what is the tv size i should get for my needs samsung

Oct 09 2022

the best and most immersive viewing experience is when 40 degrees of
your field of view is taken up by the screen this field of view
distance can be calculated by just knowing the size of your tv to get
this suitable distance multiply the screen size by 1 2 so for a 75
inch tv that means sitting 90 inches or 2 3 meters away
