Robin Hood: English Outlaw *2023-01-26*

a revealing and well researched insight into the origins of the legend and its traditional influences robert white chairman of the worldwide robin hood society we all have an idea of robin hood england s most famous outlaw a handsome and hooded woodsman in lincoln green emerges from the crowd effortlessly looses his bow at his target and splits another arrow in two to the astonishment of the spectators we can imagine robin hood but why and where have our ideas of the man actually come from what is most surprising about the legend of robin hood and his merry men is how much his tales have deviated since they were first conceived we start almost a thousand years ago with a group of bandits comical and criminal in equal measure who despised the church kidnapped strangers and waged war on lords and landowners but astonishingly and perhaps inexplicably robin was destined for greater things robin like his readership adapted evolved and changed with the long centuries we see him turn into a righteous partisan stealing from the rich and giving to the poor and heroically defending the people from the tyranny of king john until the return of richard the lionheart stories that we think are ancient are often less than a century old politically correct additions from the nascent age of cinema we find him now a hollywood heart throb with perfect teeth designer stubble and an almost supernatural skill in combat and romance as he conquers enemies and lovers alike and as history always reminds us the stories we know are rarely the stories that are true robin hood english outlaw gives a fascinating account of the famed rogue unraveling the layers of legend and myth in search of the man who has always been an enigma the story of robin is inextricably linked with the story of england he shares our greatest achievements our proudest moments and our darkest chapters and this is the enduring legacy of robin hood whether man or myth whether hero or villain he is part of england s story we know robin the merry men and sherwood forest we just don t remember why

An English Tradition? 1896

for hundreds of years english people have claimed that fair play is at the core of their national identity jonathan duke evans looks at the history of fair play in britain from earliest times to the present asking whether it is in fact a british or alternatively an english characteristic at all and if so whether fair play still matters today in an english tradition jonathan duke evans explores the origins of the idea of fair play tracing it back to the classical world and the dark ages and finding its genesis deep within england s social structure charting its early development through both the tales of chivalry and the stories of popular legend the book shows how fair play manifested itself in literature the law the christian religion and the family it examines the way in which fair play was conceived during the ages of slavery and empire and it proposes a new account of the birth of modern sport in the encounter between age old popular games and the victorian cult of amateurism taking in the scottish irish and welsh manifestations of fair play duke evans offers contrasts and comparisons from cultures all around the world and suggests new perspectives on the relevance of fair play in the twenty first century

america s entrance into the wars in vietnam came as a result of several factors among them was the necessity of bolstering french influence in the area in the face of mounting communist expansion this expansion was intensified by the outbreak of the korean war making it necessary for the united states to revamp its southeast asian policy during the french era control of vietnam s rivers streams and canals became necessary this led various factions to develop specialized military units heavily dependent on new types of river craft that could traverse the myriad waterways in vietnam the focal point of this study is a new assessment of the conduct of river warfare drawing on little known french vietnamese and american sources and materials it sheds light on an important aspect of the vietnam war chapters also detail numerous aspects of river warfare not generally covered in other books on the subject

Batman – Arkham City 2024-02-08

armor and weaponry were central to islamic culture not only as a means of conquest and the spread of the faith but also as symbols of status wealth and power the finest arms were made by master craftsmen working with the leading designers goldsmiths and jewelers whose work transformed utilitarian military equipment into courtly works of art this book reveals the diversity and artistic quality of one of the most important and encyclopedic collections of its kind in the west the metropolitan museum s holdings

span ten centuries and include representative pieces from almost every islamic culture from spain to the caucasus the collection includes rare early works among them the oldest documented islamic sword and is rich in helmets and body armor decorated with calligraphy and arabesques that were worn in iran and anatolia in the late fifteenth century other masterpieces include a jeweled short sword yatagan with a blade of watered steel that comes from the court of süleyman the magnificent a seventeenth century gold inlaid armor associated with shah jahan and two gold inlaid flintlock firearms belonging to the guard of tipu sultan of mysore presenting 126 objects each handsomely photographed and richly documented with a detailed description and discussion of its technical historical and artistic importance this overview of the met s holdings is supplemented by an introductory essay on the formation of the collection and appendixes on iconography and on turkman style armor

