenges our understanding of citizenship political equality and the role of the state in welfare reform and political theory editors lawrence mead and christopher beam have assembled an accomplished list of political theorists social policy experts and legal scholars to address how welfare reform has affected core concepts of political theory and our understanding of democracy itself welfare reform and political theory is unified by a common set of questions the contributors come from across the political spectrum each bringing different perspectives to bear carole pateman argues that welfare reform has compromised the very tenets of democracy by tying the idea of citizenship to participation in the marketplace but william galston writes that american citizenship has in some respects always been conditioned on good behavior work requirements continue that tradition by promoting individual responsibility and self reliance values essential to a well functioning democracy desmond king suggests that work requirements draw invidious distinctions among citizens and therefore destroy political equality amy wax on the other hand contends that ending entitlement does not harm notions of equality but promotes them by ensuring that no one is rewarded for idleness christopher beam argues that entitlement welfare served a social function acknowledging the social value of care that has been lost in the movement towards conditional benefits stuart white writes that work requirements can be accepted only subject to certain conditions while lawrence mead argues that concerns about justice must be addressed only after recipients are working alan deacon is well to the left of joel schartz but both say government may actively promote virtue through social policy a stance some other contributors reject the move to work centered welfare in the 1990s represented not just a change in government policy but a philosophical change in the way people perceived government its functions and its relationship with citizens welfare reform and political theory offers a long overdue theoretical reexamination of democracy and citizenship in a workfare society

Welfare Reform and Political Theory 2006-01-05

the 1992 presidential election campaign showed just how deep were the divisions within the republican party in beautiful losers samuel

francis argues that the victory of the democratic party marks not only the end of the reagan bush era but the failure of the american conservatism

Beautiful Losers 1994-08-01

a renowned political philosopher updates his classic book on the american political tradition to address the perils democracy confronts today the 1990s were a heady time the cold war had ended and america's version of liberal capitalism seemed triumphant and yet amid the peace and prosperity anxieties about the project of self government could be glimpsed beneath the surface so argued michael sandel in his influential and widely debated book democracy's discontent published in 1996 the market faith was eroding the common life a rising sense of disempowerment was likely to provoke backlash he wrote from those who would shore up borders harden the distinction between insiders and outsiders and promise a politics to take back our culture and take back our country to restore our sovereignty with a vengeance now a quarter century later sandel updates his classic work for an age when democracy's discontent has hardened into a country divided against itself in this new edition he extends his account of america's civic struggles from the 1990s to the present he shows how democrats and republicans alike embraced a version of finance driven globalization that created a society of winners and losers and fueled the toxic politics of our time in a work celebrated when first published as a remarkable fusion of philosophical and historical scholarship alan brinkley sandel recalls moments in the american past when the country found ways to hold economic power to democratic account to reinvigorate democracy sandel argues in a stirring new epilogue we need to reconfigure the economy and empower citizens as participants in a shared public life

Democracy's Discontent 2022-10-28

the papers assembled in this book originated from and span the recent decades of intensive economic globalization and international interaction up to the present period of the commercialized digital world accompanied by american and international crisis high hopes of the benefits of trade expansion international cooperation growing prosperity and a rules based international order have given way to the unpredictable contingencies of human action and history pandemics severe economic and social dislocations domestic division frequent political dysfunction and growing threats of intensified international conflict this book places contemporary problems of american democracy and the threat of authoritarian systems within the context of the success and failures of american history problems of moral authority

in american society and the need for political and moral balance in the us constitutional system

Oligarchic Structures and Majority Faction

2022-09-27

everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government we are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals the search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling but what to these concepts mean and do their torchbearers grasp the underlying philosophies or do they care this bibliography lists over hundreds of entries under each category which are then indexed by title an author

