*Diario di Gusen* 2008-01 in 1945 french political prisoners returning from the concentration camps of germany coined the phrase the concentrationary universe to describe the camps as a terrible political experiment in the destruction of the human this book shows how the unacknowledged legacy of a totalitarian mentality has seeped into the deepest recesses of everyday popular culture it asks if the concentrationary now infests our cultural imaginary normalizing what was once considered horrific and exceptional by transforming into entertainment violations of human life

**Diario di Gusen** 1973 this significant new study is concerned with the role of interpreting in nazi concentration camps where prisoners were of 30 to 40 different nationalities with german as the only official language in the lager communication was vital to the prisoners survival while in the last few decades there has been extensive research on the language used by the camp inmates investigation into the mediating role of interpreters between ss guards and prisoners on the one hand and among inmates on the other has been almost nonexistent on the basis of primo levi's considerations on communication in the nazi concentrationary system this book investigates the ambivalent role of interpreting in the camps one of the central questions is what the role of interpreting was in the wider context of shaping life in concentration camps and in what way did the knowledge of languages and accordingly certain communication skills contribute to the survival of concentration camp inmates and of the interpreting person the main sources under investigation are both archive materials and survivors memoirs and testimonials in various languages on a different level interpreting in nazi concentration camps also asks in what way the study of communication in concentration camps enhances our understanding of the ambiguous role of interpreting in more general terms and in what way does the study of interpreting in concentration camps shape an interpreting concept which can help us to better understand the violent nature of interpreting in contexts other than the holocaust

**Concentrationary Memories** 2015-08-25 for too long the approach to seemingly universal experiences like love death and even time in film has been dominated by the global north but what if such explorations developed horizontally instead drawing from both european and african cultural theorists including gilles deleuze and wole soyinka vlad dima invites us to consider what happens to postcolonial african film if we no longer privilege the idea of time how else might we understand the cinematic image and how would its meanings change meaninglessness time rhythm and the undead in postcolonial cinema is a study of meaning and meaninglessness through the figure of the undead beginning with francophone africa and extending to postcolonial france through the analysis of films like mati diop's atlantics and jean pierre bekolo's miraculous weapons dima shows how the african cinematic image may produce meaning without any attachment to european time and how that meaning is connected instead to the philosophy of negritude and to the notion of rhythm meaninglessness introduces the concept of the rhythm sequence as a new way to understand the african moving image

**Art and Humanist Ideals** 2003 this book examines the intersection of trauma and the gothic in six contemporary british novels martin amis s london fields margaret drabble s the gates of ivory ian mcewan s atonement pat barker s regeneration and double vision and kazuo ishiguro s never let me go in these works the gothic functions both as an expression of societal violence at the turn of the twenty first century and as a response to the related crisis of representation brought about by the contemporary individual s highly mediated and spectatorial relationship to this violence by locating these six novels within the gothic tradition this work argues that each text to borrow a term from jacques derrida participates in the gothic in ways that both uphold the paradigm of unspeakability that has come to dominate much trauma fiction as well as push its boundaries to complicate how we think of the

ethical relationship between witnessing and writing trauma
