Studies in Chinese Philosophy and Philosophical Literature

1990-01-01

graham addresses several fundamental problems in classical chinese philosophy and in the nature and structure of the classical chinese language these inquiries and reflections are both broad based and detailed two sources of continuity bring these seemingly disparate parts into a coherent and intelligible whole first graham addresses that set of fundamental philosophical questions that have been the focus of dispute in the tradition and that have defined its character what is the nature of human nature what can we through linguistic and philosophical scrutiny discover about the date and composition of some of the major texts what sense can we make of the kung sun lung sophistries a second source of coherence is graham s identification and articulation of those basic and often unconscious presuppositions that ground our own tradition by so doing he enables readers to break free from the limits of their own conceptual universe and to explore in the chinese experience a profoundly different world view

The Holy Bible Containing the Old and New Testaments, Together with the Apocrypha

1839

why are philosophers as opposed to say linguists and psychologists puzzled by language how should we attempt to shed philosophical light on the phenomenon of language how to understand language frames its discussion by these two questions the book begins by thinking about the reasons that language is hard to understand from a philosophical point of view and armed with the fruits of that discussion begins searching for an approach to these questions after finding fault with approaches based on philosophical analysis and on translation it undertakes an extended investigation of the programme of constructing a theory of meaning donald davidson s advocacy of that approach becomes pivotal though the book endorses his broad approach it argues strongly against the roles both of truth theory and of radical interpretation

The Holy Bible, Containing the Old and New Testaments

1832

the code of federal regulations is the codification of the general and permanent rules published in the federal register by the executive departments and agencies of the federal government

The Baptist Home Mission Monthly

1897

now that economic development is starting to pick up in many countries in africa the question arises how such development can be balanced with the need for adequate environmental protection this crucial issue inherent in the notion of sustainable development is addressed in this innovative and path breaking volume for the first time academics from seventeen african countries have joined forces to analyse the way in which economic and environmental interests are balanced in their legal systems the authors all use a common framework to improve the comparability of the country studies the different country related chapters do not only provide insights into the formally applicable legal rules law in the books but given that the book brings together academics aware of the practice in africa they also describe the way in which environmental policy functions in practice law in action many case studies with conceptual analyses are provided of pollution incidents and the way in which administrative agencies or courts have on those occasions balanced the interests between the economy society and the environment a critical comparative analysis by the editors points at tendencies towards convergence and points of divergence between the african countries suggestions for policy reform are also formulated showing african countries how they can benefit from experiences in the us and europe this thought provoking volume is a must for anyone academic policymaker or practitioner interested in sustainable development generally and in africa in particular p 4 of cover

Rebecca's Children

1986

principles of insolvency law is widely regarded as the text on insolvency law professor sir roy goode s reputation as the doyen of commercial law has established a unique position for the work as a leading authority in the field the book provides a clear and concise treatment of the general philosophical principles underpinning insolvency law it works as an introduction to this complex area and as such it has a broad market ranging from students and newly qualified practitioners to barristers in court
