The Origines of Contemporary France 1876

this book explores the personification inherent in the notion of wilhelmian germany by investigating the psychological dimension of wilhelm ii s leadership of the germans despite his historical reputation many germans welcomed the kaiser s leadership the years between 1890 and 1914 were known as the wilhelmian era in germany and even critics of wilhelm ii thought it somehow fitting that he should be the german emperor the author argues that wilhelm ii s personal needs and the needs of germans in an age of intense nationalism made him the symbol of the nation
