**Reputation and Judicial Tactics** 2015 this book argues that national and international courts seek to enhance their reputations through the strategic exercise of judicial power courts often cannot enforce their judgments and must rely on reputational sanctions to ensure compliance one way to do this is for courts to improve their reputation for generating compliance with their judgments when the court's reputation is increased parties will be expected to comply with its judgments and the reputational sanction on a party that fails to comply will be higher this strategy allows national and international courts which cannot enforce their judgments against states and executives to improve the likelihood that their judgments will be complied with over time this book describes the judicial tactics that courts use to shape their judgments in ways that maximize their reputational gains

**Building Web Reputation Systems** 2010-03-04 what do amazon's product reviews ebay's feedback score system slashdot's karma system and xbox live's achievements have in common they're all examples of successful reputation systems that enable consumer websites to manage and present user contributions most effectively this book shows you how to design and develop reputation systems for your own sites or web applications written by experts who have designed web communities for yahoo and other prominent sites building reputation systems helps you ask the hard questions about these underlying mechanisms and why they're critical for any organization that draws from or depends on user-generated content it's a must-have for system architects product managers community support staff and ui designers scale your reputation system to handle an overwhelming inflow of user contributions determine the quality of contributions and learn why some are more useful than others become familiar with different models that encourage first-class contributions discover tricks of moderation and how to stamp out the worst contributions quickly and efficiently engage contributors and reward them in a way that gets them to return examine a case study based on actual reputation deployments at industry-leading social sites including yahoo flickr and ebay

**Rules of Evidence as Prescribed by the Common Law** 1898 from the author of the sound of things falling a powerful novel about a legendary political cartoonist javier mallarino is a living legend he is his country's most influential political cartoonist the conscience of a nation a man capable of repealing laws overturning judges' decisions and destroying politicians' careers with his art his weapons are pen and ink those in power fear him and pay him homage after four decades of a brilliant career he's at the height of his powers but this all changes when he's paid an unexpected visit by a young woman who upends his personal history and forces him to reconsider his life and work questioning his position in the world in reputations juan gabriel vásquez examines the weight of the past how a public persona intersects with private histories the burdens and surprises of memory in this intimate novel vásquez once again brilliantly plumbs universal experiences to create a masterly story one that reverberates long after you turn the final page

**Reputations** 2016-09-20 by approaching an important foreign policy issue from a new angle jonathan mercer comes to a startling controversial discovery a nation's reputation is not worth fighting for he presents the most comprehensive examination to date of what defines a reputation when it is likely to emerge in international politics and with what consequences mercer examines reputation formation in a series of crises before world war i he tests competing arguments one from deterrence theory the other from social psychology to see which better predicts and explains how reputations form extending his findings to address recent crises such as the gulf war he also considers how culture gender and nuclear weapons affect reputation throughout history wars have been fought in the name of reputation mercer rebuts this politically powerful argument shows that reputations form differently than we thought and offers policy advice to decision makers

**Reputation and International Politics** 2018-09-05 university rankings have gained popularity around the world and are now a significant factor shaping reputation this book is the first comprehensive study of rankings from a global perspective making an important contribution to our understanding of the rankings phenomenon this book has also been published in japanese

**The Girl with Rhythm in Her Heart** 2021-10-05 reprint of the original first published in 1860

**Book on the Physician Himself and Things that Concern His Reputation and Success** 1890 this book highlights the recent research on hybrid intelligent systems and their various practical applications it presents 97 selected papers from the 22nd international conference on hybrid intelligent systems his 2022 and 26 papers from the 18th international conference on information assurance and security which was held online from 13 to 15 december 2022 a premier conference in the field of artificial intelligence and machine learning applications his ias 2022 brought together researchers engineers and practitioners whose work involves intelligent systems network security and their applications in industry including contributions by authors from over 35 countries the book offers a valuable reference guide for all researchers students and practitioners in the fields of computer science and engineering

**Essays and Reviews** 1871 the aim of the ceemas conference series is to provide a biennial forum for the presentation of multi-agent research and development results with its particular geographical orientation towards central and eastern europe ceemas has become an internationally recognised event with participants from all over the world after the successful ceemas conferences in st petersburg 1999 cracow 2001 and prague 2003 the 2005 ceemas conference takes place in budapest the programme committee of the conference series consists of established researchers from the region and renowned international colleagues showing the prominent rank of ceemas among the leading events in multi-agent systems in the very competitive field of agent-oriented conferences and workshops nowadays such as aamas wi iat eumas ciamates the special profile of ceemas is that it is trying to bridge the gap between applied research achievements and theoretical research activities our ambition is to provide a forum for presenting theoretical research with an evident application potential implemented application prototypes and their properties as well as industrial case studies of successful but also unsuccessful agent technology deployments this is why the ceemas proceedings volume provides a collection of research and application papers the technical research paper section of the proceedings see pages 11-499 contains pure research

papers as well as research results in application settings while the application papers section see pages 500 530 contains papers focused on application aspects the goal is to demonstrate the real life value and commercial reality of multi agent systems as well as to foster communication between academia and industry in this eld

