well known for his important scholarly contributions to dogmatic theology and biblical commentary joseph ratzinger has also written penetrating observations of our times this book includes some of his keen insights about the social and political challenges confronting modern western societies writing most of these chapters just before his election as pope ratzinger sought to remind europeans who at the time were crafting a new constitution that the civilizational project we call the west is a cultural achievement with a history jerusalem athens and rome were the three foundation stones upon which western civilization was built he wrote their invaluable contributions form the basis for the western understanding of human dignity and human rights which spread from europe to the united states and beyond this book also includes as an epilogue a new essay by pope emeritus benedict xvi on clerical sex abuse which traces the moral disorder that preys upon the young to the collapse of faith both inside and outside the church the witness of christian lives nobly lived is the beginning of reconversion or in many cases conversion of the west and that return to the truths taught by the god of the bible is essential if the great western civilizational project is not to crumble because of its current postmodern incoherence joseph ratzinger understood that danger long before many others it would be well to attend to his prescription george weigel distinguished senior fellow ethics and public policy center from the foreword

excerpt from western culture in eastern lands a comparison of the methods adopted by england and russia in the middle east during the

many years that i have been engaged in studying the political and cultural questions of inner asia it has often been laid to my charge that in my criticism and appreciation of the two chief factors of our civilising influence in the east i have not taken up a purely objective standpoint and that because of my partiality to the one i have not been quite fair to the other in europe the prevailing idea is that the russians who in many respects are themselves still semi asiatic are better fitted to undertake the civilisation of asia and will be more likely to bring about the transition from one sphere of action to another than the english the accomplished representatives of western culture who lack the necessary pliability and whose stiff proud bearing is supposed to be detrimental to the work of transformation to prove the erroneousness of this view and also to defend myself against the accusation of an unjustifiable partiality these pages have been written the comparative survey of the various innovations and reforms introduced by russia and by england respectively which i have endeavoured to give will convince the reader that in forming my conclusions i have not been guided by personal motives but that they are the outcome of a close investigation of what has actually been done by our two culture bearers about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at [forgottenbooks.com](http://forgottenbooks.com) this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

western culture which influenced the whole world came from europe but its roots are not there they are in athens and jerusalem european culture takes its bearing from references that are not in europe europe is eccentric what makes the west unique what is the driving force behind its culture remi brague takes up these questions in eccentric culture this is not another dictionary of european culture nor a measure of the contributions of a particular individual religion or national tradition the author's interest is especially with regard to the transmission of the examined life how we lose and find ourselves stephen grosz

that culture to articulate the dynamic tension that has propelled europe and more generally the west toward civilization it is this mainspring of european culture this founding principle that brague calls roman yet the author s intent is not to write a history of europe and less yet to defend the historical reality of the roman empire brague rather isolates and generalizes one aspect of that history or one might say cultural myth of ancient rome the roman attitude senses its own incompleteness and recognizes the call to borrow from what went before it historically it has led the west to borrow from the great traditions of jerusalem and athens primarily the jewish and christian tradition on the one hand and the classical greek tradition on the other nowhere does the author find this roman character so strongly present as in the christian and particularly catholic attitude toward the incarnation at once an appreciation of the richness and diversity of the sources and their fruit eccentric culture points as well to the fragility of their nourishing principle as such brague finds in it not only a means of understanding the past but of projecting a future in re proposing to the west and to europe in particular a model relationship of what is proper to it an international bestseller translated from the original french edition of europe la voie romaine this work has been or is presently being translated into thirteen languages

what we fear most has ironically come upon us as western individualists we are being controlled by the invisible forces of culture and they have come between god and us silent but in the background of all we do and think its influence cannot be overlooked we condone and even encourage and champion the very things that create distance between our needs and god s goodness between our plans and his destiny for us between our weakness and his strength we have been deceived not only have we created distance between us but we seldom free god from these cultural and personal expectations and let him speak for himself we have locked god into our system and in the end distracted by our needs for social and personal survival we must turn our eyes toward him open our ears to his voice and let him speak
