this book probes the relationship between martin heidegger and theology in light of the discovery of his black notebooks which reveal that his privately held antisemitism and anti christian sentiments were profoundly intertwined with his philosophical ideas heidegger himself was deeply influenced by both catholic and protestant theology this prompts the question as to what extent christian anti jewish motifs shaped heidegger s own thinking in the first place a second question concerns modern theology s intellectual indebtedness to heidegger in this volume an array of renowned heidegger scholars both philosophers and theologians investigate heidegger s animosity toward the biblical legacy in both its jewish and christian interpretations and what it means for the future task and identity of theology

this book collects a fascinating series of letters written by theologian philosopher romano guardini in the mid 1920s in which he works out for the first time his sense of the challenges of humanity in a culture increasingly dominated by the machine with prophetic clarity and unsettling farsightedness guardini s letters poignantly capture the personal implications and social challenges of living in the technological age concerns that have now come to fruition seventy years after they were first raised

Letters from Lake Como 1994-06-10

much has been written about the great personalist philosophers of the 20th century but few books cover the personalist movement as a whole an introduction to personalism fills that gap and presents an engaging anthropological vision capable of taking the lead in the debate about the meaning of human existence and of winning hearts and minds for the cause of the dignity of every person

the religious sense the fruit of many years of dialogue with students is an exploration of the search for meaning in life luigi giussani shows that the nature of reason expresses itself in the ultimate need for truth goodness and beauty these needs constitute the fabric of the religious sense which is evident in every human being everywhere and in all times so strong is this sense that it leads one to desire that the answer to life s mystery might reveal itself in some way

The Religious Sense 1997-10-24

romano guardini s the spirit of the liturgy helped us to rediscover the liturgy in all its beauty hidden wealth and time transcending grandeur to see it as the animating center of the church the very center of christian life we were now willing to see the liturgy as the prayer of the church a prayer moved and guided by the holy spirit himself a prayer in which christ unceasingly becomes contemporary with us enters into our lives joseph cardinal ratzinger in the constitution on the sacred liturgy the fathers of the second vatican council wrote that liturgical reform and renewal must accord with what they called the spirit of the liturgy but what did they mean by this popes had written and spoken about this spirit in the decades before the council but another important source is the 1918 book the spirit of the liturgy by romano guardini which pope benedict xvi credits with sparking the liturgical movement in germany the seven gifts of the spirit of the liturgy is a study of guardini s watershed text with contributions from bishop arthur serratelli cassian folsom o s b michon matthiesen david fagerberg daniel cardó bishop james conley emery de gaál and susan benofy as well as christopher carstens it analyzes each of the seven core features of the liturgical spirit as guardini defined it objective corporate universal symbolic meaningful beautiful and logical the second vatican council saw each of these seven characteristics as integral to authentic liturgical reform too often they remain absent from liturgical celebrations even today when subjectivism and individualism take the place of an objective corporate spirit when custom made liturgies neglect the dimension of universality when frivolous anemic symbols stand in for a robust symbolism that truly manifests christ when beauty and seriousness fade into the background we hold back the spirit of the liturgy if we don t know what it is if we don t desire it and if we don t work to let it animate liturgical prayer and practice for this reason nine experts on the liturgy recall in this book guardini s key spiritual insights showing how these can deepen our liturgical understanding and practice today

assaults on the dignity and rights of the human person have been central to the ongoing crisis of the modern era in the last hundred years this book takes a searching look at the roots of this problem and the various approaches to it by the eight men who led the catholic church in the twentieth century from pope st pius x and his crusade against modernism to pope st john paul ii and his appeal for a renewed rapprochement between faith and reason thus it offers a distinctive illuminating interpretation of recent world events viewed through the lens of an ancient institution the papacy a key champion of human rights under attack in modern times the fascinating story is told through short profiles of the eight popes combining crucial often little known facts about each by an author who is a veteran observer of church affairs a former top official of the conference of bishops of the usa and consultant to the vatican it is written clearly and simply but with carefully documented precision a special feature are the substantial excerpts from the writings of the popes that give important insights into their personalities and thinking it also includes a useful overview of the second vatican council 1962-65 and its pivotal role in reshaping the catholic church eight popes and the crisis of modernity contains judgments that will be challenged by partisans of both liberal and conservative ideological persuasions but serious and open minded readers catholics and non catholics alike will find it an informative timely and inspiring guide to understanding many central events and issues of our times while students of church history will find it indispensable

new softcover edition with index considered by ratzinger devotees as his greatest work on the liturgy this profound and beautifully written treatment of the great prayer of the church will help readers rediscover the liturgy in all its hidden spiritual wealth and transcendent grandeur as the very center of our christian life among the many liturgical issues that he covers in this work cardinal ratzinger discusses fundamental misunderstandings of the second vatican council's intentions for liturgical renewal especially the orientation of prayer at the eucharistic sacrifice the placement of the tabernacle and the posture of kneeling other important topics he discusses include the following the essence of worship jewish roots and new elements of the christian liturgy the historic and cosmic dimensions of the liturgy the relationship of the liturgy to time and space art music and the liturgy active participation of all the faithful gestures posture and vestments my purpose here is to assist this renewal of understanding of the liturgy its basic intentions coincide with what guardini wanted to achieve the only difference is that i have had to translate what guardini did at the end of the first world war in a totally different historical situation into the context of our present day questions hopes and dangers like guardini i am not attempting to involve myself with scholarly discussion and research i am simply offering an aid to the understanding of the faith and to the right way to give the faith its central form of expression in the liturgy joseph cardinal ratzinger from the preface

