the world strong financial resources enviable market position and state of the art technology but if leadership fails all of these advantages melt away manfred kets de vries organizations are like automobiles they don t run themselves except downhill leadership now requires very different behavior from the leadership tradition we are used to it requires leaders who speak to the collective imagination of their people co-opting them to join in the business journey leaders who are able to motivate people to full commitment and have them make that extra effort it s all about human behavior it s about understanding the way people and organizations behave about creating relationships about building commitment and about adapting your behavior to lead in a creative and motivating way so ask yourself what you re doing about the leadership factor how do you execute your own leadership style whether you work on the shop floor or have a corner office on the top floor of a shimmering skyscraper what have you done today to be more effective as a leader there are no quick answers to leadership questions and there are no easy solutions in fact the more we learn the more it seems there is to learn in the leadership mystique management and psychology guru manfred kets de vries unpicks the many layers of complexity that underlie effective leadership and gets to the heart of the day to day behavior of leading people in the human enterprise this user s manual describes a longitudinal database designed to permit the storage retrieval and analyses of gunnery related data
