sanatan hindu dharma is like a huge tree different kinds of assumptions have merged into it from time immemorial as human population grew and time changed beliefs and faiths changed as a result of continuous thinking of scholars and growing maturity in their ideas as a consequence the branches and sub branches of hindu religion also grew is there any scientific basis of beliefs and faiths propagated in hinduism this question agitates the minds of intellectual readers again and again now that time has come to an end when you cited from the religious scriptures and said baba vakya pramanam here is the statement from the author as evidence comprehensive thinking about religious beliefs has become the most essential call of the age today first of all the average reader has to understand what is science the word vigyan science is formed by prefixing vi to gyan knowledge vishishta gyanam iti vigyanam vishesh gyanam iti vigyanam vishuddha gyanam iti vigyanam specific knowledge is science special knowledge is science pure knowledge is science these definitions are clear in themselves science in fact is based upon cause and effect relationship karya karan sarnbandh iti vigyanam punah punah parikshanam prayoganch kritam science is cause and effect relationship experiment is made again and again where we come to know the cause and effect relationship then that knowledge automatically passes into the category of science true knowledge of an object based on facts is a part of science itself punah punah nirikshit gyanam iti vigyanam when the results are the same on repeated observations then those facts become science ancient rishis munis seers and saints formed some rules and principles under the cover of religion to civilize humanity they offered the charms of heaven and fears of hell so that men adopted them in their conduct today in the age of computer no one accepts heaven or hell piety or sin religion or irreligion it is a transition period innumerable questions are cropping up in the minds of the intellectuals to clarify the scientific basis of hindu beliefs has become a need of the day

The Origins & Development of Classical Hinduism 2016-01-01

traditions of asceticism yoga and devotion bhakti including dance and music developed in hinduism over long periods of time some of these practices notably those denoted by the term yoga are orientated towards salvation from the cycle of reincarnation and go back several thousand years these practices borne witness to in ancient texts called upaniṣads as well as in other traditions notably early buddhism and jainism are the subject of this volume in the oxford history of hinduism practices of meditation are also linked to asceticism tapas and its institutional articulation in renunciation samnyāsa there is a range of practices or disciplines from ascetic fasting to taking a vow vrata for a deity in return for a favour there are also devotional practices that might involve ritual making an offering to a deity and receiving a blessing dancing or visualization of the master guru the overall theme the history of religious practices might even be seen as being within a broader intellectual trajectory of cultural history in the substantial introduction by the editor this broad history is sketched paying particular attention to what we might call the medieval period post gupta through to modernity when traditions had significantly developed in relation to each other the chapters in the book chart the history of hindu practice paying particular attention to indigenous terms and recognizing indigenous distinctions such as between the ritual life of the householder and the renouncer seeking liberation between inner practices of and external practices of ritual and between those desirous of liberation mumukṣu and those desirous of pleasure and worldly success bubhukṣu this whole range of meditative and devotional practices that have developed in the history of hinduism are represented in this book

History of Bengal Volume 1 Hindu Period 1943

few countries possess a richer architectural heritage than india a country whose buildings are rooted in history culture and religion as a results of india s global discourse with other regions around the world there have been many influences that have been assimilated into its architecture producing unique varied and lively results this fantastic volume walks the reader through india s history both architecturally and culturally exploring its different styles of buildings and providing interesting insights into their origin and evolution indian architecture

is highly recommended for those with an interest in architecture and indian history alike many vintage books such as this are increasingly scarce and expensive it is with this in mind that we are republishing this volume now in an affordable modern high quality edition complete with a specially commissioned new introduction on architecture

The History of Bengal 2004

this open access handbook the first of its kind provides a comprehensive and carefully curated multidisciplinary and genre spanning view of the state of the field of critical menstruation studies opening up new directions in research and advocacy it is animated by the central question what new lines of inquiry are possible when we center our attention on menstrual health and politics across the life course the chapters diverse in content form and perspective establish critical menstruation studies as a potent lens that reveals complicates and unpacks inequalities across biological social cultural and historical dimensions this handbook is an unmatched resource for researchers policy makers practitioners and activists new to and already familiar with the field as it rapidly develops and expands
