2020-12-29 ceh can be said as a certified ethical hacker this certification is a professional certificate and it is awarded by the ec council international council of e commerce consultant an ethical hacker is a name that is given to penetration testing tester an ethical hacker is employed by the organization with full trust with the employer ethical hacker for attempting the penetrating the computer system in order to find and fix all the computer security vulnerabilities computer security vulnerabilities also include illegal hacking gaining authorization to some other computer systems these activities are criminal activities in almost all countries doing a penetrating test in a particular system with the permission of the owner is done and also possible except in germany this certification validates the knowledge and skills that are required on how to look for the vulnerabilities as well as weaknesses in a particular computer

Neo4j Certified Professional: Exam Practice Tests
2019-06-14 this book contains two high quality practice tests

of 80 questions each with answers and explanations to help you pass or improve your score on the free online neo4j certified professional exam all questions are closely emulated from those currently found in the actual exam so you ll not waste time on anything else unlike the real exam you ll know right away what questions you missed and what the correct answers are detailed explanations with external references for any possible choice in each practice test question quiz types distributed close to 50 multi choice 25 multi select 25 true false domains distributed close to the real exam 40 cypher 30 intro 20 modeling 10 developer questions will test you on neo4j version 3 x but explanations will have updates on deprecated features and change history why not just trying again and again the free online exam until i pass because starting may 2020 you can try only once a day the real online exam because the high number of multi answer questions and the gotcha tricks may give you no idea what went wrong because it is time consuming and you can easily get stuck at the same low scoring mark because nothing tells you where and what you failed and next time you will likely make the same wrong choices because you can hardly improve without knowing what went wrong because you may want to get a better passing score anyway as long as it appears on your issued certificate same e book as live practice tests on udemy neo4j certified professional practice exams