**The Manuscripts of the Marquess Townshend ...** 1887 russell kirk 1918 1994 is renowned worldwide as one of the founders of postwar american conservatism his 1953 masterpiece the conservative mind became the intellectual touchstone for a reinvigorated movement and began a sea change in the nation s attitudes toward traditionalism a prolific author and wise cultural critic kirk kept up a steady stream of correspondence with friends and colleagues around the globe yet none of his substantial body of personal letters has ever been published letters as colorful and intelligent as the man himself in imaginative conservatism james e person jr presents one hundred and ninety of kirk s most provocative and insightful missives covering a period from 1940 to 1994 these letters trace kirk s development from a shy precocious young man to a public intellectual firm in his beliefs and generous with his time and resources when called upon to provide for refugees the homeless and other outcasts this carefully annotated and edited collection includes correspondence between kirk and figures such as t s eliot william f buckley jr ray bradbury arthur schlesinger jr charlton heston nikolai tolstoy wendell berry richard nixon and herbert hoover among many others kirk s conservatism was not primarily political but moral and imaginative focusing always on the relationship of the human soul in community with others and with the transcendent beyond the wealth of autobiographical information that this collection affords it offers thought provoking wisdom from one of the twentieth century s most influential interpreters of american politics and culture

**Selected Addresses, Lectures, and Reviews** 1893 reproduction of the original at last by marion harland

**Book Reviews** 1898 the last decade has seen a substantial increase in commodity computer and network performance increasingly computing addresses collaboration cycle and data sharing and other modes of interaction involving distributed resources grid computing is an emerging technology that enables large scale sharing of widely distributed resources and coordinated problem solving and collaboration between groups of scientists riding on the success of the first two workshops this yearocos workshop continues the tradition of providing a useful forum for discussion among researchers developers and users of grid computing from academia business and industry this volume is a collection of the international contributions presented at the workshop with a focus on grid computing and its applications in science and engineering

Rankings and the Reshaping of Higher Education 2011-03-08 volume 2 of the research in careers series focuses on the search for authenticity in one s career although there has been growing interest in the topic within the popular press relatively little academic research has been completed on authenticity and careers researchers are still refining the concept of authenticity and are just beginning to investigate how it influences the enactment of careers in today s turbulent career landscape this volume offers the first organized effort on the topic this volume contains seven chapters which examine the search for authenticity derived from the kaleidoscope career model mainiero sullivan 2006 chapters 1 and 2 present a review of the literature and an in depth analysis of the construct of authenticity chapter 1 offers a new lens to view career authenticity based on two dimensions of self awareness and adaptability chapter 2 uses two case studies to define how individuals are authentic in their career chapters 3 and 4 examine the authenticity of individuals in different career stages with chapter 3 examining recent college graduates and chapter 4 examining mid to late stage careerists chapters 5 6 and 7 focus on the interplay between social interactions and career authenticity chapter 5 offers a process model that traces how through negotiation a person s identities shape and are shaped by relationships with others leading to the enactment of an authentic career chapter 6 explores how individuals remain authentic in their career while negotiating the conflicting expectations of multiple interest groups chapter 7 examines the complex relationships among career authenticity political behaviors and strain

Conservative Science of Nations 2022-07-21 globalisation and complex europeanisation are two significant challenges currently influencing the restructure of the european nation state and redefining political power for this volume first rate european scholars look at the consequences of these and other challenges faced by european societies contributions revisit traditional objects of political science state sovereignty civil society and citizenship mixing sophisticated empirical analyses with methodological and conceptual innovations including field theory multiple correspondence analysis and the study of space sets combining qualitative and quantitative research techniques and macro and micro levels chapters have in common a contextual analysis of politics through scrutiny of configurations of groups representations and perceptions a transnational perspective is the common thread linking every study in this volume which seeks to avoid methodological nationalism

*Gleanings in Bee Culture* 1894 covering periods ranging from the later middle ages to the end of the 20th century these essays combine to offer a wide ranging examination of the place of hero worship and of exemplary biography in modern history and culture the book seeks to contribute to a growing historical literature on the cults and reputations of heroes and other exemplary figures such as plato isaac newton david livingstone captain scott florence nightingale and nelson mandela the essays explore and illustrate the diverse ways in which the lives and characters of specific individuals have been used as devices for talking about moral and cultural values and political and social identities

*Hybrid Intelligent Systems* 2023-05-24 this two volume book presents the outcomes of the 8th international conference on soft computing for problem solving socpro 2018 this conference was a joint technical collaboration between the soft computing research society liverpool hope university uk and vellore institute of technology india and brought together researchers engineers and practitioners to discuss thought provoking developments and challenges in order to select potential future directions the book highlights the latest advances and innovations in the interdisciplinary areas of soft computing including original research papers on algorithms artificial immune systems artificial neural networks genetic algorithms genetic programming and particle swarm optimization and applications control systems data mining and

clustering finance weather forecasting game theory business and forecasting applications it offers a valuable resource for both young and experienced researchers dealing with complex and intricate real world problems that are difficult to solve using traditional methods

**The Review of Reviews** 1892 reprint of the original first published in 1860

The Route Book of Devon: a Guide for the Stranger and Tourist ... With Maps ... 1871 this book presents case studies of south asian companies that have strategic business implications highlighting the complex interplay of business and social dynamics in south asia this region is a wide agglomeration of very different countries that share somewhat common cultures and issues and yet it is torn apart by religion and politics there is an abundance of local entrepreneurship but a widespread institutional void the book investigates how local companies survive and thrive in this environment and discusses those companies that have withstood the competitive pressure of mncs depicting their management and business practices in today s world where multinationals are so omnipresent that their management and business practices are considered as the de facto recipe for success there is a need to have an alternative view that challenges the ubiquitousness of multinational management practices the case studies in this book focus on the business and management practices of local organizations in south asia and thus provide that alternative viewpoint of how to achieve success in south asia exposing readers to a local perspective on doing business in south asia it is a valuable resource for students and practitioners of management
