The Last Days of Hitler 1978-09-28 in 1743 according to legend the last wolf in scotland was killed by a huntsman near inverness at the time the extinction of wolves in scotland was celebrated but since then deer have multiplied in the highlands destroying the vegetation on which an array of wildlife depends and creating a barren treeless landscape gradually it has become clear that the entire eco system has been thrown out of balance by the elimination of a top predator now there are calls for a limited reintroduction of wolves into scotland as a way of healing the damaged land the wolf has been the victim of black propaganda since ancient times by tellers of folk tales and historians alike it has been described as a slayer of babies a robber of graves a devourer of battlefield dead in this passionate polemic jim crumley argues that these stories are pure fiction a distortion of reality which prevents people from thinking rationally about the huge benefits the presence of wolves could bring to scotland now is the time for myths to be dispelled and for the wolf to return to its old home in the highlands

The Last of the Mohicans 2014-05-03 it is hard to say exactly what it is that makes friendships develop there is certainly the bond of common interest but friendship is more than that it grows stronger with shared adventure shared pain and shared laughter i have a better insight into why you enjoyed those trips to south georgia ruth said after proofing the chapters for me but she expressed concern that some of the stories might be too ribald for the grandchildren to read but i am only relating what was said and done as best i can remember when i told paul that i was writing about the trips he also suggested that i might not want to tell it all but i did all that came to mind anyway to really understand you ve got to know it all the stories in this book are about the annual quail hunting trips paul and i made to early county georgia over a period of twelve or so years more than that the book is about the friendships that four men developed and the bonds that grew over the years william and paul lived in the same dormitory when they were students at auburn university in the late 1950 s during that time they began making a yearly trip to quail hunt at william s family farm just north of blakely and after paul retired from the marines they took up the tradition again in february 1993 they invited me to join them you will see from these dates that we were not spring chickens when the hunts occurred the exception is toby the sprightly young grig who was a friend and neighbor of william i use neighbor in the rural sense because they were not in hollering distance of each other i could tell that they had a bond when i met them and that toby went to choir practice with william s older buddies choir practice was william s euphemism for playing poker i do not think that either had a corrupting influence on the other they were also fishing and hunting partners the same as paul and i anyone who loves dogs will understand the special bond that develops between owner and dog or in my case it seems between owner and man i love my dogs and thank god ruth does too probably more than i do this story is about them too most of all the story is about the gentleman himself mr bob white i fear that i have not done him justice because he is hard to describe he is fast agile allusive elusive evasive and smart he is gregarious with his clan and forms a covey that moves like an army and springs into the air simultaneously each foot seeming to leave the ground at the same millisecond covey rises always seem choreographed and even when you know it is about to happen it is like a surprise a startle the sound of a covey rise is frequently expressed as being like an explosion or thunder or eruption but it is not like that actually the sound comes from the wing beats and the pounding of the feathered appendage against the feathered body but you just have to be there paul and i live in east central alabama the lower piedmont part of the appalachian foot hills here quail and quail habitat have largely disappeared over the last half century as patch or subsistence farming has drastically declined quail do not do well in cow pastures and pine plantations the opportunity for us to hunt birds in early county georgia was a thrill difficult to over state

In Memory. The Last Sickness, Death, and Funeral Obsequies, of Alexander H. Stephens, Governor of Georgia 1853 operation market garden the allied airborne invasion of german occupied holland in september 1944 is one of the most famous and controversial allied failures of the second world war many books have been written on the subject seeking to explain the defeat historians have generally focused on the mistakes made by senior commanders as they organized the operation the choice of landing zones has been criticized as has the structure

of the airlift plan but little attention has been paid to the influence that combat doctrine and training had upon the relative performance of the forces involved and it is this aspect that aaron bates emphasizes in this perceptive closely argued and absorbing re evaluation of the battle as he describes each phase of the fighting he shows how german training which gave their units a high degree of independence of action better equipped them to cope with the confusion created by the surprise allied attack in contrast the british forces were hampered by their rigid and centralized approach which made it more difficult for them to adapt to the chaotic situation aaron bates s thought provoking study sheds fresh light on the course of the fighting around arnhem and should lead to a deeper understanding of one of the most remarkable episodes in the final stage of the second world war in western europe
