this open access book uses finland in the nineteenth and twentieth centuries as an empirical case in order to study the emergence shaping and renewal of a nation through histories of experience and emotions it revolves around the following questions what kinds of experiences have engendered national mobilization and feelings of national belonging how have political and societal conflicts turned into new communities of experience and emotion what kinds of experiences have been integrated into or excluded from the national context in different instances how have people internalized or contested the nation as a context for their personal family and minority group experiences in what ways has the nation entered and affected people s intimate spheres of life how have national experiences been transmitted to children in the renewal of the nation this edited collection points to the histories of experience and emotions as a novel way of studying nations and nationalism building on current debates in nationalism studies it offers a theoretical framework for analyzing the historical construction of lived nations and introduces a number of new methodological approaches to understand the experiences of the nation extending from the investigation of personal reminiscences and music records to the study of dreams and children s drawings

Lived Nation as the History of Experiences and Emotions in Finland, 1800-2000 2014-12-31

this book challenges existing accounts of the nineteenth and twentieth centuries in which political developments are explained in terms of the rise of the nation state while monarchies are often portrayed as old fashioned as things of the past we argue that modern monarchies have been at the centre of nation construction in many parts of the world today roughly a quarter of states define themselves as monarchies as well as nation states they are royal nations this is a global phenomenon this volume interrogates the relationship between royals and their nations with transnational case studies from asia africa europe as well as south america the seventeen contributors discuss concepts and structures visual and performative representations and memory cultures of modern monarchies in relation to rising nationalist movements this book thereby analyses the worldwide significance of the royal nation

this book is about a divided nation and polarized nationhood its principal purpose is to examine division and polarization as forms of imagining that are configured within culture and framed by history this is what bivocality signifies two distinct discursive voices through which nationhood is articulated voices that are nonetheless grounded in a culturally common symbolic field the volume offers an ethnographically centered analysis of the ways in which georgians make use of these voices in critical discourses of nationhood by illuminating the cultural semantics behind these discourses nutsa batiaashvili offers a new constellation of conceptual terms for understanding modern forms of nationalism and nation building in the marginal or liminal landscapes between the orient and the occident

The Bivocal Nation 2012-12-13

in a brilliantly conceived and elegantly written book rogan kersh investigates the idea of national union in the united states for much of the period between the colonial era and the late nineteenth century he shows union was the principal rhetorical means by which americans expressed shared ideals and a common identity without invoking strong nationalism or centralized governance through his exploration of how americans once succeeded in uniting a diverse and fragmented citizenry kersh revives a long forgotten source of u s national identity why and how did americans perceive themselves as one people from the early history of the republic how did african americans and others at the margins of u s civic culture apply this concept of union why did the term disappear from vernacular after the 1880s in his search for answers kersh employs a wide range of methods including political theory analysis of writings by james madison frederick douglass and abraham lincoln and empirical analysis drawing on his own extensive database of american newspapers the author s findings are persuasive and often surprising one intriguing development for instance was a strong resurgence of union feelings among southerners including prominent former secessionists after the civil war with its fascinating and novel approach dreams of a more perfect union offers valuable insights about american political history especially the rise of nationalism and federalism equally important the author s close retracing of the religious institutional and other themes coloring the development of unionist thought unveils new knowledge about the origination and transmittal of ideas in a polity

the history of globalization is anything but a no frills affair that moves smoothly along a clear cut unidirectional path of development eventually leading to seamless global integration accordingly scholarship in the social sciences has increasingly argued against equating the history of globalization processes and transcultural entanglements with the master narrative of the gradual homogenization of the world examining the shifting patterns of global connections has therefore become the main challenge for all those who seek to understand the past the present and the future of modern societies and this challenge includes finding a place for the nation state the studies presented here argue that looking at the nation state from the perspective of global entanglements opens the door for its interpretation as a dynamic and multi layered structure that takes part in globalization processes and plays various and at times even contradictory roles at the same time

this open access book discusses the relationship between periodicals tourism and nation building in mexico it enquires into how magazines a staple form of the promotional apparatus of tourism since its inception articulated an imaginative geography of mexico at a time when that industry became a critical means of economic recovery and political stability after the revolution notwithstanding their vogue popularity reach and close affiliations to commerce and state over several decades magazines have not received any sustained critical attention in the scholarship on that period this book aims to redress that oversight it argues that illustrated magazines like mexican folkways 1925 1937 and mexico this month 1955 1971 offer rich and compelling materials in that regard not only as unique tools for interrogating the ramifications of tourism on the country s reconstruction but as autonomous objects of study that form a vital if complex part of mexico s visual culture

the universal promise of contemporary international law has long inspired countries of the global south to use it as an important field of contestation over global inequality taking three central examples sundhya pahuja argues that this promise has been subsumed within a universal claim for a particular way of life by the idea of development as the horizon of the promised transformation and concomitant equality has receded ever further international law has legitimised an ever increasing sphere of intervention in the third world the post war wave of decolonisation ended in the creation of the developmental nation state the claim to permanent sovereignty over natural resources in the 1950s and 1960s was transformed into the protection of foreign investors and the promotion of the rule of international law in the early 1990s has brought about the rise of the rule of law as a development strategy in the present day

