Collected Papers. Volume XII 2022-08-01

market and competition authorities operate in a complex environment with conflicting stakeholder demands balancing the various interests of the authority and stakeholder in an objective and impartial manner is strategic to achieving the goals of the legislation imposed in a fresh approach examining the actions of an authority when a regulation is applied annetje ottow argues the vital importance of the behaviour of authorities focusing on five fundamental good agency principles legality independence transparency effectiveness and responsibility or liter these principles provide agencies and those reviewing their actions with a framework for agency design and action combining theory and practice to provide insight into agencies organization and behaviour this book outlines and analyses behavioural issues using an ecosystemic method addressing how independent agencies should be assessed and which principles should apply using cases from the netherlands and the uk ottow examines the key processes of authorities against the liter principles and opens the debate on how to regulate the agency

Serials Currently Received by the National Agricultural Library, 1975 1976

a bacia do rio dos sinos teve um crescimento contínuo de assentamentos humanos e sobretudo no último século a pressão antrópica modificou a paisagem passando de mata atlântica para terras agropecuárias indústrias cidades e uma grande rede de rodovias isto erodiu o ecossistema da bacia com poluição das águas superficiais e subterrâneas com a perda de biodiversidade e uma diminuição na variabilidade genética das populações o que também trouxe um efeito negativo sobre a sociedade

Management 1968

the latin american neutrosophic science association was created in 2018 as a result of the initiative of a group of university professors from mexico and ecuador the association has developed an intense work in the investigative context expression of the capacity that neutrosophy has as a tool for understanding and transformation of reality in social benefit neutrosophic sets as a generalization fuzzy set especially intuitionistic fuzzy sets allows handling a greater number of situations that occur in

reality and becomes a facilitator of the approach to the studied object without undermining its complex and multivariate essence in this special edition researchers from six ecuadorian universities show the results of research projects addressing a wide range of topics related to the social environment of these higher education institutions the contents include law criminology public and administrative management evaluation of pedagogical scenarios prospective analysis artificial intelligence among other topics they are many different texts with a common denominator the social sciences and their relationship with neutrosophy the progress of these investigations originates a significant change in the ways of validating and reasoning the proposals the appreciation of neutrality increases the interpretability and the inferential efficacy from the analysis of the results which enunciates a methodological perceptive and objective enrichment in the humanistic sciences in latin american geographical region

Administrative Notes 1991
