## Introducing Social Work *2020-03-28*

the narrator the answer to the question who speaks in the text is a commonly used notion in teaching literature and in literary criticism even though it is the object of an ongoing debate in narrative theory do all fictional narratives have a narrator or only some of them can narratives thus be narratorless this question divides communicational theories based on the communication between real or fictional narrator and narratee and noncommunicational or poetic theories which aim to rehabilitate the function of the author as the creator of the fictional narrative clarifying the notion of the narrator requires a historical and epistemological approach focused on the opposition between communicational theories of narrative in general and noncommunicational or poetic theories of the fictional narrative in particular the narrator offers an original and critical synthesis of the problem of the narrator in the work of narratologists and other theoreticians of narrative communication from the french czech german and american traditions and in representations of the noncommunicational theories of fictional narrative sylvie patron provides linguistic and pragmatic tools for interrogating the concept of the narrator based on the idea that fictional narrative has the power to signal by specific linguistic marks that the reader must construct a narrator when these marks are missing the reader is able to perceive other forms and other narrative effects specially sought after by certain authors

## The Language of Desire *2021-06-08*

master s thesis from the year 2009 in the subject communications language grade 1 3 university of tbingen seminar für

sprachwissenschaft course computerlinguistik language english abstract in the following thesis we present a memory based word sense disambiguation system which makes use of automatic feature selection and minimal parameter optimization we show that the system performs competitive to other state of art systems and use it further for evaluation of automatically acquired data for word sense disambiguation the goal of the thesis is to demonstrate that automatically extracted examples for word sense disambiguation can help increase the performance of supervised approaches we conducted several experiments and discussed their results in order to illustrate the advantages and disadvantages of the automatically acquired data

## Marketing Strategy for the Creative and Cultural Industries *2020-09-16*

school counselors often struggle to feel confident in delivering effective assistance to students due to a variety of reasons that currently do not have enough research or information developed this leads to a struggle for counselors to adequately address tough and relevant issues with these issues remaining unaddressed or addressed less effectively there is a concern that school counselors cannot mitigate these issues due to not being adequately informed this can lead to a lifetime of consequences for students strengthening school counselor advocacy and practice for important populations and difficult topics presents emerging research that seek to answer the tough and often unaddressed questions target present day issues of student populations and prepare school counselors to feel confident and competent in their counseling and advocacy practice these chapters using the newest information available will address these concerns and provide the best counseling work possible for underserved populations while covering research on counseling for students with chronic illnesses mixed statuses family issues minority students lgbtq youth and more this book is ideal for school counselors counseling educators practitioners stakeholders researchers academicians and students who are interested in school counseling and meeting the needs of diverse and important populations of students

## A Companion to Experimental Philosophy *2016-03-28*

this volume offers a critical examination of the construction of the spoken british national corpus 2014 spoken bnc2014 and points the way forward toward a more informed understanding of corpus linguistic methodology more broadly the book begins by situating the creation of this second corpus a compilation of new publicly accessible spoken british english from the 2010s within the context of the first created in 1994 talking through the need to balance backward capability and optimal practice for today s users chapters subsequently

use the spoken bnc2014 as a focal point around which to discuss the various considerations taken into account in corpus construction including design data collection transcription and annotation the volume concludes by reflecting on the successes and limitations of the project as well as the broader utility of the corpus in linguistic research both in current examples and future possibilities this exciting new contribution to the literature on linguistic methodology is a valuable resource for students and researchers in corpus linguistics applied linguistics and english language teaching

## The Narrator *2023-09*

recognition is a fundamental aspect of all social interactions between individuals groups local communities and sovereign states recognition refers to those sociological processes whereby two or more entities such as states groups such as ethnic or cultural communities or individuals interact with one another and come to understand themselves and the other as mutually free individuals as social agents whose identities interests and outlooks are equally bound together without the foundational act of recognition relations can become unequal and antagonistic leading to social pathologies denigration and even open conflict this volume brings together leading international scholars of recognition theory in world politics to discuss the potential for recognition to pacify relations between states groups and individuals and to develop recognition processes in the global community it examines the implications of recognition theory in helping to understand the problem of conflict and the possibilities for forging a form of global ethical community this book was published as a special issue of global discourse

## White Paper on Science and Technology *2015*

summary description this book is primarily a celebration of the qualitative work undertaken internationally by a number of experienced researchers it also focuses on developing the use of qualitative research for health and rehabilitative practitioners by recognizing its value methodologically and empirically we find that the very nature of qualitative research offers an array of opportunities for researchers in being able to understand the social world around us further through experience and discussion this book identifies the multifaceted use of qualitative methods in the healthcare and rehabilitative setting this book touches on the role of the researcher the participants involved and the research environment in short we see how these three central elements can affect the nature of qualitative work in attempts to offer originality this text speaks to a number of audiences students who are writing undergraduate dissertations and research

proposals they may find the myriad of examples stimulating and may support the rationale for methodological decisions in their own work for academics practitioners and prospective qualitative researchers this book also aims to demonstrate an array of opportunism in the field of qualitative research and how they may resonate with arguments proffered it is anticipated that readers will find this collection of qualitative examples not only useful for informing their own research but we also hope to enlighten new discussions and arguments regarding both methodological and empirical use of qualitative work internationally features encompasses the importance of qualitative research and how it can be used to facilitate healthcare and rehabilitation across a wide range of health conditions evaluates empirical data whilst critically applying it to contemporary practices provides readers with an overview with future directions and influence policy makers in order to develop practice focuses on an array of health conditions that can affect groups of the population coincided with life issues and the care and family support received offers innovative methodological insights for prospective researchers in order to add to the existing evidence base
