my dear lads although so long a time has elapsed since the great civil war in england men are still almost as much divided as they were then as to the merits of the quarrel almost as warm partisans of the one side or the other most of you will probably have formed an opinion as to the rights of the case either from your own reading or from hearing the views of your elders for my part i have endeavored to hold the scales equally to relate historical facts with absolute accuracy and to show how much of right and how much of wrong there was upon either side upon the one hand the king by his instability bad faith and duplicity alienated his best friends and drove the commons to far greater lengths than they had at first dreamed of upon the other hand the struggle begun only to win constitutional rights ended owing to the ambition fanaticism and determination to override all rights and all opinions save their own of a numerically insignificant minority of the commons backed by the strength of the army in the establishment of the most complete despotism england has ever seen it may no doubt be considered a failing on my part that one of my heroes has a very undue preponderance of adventure over the other this i regret but after the scale of victory turned those on the winning side had little to do or to suffer and one s interest is certainly with the hunted fugitive or the slave in the bermudas rather than with the prosperous and well to do citizen

it is well that war is so terrible robert e lee reportedly said or we would grow too fond of it the essays collected here make the case that we have grown too fond of it and therefore we must make the war terrible again taking a freakonomics approach to civil war studies each contributor uses a seemingly unusual story incident or phenomenon to cast new light on the nature of the war itself collectively the essays remind us that war is always about damage even at its most heroic and even when certain people and things deserve to be damaged here then is not only the grandness of the civil war but its more than occasional littleness here are those who profited by the war and those who lost by it and not just those who lost all save their honor but those who lost their honor too here are the cowards the coxcombs the belles the deserters and the scavengers who hung back and so survived even thrived here are dark topics like torture hunger and amputation here in short is war
