A History of Champagne

1882

this work explains how nationhood emerges by viewing countries as cultural artifacts a product of invented traditions in the case of france scholars disagree not only over the nature of french national identity but also over the extent to which diverse and sometimes hostile provincial communities became integrated into the nation the author offers a new perspective by looking at one of the central elements in french national culture luxury wine and the rural communities that profited from its production

The Wine Atlas of France

1987

george argues that before recent improvements in technology and an accompanying new generation of visionary winemakers the wines of the south of france have deserved their relatively lesser reputation after thorough research covering the history of the area s winemaking from 6 b c e to the present and 16 visits to the region george the wines of chablis etc now makes a convincing case for these wines her broad territory is roussillon languedoc provence and corsica and the book is divided accordingly within each region the important wineries are covered in a narrative that is part travel writing and part wine criticism there are also weather tables and vintage guides given the area s current popularity for tourists this book is particularly timely while a summary roundup of wineries for travelers might have been a useful addition george has filled a niche in one big volume recommended for all good wine collections

Discovering the Country Vineyards of France

1999

the contours and terrains of france are detailed by her wine lands for which this book the most comprehensive and detailed guide

available provides a wealth of practical information and inspiration for the wine lover visitor and armchair traveller alike from publisher s description

L'Atlas des vins de France

1998

this book provides a new interpretation of the relationship between consumption drinking culture memory and cultural identity in an age of rapid political and economic change using france as a case study it explores the construction of a national drinking culture the myths symbols and practices surrounding it and then through a multisited ethnography of wine consumption demonstrates how that culture is in the process of being transformed wine drinking culture in france has traditionally been a source of pride for the french and in an age of concerns about the dangers of binge drinking a major cause of jealousy for the british wine drinking and the culture associated with it are for many an essential part of what it means to be french but they are also part of a national construction described by some as a national product or as a totem drink wine and its attendant cultures supposedly characterise frenchness in much the same way as being born in france fighting for liberty or speaking french yet this traditional picture is now being challenged by economic social and political forces that have transformed consumption patterns and led to the fragmentation of wine drinking culture the aim of this book is to provide an original account of the various causes of the long term decline in alcohol consumption and of the emergence of a new wine drinking culture since the 1970s and to analyse its relationship to national and regional identity