this book traces the impact of exile in the formation of independent republics in chile and the río de la plata in the decades after independence exile was central to state and nation formation playing a role in the emergence of territorial borders and romantic notions of national difference while creating a transnational political culture that spanned the new independent nations analyzing the mobility of a large cohort of largely elite political émigrés from chile and the río de la plata across much of south america before 1862 edward blumenthal reinterprets the political thought of well known figures in a transnational context of exile as blumenthal shows exile was part of a reflexive process in which elites imagined the nation from abroad while gaining experience building the same state and civil society institutions they considered integral to their republican nation building projects

brilliant and engagingly written why nations fail answers the question that has stumped the experts for centuries why are some nations rich and others poor divided by wealth and poverty health and sickness food and famine is it culture the weather geography perhaps ignorance of what the right policies are simply no none of these factors is either definitive or destiny otherwise how to explain why botswana has become one of the fastest growing countries in the world while other african nations such as zimbabwe the congo and sierra leone are mired in poverty and violence daron acemoglu and

james robinson conclusively show that it is man made political and economic institutions that underlie economic success or lack of it korea to take just one of their fascinating examples is a remarkably homogeneous nation yet the people of north korea are among the poorest on earth while their brothers and sisters in south korea are among the richest the south forged a society that created incentives rewarded innovation and allowed everyone to participate in economic opportunities the economic success thus spurred was sustained because the government became accountable and responsive to citizens and the great mass of people sadly the people of the north have endured decades of famine political repression and very different economic institutions with no end in sight the differences between the koreas is due to the politics that created these completely different institutional trajectories based on fifteen years of original research acemoglu and robinson marshall extraordinary historical evidence from the roman empire the mayan city states medieval venice the soviet union latin america england europe the united states and africa to build a new theory of political economy with great relevance for the big questions of today including china has built an authoritarian growth machine will it continue to grow at such high speed and overwhelm the west are america s best days behind it are we moving from a virtuous circle in which efforts by elites to aggrandize power are resisted to a vicious one that enriches and empowers a small minority what is the most effective way to help move billions of people from the rut of poverty to prosperity more philanthropy from the wealthy nations of the west or learning the hard won lessons of acemoglu and robinson s breakthrough ideas on the interplay between inclusive political and economic institutions why nations fail will change the way you look at and understand the world

why and how has race become a central aspect of politics during this century this book addresses this pressing question by comparing south african apartheid and resistance to it the united states jim crow law and protests against it and the myth of racial democracy in brazil anthony marx argues that these divergent experiences had roots in the history of slavery colonialism miscegenation and culture

but were fundamentally shaped by impediments and efforts to build national unity in south africa and the united states ethnic or regional conflicts among whites were resolved by unifying whites and excluding blacks while brazil s longer established national unity required no such legal racial crutch race was thus central to projects of nation building and nationalism shaped uses of race professor marx extends this argument to explain popular protest and the current salience of issues of race

Making Race and Nation

the nation needs to be confronted with the crime that we re committing and the promises we are betraying this is a book about betrayal of the young who have no power to defend themselves it is not intended to make readers comfortable over the past several years jonathan kozol has visited nearly 60 public schools virtually everywhere he finds that conditions have grown worse for inner city children in the 15 years since federal courts began dismantling the landmark ruling in brown v board of education first a state of nearly absolute apartheid now prevails in thousands of our schools the segregation of black children has reverted to a level that the nation has not seen since 1968 few of the students in these schools know white children any longer second a protomilitary form of discipline has now emerged modeled on stick and carrot methods of behavioral control traditionally used in prisons but targeted exclusively at black and hispanic children and third as high stakes testing takes on pathological and punitive dimensions liberal education in our inner city schools has been increasingly replaced by culturally barren and robotic methods of instruction that would be rejected out of hand by schools that serve the mainstream of society filled with the passionate voices of children and their teachers and some of the most revered and trusted leaders in the black community the shame of the nation is a triumph of firsthand reporting that pays tribute to those undefeated educators who persist against the odds but directly challenges the chilling practices now being forced upon our urban systems by the bush administration in their place kozol offers a humane dramatic challenge to our nation to fulfill at last the promise made some 50 years ago to all our youngest citizens from the shame of the nation i went to washington to challenge the soft bigotry of low expectations the president said in his campaign for reelection in september 2004 it s working it s making a difference it is one of those deadly lies which by sheer repetition is at length accepted by large numbers of americans as perhaps a rough approximation of the truth but it is not the truth and it is not an innocent misstatement of the facts it is a devious appeasement of the heartache of the parents of the poor and if it is not forcefully resisted and denounced it is going to lead our nation even further in a perilous direction also available as a random house audiobook and an ebook