Liberalism Versus Conservatism 2000

this case study of transportation policy for disabled people illustrates the flaws in policymaking that lead many americans to believe government is not working as it should robert a katzmann examines the workings of the legislative administrative and judicial processes both separately and in interaction as he relates the erratic path of transportation policy for the disabled over two decades an estimated 13 4 million people in this country have difficulty using public transportation but the federal response to their problems of mobility is of fairly recent vintage beginning with legislation in the early 1970s since then there have been many twists and turns in policy involving a wide array of governmental institutions these constant shifts have confused state and local governments the transit industry and the disabled community assessing why policy was so erratic katzmann concludes that in part the confusion resulted from the inability to choose between conflicting approaches to the problem one oriented toward the rights of equal access for the disabled and the other favoring effective mobility by any practical means in addition the conflict between these two policy approaches was compounded by increasing fragmentation within and among national institutions

Institutional Disability 2010-12-01

in this book one of the few academic works to scrutinise the major figures of american conservatism since the reagan bush era began the contributors identify and assess current trends in conservative

political thought through their profiles of conservative opinion leaders these scholars offer even handed critical examinations not only of the

American Conservative Opinion Leaders

2019-03-04

education roads less traveled examines in depth the origins reach and effects of america s four year college bias

Education Roads Less Traveled 2019-02-15

christianity politics and the predicament of evil overcomes a defining divide in contemporary protestant political ethics created by two contrasting conceptions of politics the first exemplified in the work of reinhold niebuhr construes politics as a matter of statecraft that utilizes the power of government to secure the greatest possible order and justice for society as a whole the second most prominently articulated by stanley hauerwas maintains that politics concerns itself with the cultivation of virtue consequently it finds not the well ordered state but the church to be the exemplar of politics not only illuminating the divide between politics as statecraft and politics as soulcraft but also redeveloping the conceptual space between them this book reconceives politics within a theological framework in which the eschatological city of god rather than the well ordered state or the faithful church functions as the paradigm of political life at the same time it simultaneously recognizes that the existence of evil which corrupts individual wills and social structures inhibits human beings from building the city of god in this world analyzing criticizing and drawing resources from niebuhr and hauerwas as well as looking beyond to augustine martin luther king jr and others this book specifies the respective roles of soulcraft and statecraft in a political ethic capable of guiding christians as they witness to god s eschatological intention to establish the city of god in a world currently mired in the predicament of evil

Christianity, Politics, and the Predicament of Evil 2019

this book examines the far reaching changes made to the constitution in the united kingdom in recent decades it considers the way these reforms have fragmented power once held centrally through the crown in parliament by means of devolution referendums and judicial reform it examines the reshaping of the balance of power between the executive legislature and the way that prerogative powers have been curtailed by

statute and judicial ruling it focuses on the human rights act and the creation of the uk supreme court which emboldened the judiciary to limit executive action and even to challenge parliament and argues that many of these symbolised an attempt to shift the political constitution to a legal one many virtues have been ascribed to these reforms to the extent that criticism exists it is often to argue that these reforms do not go far enough an elected upper chamber regional english parliaments further electoral reform and a codified constitution are common tonics prescribed by commentators from this point of view this volume adopts a different approach it provides a critical evaluation of these far reaching reforms drawing from the expertise of highly respected academics and experienced political figures from both the left and right the book is an invaluable source of academic expertise and practical insights for the interested public students policymakers and journalists who too often are only exposed to the further reform position

Sceptical Perspectives on the Changing Constitution of the United Kingdom 2023-04-20

who s watching surveillance big data and applied ethics in the digital age critically examines the ethical use of surveillance data through the lens of large institutions including corporations or government agencies particularly including the collection and use of big data sets

Who's watching? Surveillance, big data and applied ethics in the digital age 2022-07-12

why whisper calls on americans who believe in traditional values to resist the urge to stay silent and thus safe under the shameless onslaught of pressure intimidation and ridicule from the san francisco loving ny times reading multicultural anti business french first tree hugging secular progressives and liberal political elites

Why We Whisper 2007

can public schools in america be saved this book considers theory current practice and the common school ideal through a historical lens to arrive at practical suggestions for reforming contemporary public education despite dramatic sweeping changes in recent decades a strong case can be made for guiding the reformation of contemporary public education in the united states on common school ideology of the nineteenth century the author argues that the common school remains a public institution capable of preparing america s youth to contribute

to the community in a positive manner and that education must be treated at a public good where all children regardless of social class have a right to a quality education the work includes a thorough overview of horace mann s writings on k 12 public education that support the common school ideal concepts that are over 150 years old yet still highly relevant today