River Warfare in Vietnam 2023

at a time when few reviewers and critics were taking the study of film seriously robin wood released a careful and thoroughly cinematic commentary on ingmar bergman s films that demonstrated the potential of film analysis in a nascent scholarly field the original ingmar bergman influenced a generation of film scholars and cineastes after its publication in 1969 and remains one of the most important volumes on the director this new edition of ingmar bergman edited by film scholar barry keith grant contains all of wood s original text plus four later pieces on the director by wood that were intended for a new volume that was not completed before wood s death in 2010 in analyzing a selection of bergman s films wood makes a compelling case for the logic of the filmmaker s development while still respecting and indicating the distinctiveness of his individual films wood s emphasis on questions of value what makes a work important how does it address our lives informed his entire career and serve as the basis for many of these chapters in the added material for this new edition wood considers three important films bergman made after the book was first published cries and whispers fanny and alexander and from the life of the marionettes and also includes significant reassessment of persona these pieces provocatively suggest the more political directions wood might have taken had he been able to produce ingmar bergman revisited as he had planned to do before his death in its day ingmar bergman was one of the most important volumes on the swedish director published in english and it remains compelling today despite the multitude of books to appear on the director since film scholars and fans of bergman s work will enjoy this updated volume

Islamic Arms and Armor in The Metropolitan Museum of Art 1979

recent scholarship has challenged the assumption that military commanders during the first world war were inflexible backward looking and unwilling to exploit new technologies instead a very different picture is now emerging of armies desperately looking to a wide range of often untested and immature scientific and technological innovations to help break the deadlock of the western front nowhere is this better illustrated than in the development of tank warfare which both the british and the french hoped would give them a decisive edge in their offensives of 1917 and 1918 whilst the british efforts to develop armoured warfare have been well chronicled there has been no academic study in english on the french tank force the artillerie spéciale during the great war as such this book provides a welcome new perspective on an important but much misunderstood area of the war such was the scale of the french tanks failure in their first engagement in 1917 it was rumoured that the artillerie spéciale was in danger of being disbanded yet by the end of the war it was the world s largest and most technologically advanced tank force this work examines this important facet of the french army s performance in the first world war arguing that the as fought the war in as intelligent and sensible a manner as was possible given the immature state of the technology available no amount of sound tank doctrine could compensate for the fragility of the material for the paucity of battlefield communication equipment and for the lack of tank infantry training opportunities only by 1918 was the french army equipped with enough reliable tanks as well as aircraft and heavy artillery to begin to exercise a mastery of the new form of combined arms warfare the successful french armoured effort outlined in this study including a listing of all the combat engagements of the french tank service in the great war highlights a level of military effectiveness within

A Concise Survey of Western Civilization 2012-12-15

the comic book has become an essential icon of the american century an era defined by optimism in the face of change and by recognition of the intrinsic value of democracy and modernization for many the middle ages stand as an antithesis to these ideals and yet medievalist comics have emerged and endured even thrived alongside their superhero counterparts chris bishop presents a reception history of medievalist comics setting them against a greater backdrop of modern american history from its genesis in the 1930s to the present bishop surveys the medievalist comic its stories characters settings and themes drawn from the european middle ages hal foster s prince valiant emerged from an america at odds with monarchy but still in love with king arthur green arrow remains the continuation of a long fascination with robin hood that has become as central to the american identity as it was to the british the mighty thor reflects the legacy of germanic migration into the united states the rugged individualism of conan the barbarian owes more to the western cowboy than it does to the continental knight errant in the narrative of red sonja we can trace a parallel history of feminism bishop regards these comics as not merely happenstance but each success prince valiant and the mighty thor or failure beowulf dragon slayer as a result and an indicator of certain american preoccupations amid a larger cultural context intrinsically modernist paragons of pop culture ephemera american comics have ironically continued to engage with the european middle ages bishop illuminates some of the ways in which we use an imagined past to navigate the present and plots some possible futures as we valiantly shape

a new century
