Hooked

2014-11-04

revised and updated featuring a new case study how do successful companies create products people can't put down why do some products capture widespread attention while others flop what makes us engage with certain products out of sheer habit is there a pattern underlying how technologies hook us nir eyal answers these questions and many more by explaining the hook model a four step process embedded into the products of many successful companies to subtly encourage customer behavior

through consecutive hook cycles these products reach their ultimate goal of bringing users back again and again without depending on costly advertising or aggressive messaging hooked is based on eyal s years of research consulting and practical experience he wrote the book he wished had been available to him as a start up founder not abstract theory but a how to guide for building better products hooked is written for product managers designers marketers start up founders and anyone who seeks to understand how products influence our behavior eyal provides readers with practical insights to create user habits that stick actionable steps for building products people love fascinating examples from the iphone to twitter pinterest to the bible app and many other habit forming products

Ekonomik yönü ile Denizli

1988

the civil rights movement brought author alice walker and lawyer mel leventhal together and in 1969 their daughter rebecca was born some saw this unusual copper colored girl as an outrage or an oddity others viewed her as a symbol of harmony a triumph of love over hate but after her parents divorced leaving her a lonely only child ferrying between two worlds that only seemed to grow further apart

rebecca was no longer sure what she represented in this book rebecca leventhal walker attempts to define herself as a soul instead of a symbol and offers a new look at the challenge of personal identity in a story at once strikingly unique and truly universal
