books study guide this spiritual inquiry into the nature of truth draws on buddhism and quantum physics to liberate us from limited understandings of ourselves and others the hopeful teaching of this book is that while everybody suffers most of this suffering is unnecessary it can be overcome the belief that things must be either true or untrue leads us to think in terms of polarities good or evil right or wrong this friend or foe approach may seem to make life easier but in the end of suffering russell targ and j j hurtak assert that this worldview only increases our experience of suffering in an effort to overcome the polarity of opposites and the accompanying suffering targ and hurtak combine the wisdom of the east with the findings of quantum physics uncovering a middle ground that shows opposing sides are really the same buddha taught us to live a helpful and compassionate life and to surrender our ego to the peace of spaciousness the middle path of buddhism also shows that things may be neither true nor not true or both true and untrue the end of suffering puts the perceived opposites of buddhism and physics together showing step by step how we can learn to surrender the story of who we think we are and experience an end to our suffering with its focus on catalysis and addressing two very hot and timely topics with significant implications for our future lives this will be