this unique work analyzes the crisis in modern society building on the ideas of the frankfurt school thinkers emphasizing social evolution and learning processes it argues that crisis is mediated by social class conflicts and collective learning the results of which are embodied in constitutional and public law first the work outlines a new categorical framework of critical theory in which it is conceived as a theory of crisis it shows that the marxist focus on economy and on class struggle is too narrow to deal with the range of social conflicts within modern society and posits that a crisis of legitimization is at the core of all crises it then discusses the dialectic of revolutionary and evolutionary developmental processes of modern society and its legal system this volume in the critical theory and contemporary society by a leading scholar in the field provides a new approach to critical theory that will appeal to anyone studying political sociology political theory and law

karl rahner who died in 1984 at the age of eighty is recognized as one of the greatest of twentieth century roman catholic theologians but his works are forbidding in their extent the list of his writings numbers over 4000 titles and his language has often been found extremely difficult by his readers moreover many of those who never had the opportunity to meet him know little about his personality and his life in this attractive study herbert vorgrimler a former pupil and lifelong friend demonstrates that rahner's work is not as unapproachable as it is made out to be he begins by producing a portrait of rahner his personal characteristics his main interests his style his language his audience and his spirituality so that without having specific details of his work and career we feel that we know the man we are to meet then he traces the course of rahner's life setting his major writings in a personal context and against the background of the development of roman catholic theology in the twentieth century before and after the second vatican council an appendix illuminates the council from letters by rahner to the author some of which appear for the first time

why bother with church can't i follow jesus on my own christians young and old struggle to answer these questions believing scripture says little about church life but the bible is far from silent the new testament envisions a vibrant church of devoted brothers and sisters adopted into god's family the biblical image of the church family has the power to reshape everything our local churches do the ways pastors lead how members engage one another what worship leaders sing and much more now is the time to reclaim a biblical vision of the church as a family and reject the prevailing corporate church paradigm assumed by church growth gurus the church that thinks of itself as a family will learn to build meaningful relationships and show the unbelieving world how good church life can be

a commonly held impression is that pope francis is a compassionate shepherd and determined leader but that he lacks the intellectual depth of his recent predecessors massimo borghesi's the mind of pope francis jorge mario bergoglio's intellectual journey dismantles that image borghesi recounts and analyzes for the first time bergoglio's intellectual formation

exploring the philosophical theological and spiritual principles that support the profound vision at the heart of this pope's teaching and ministry central to that vision is the church as a coincidentia oppositorum holding together what might seem to be opposing and irreconcilable realities among his guiding lights have been the jesuit saints ignatius and peter faber philosophers gaston fessard romano guardini and alberto methol ferrer and theologians henri de lubac and hans urs von balthasar recognizing how these various strands have come together to shape the mind and heart of jorge mario bergoglio offers essential insights into who he is and the way he is leading the church notably this groundbreaking book is informed by four interviews provided to the author via audio recordings by the pope himself on his own intellectual formation major portions of which are published here for the first time

in everything from philosophical ethics to legal argument to public activism it has become commonplace to appeal to the idea of human dignity in such contexts the concept of dignity typically signifies something like the fundamental moral status belonging to all humans remarkably however it is only in the last century that this meaning of the term has become standardized before this dignity was instead a concept associated with social status unfortunately this transformation remains something of a mystery in existing scholarship exactly when and why did dignity change its meaning and before this change was it truly the case that we lacked a conception of human worth akin to the one that dignity now represents in this volume leading scholars across a range of disciplines attempt to answer such questions by clarifying the presently murky history of dignity from classical greek thought through the middle ages and enlightenment to the present day

prayer can feel mysteriously difficult boringly perfunctory and frustratingly out of our control often prayer brings us comfort but sometimes especially when there aren't easy resolutions or prayers go unanswered it intensifies and focuses our sense of longing pain and care and often god uses our times of darkness and desperation to awaken our hearts to the ache within us and the cries of those suffering around us prayer is all about coming before god to face life head on with all its jagged edges of mystery joy longing and agony in fact says pastor matt woodley prayer is actually a real encounter with the untamable god and father of our lord jesus christ and therefore our experience of it should reflect the power mystery and

even risk of entering into relationship with the lord of the universe in this book woodley strips away all the religious speak and presuppositions we have about prayer distilling it to the essence of wholehearted engagement with the living god exploring an earthy unadorned jargon free approach to prayer woodley unpacks a host of fresh synonyms for god encounters including prayer as desperation invocation mystery astonishment groaning and even absence these marginal ways of praying compel us to engage marginal people the desperate the groaning the victimized and the ignored as we pray god will open our eyes to the pain of the world around us with stories from his own experience and biblical and historical examples woodley gives fresh language to describe a life grounded in prayer that leads to compassion and service