Old School Still Matters 2013-08-12

this book provides readers with a single source reviewing and updating sociological theory in medical or health sociology the book not only addresses the major theoretical approaches in the field today it also identifies the future directions these theories are likely to take in explaining the social processes affecting health and disease many of the chapters are written by leading medical sociologists who feature the use of theory in their everyday work including contributions from the original theorists of fundamental causes health lifestyles and medicalization theories focusing on both agency and structure are included to provide a comprehensive account of this important area in medical sociology

Medical Sociology on the Move 2013-04-03

continuing the analysis of contemporary issues through the lens of ancient theories beyond the themes of enduring empire and the award winning on oligarchy on civic republicanism explores the enduring relevance of the ancient concepts of republicanism and civic virtue to modern questions about political engagement and identity examining both ancient and early modern conceptions of civic republicanism the contributors respond to the work of thinkers ranging from plato and aristotle to machiavelli montesquieu and wollstonecraft a testament to the continuing influence of the concept and the ongoing scholarly debate which surrounds it on civic republicanism addresses fundamental questions regarding democratic participation liberal democracy and the public good its essays speak to the many ways in which the idea of the republic still challenges us today

Major 20th-century Writers 1991

the politics of envy is a fit and proper sequel to the author s previous book the politics of plunder but beyond the previous collection doug bandow herein offers a theoretical rationale for the current malaise in central government in the united states he sees the core problem as the immense increase in government spending combined with regulatory machinery that extends to every area of life from the uses of private property occupational choices to issues of employment

trade and taxation bandow sees these centrifugal forces as gaining ground over personal virtue and freedom without much regard to party labels indeed he is at pains to point out that spending and regulation rose particularly dramatically during the previous bush administration and shows few signs of abetting during the current clinton administration but the work emphasizes not simply federal government initiatives to curb freedom of choice but how this extends to sociological and ideological trends in which extremists pit the values of liberty and virtue against each other while the book covers familiar ground issues of abortion environment collective security and national defense international debt health and welfare it does so with a unified theory of a morally centered approach to political questions of the times written with his customary verve the book beckons to become a benchmark of libertarian thought one that will appeal to people for whom questions of political morality remain unsettled as well as unsettling

On Civic Republicanism 2016-02-24

the long running debates between conservatives and libertarians are vigorous and highly charged dealing with ideas about the very nature of liberty and morality like no other single work freedom and virtue explores what unites and divides the adherents of these two important american traditions shedding much light on our current political landscape

Michigan Journal of Political Science 1986

governments and bureaucracies are bigger and more controlling than ever a citizen's own ability to control his or her own life has never been less than it has today how did we get to this point jim bovard bestselling author of lost rights looks at the development of the state into a behemoth that threatens to destroy the individual at the cost of preserving the idea of statism the belief that government is inherently superior to the citizenry that progress consists of extending the realm of governmental compulsion and that vesting more arbitrary power in government officials will eventually make citizens happy reading through the history of the state and its war on the citizen bovard looks at thinkers as diverse as john locke etienne de la boetie james madison and bernard bosanquet among others he explores the original version of the idea of the state the development of the welfare state the progress of the state's judicial system from the original province of the courts into the lives of men and women and the ultimate fraud that is perpetrated as the state's benevolence controversial and essential reading in these times of the leviathan state freedom in chains is must reading for everyone who took jim

bovard s lost rights to heart as well as anyone trying to understand how far we ve come from our eighteenth century roots as a community of impassioned patriots to our sorry positions as wards of the state at the end of the 20th century

The Politics of Envy 2018-04-17

joshua hawley examines roosevelt s political thought to arrive at a revised understanding of his legacy he sees roosevelt as galvanizing a 20 year period of reform that permanently altered american politics and americans expectations for government social progress and presidents

Freedom and Virtue 2023-05-16

around the world politicians and intellectuals seek to restore civil society by cultivating stronger public ethics and social institutions this text presents classic writings of leading scholars and organizers who have brought the civil society debate to the forefront
