james is a social native who is known to visit the poisoned wells within the area reciting poetry from the grasps of the prim rose bush showered in a crimson bath by love bites is a common sight on a good night with warm friends and obscure back lots the source of the poetry or entries within the books in general is derived from the surroundings encountered by almost every person on a daily basis we are the test subjects the project and our researchers are watching us continuously we re fish out of water waiting for evolution a warm dissection written by james kelly evans ii and is a heart wrenching and at times disturbing collaboration of poetry about the author s take on modern culture and society in his book evans explores his experiences with death alcohol abuse and life in general the book is a dissection of modern day culture i took everything from love life death and transcribed it on to paper in the form of metaphors waking in the morning to find chaos in various forms required another destination for the chaotic words and images that floated inside my cranium like a carbonated brain stew waiting for a release it allowed the pressure that was mounting inside to escape said evans having observed the painful facets of life evans focused on writing as an emotional release and as a way to keep his spirit strong i was drawing at one point but drawing wasn t satisfying my emotional needs i didn t start writing until after my breakdown and that s when i realized that i could make a deal with paper a satisfied mind in exchange for an inhabited canvas said evans evans who admits to being an overly empathetic individual writes using strong metaphors and images that allow his readers to feel the emotions that he explores within his poetry the author s use of metaphors makes for a very visual read and allows the reader to feel the pain layered within the author s poetry and prose even with the shocking and at times perverse imagery portrayed within his writing evans still depicts a sense of strength and determination after surviving an unbearable emotional turmoil evans work can also be seen as inspiring in that the author s freedom to explore the ugly truths about life gives readers the sense that they are not alone in their feelings the poetry reverberates the idea that it s okay to let your feelings out no matter how crude or horrific they may be i try to write as visual as possible so that you enter

into a setting where the reader can actually feel the pain and emotion in the poetry i personally like to be able to feel what i m reading said evans evans dissection of society s morals brings about the notion that the world in general has become more and more violent and unkind the poem desecration hill for example is about mind that has fallen to the deepest darkest depths of hell there s also another poem which explores the reality of how homeless people living in high profile wealthy areas are shunned by the majority of people who walk by said evans in the poem cauterized evans writes about a man who violates mannequins because he can t find love in the form that he wants it to be although the imagery is quite disturbing the poem is a perfect example of evans exploring society and current events the poem mirrors stories heard in news today about violence against women and female murder victims it seems like society s morals are going out the window i take life s events and put them into metaphors said evans the front cover of a warm dissection depicts a transformation of two people my personal face is in the background with another face overlapping it which is the face of an older character that is screaming representing the progression of life and how run down one feels by all of the events that have occurred said evans as a voyeur of life and a young modern day philosopher in his own ri

senior colonial officer from 1813 to 1859 inspector general james barry was a pioneering medical reformer who after his death in 1865 became the object of intense speculation when rumours arose about his sex this cultural history of barry s afterlives in victorian to contemporary neo victorian life writing biographilia examines the textual and performative strategies of biography biofiction and biodrama of the last one and a half centuries in exploring the varied reconstructions and re imaginations of the historical personality across time the book illustrates not least with its cover image that the real james barry does not exist any more than does the faithful biographical biofictional or biodramatic rendering of a life in a generically stable and discrete form what barry represents and how he is represented invariably pinpoints the imaginative the speculative and the performative reflections and refractions in the looking glass of genre just as james miranda barry as a subject of cultural inquiry comes into being and remains in view in the act of crossing gender so neo victorian life writing constitutes itself through similar acts of boundary transgression transgender thus finds its most typical expression in transgenre

the ambiguous intent of henry james s horror story the turn of the screw has fascinated and divided its readers since its publication in 1898 the division arises between the apparitionists and the nonapparitionists in interpretation of the plot and the characters thomas mabry cranfill and robert lanier clark jr have here taken up the argument and made an interpretation of their own the authors carefully considered the mountainous critical comment studied james s statements regarding his intent and minutely scrutinized the story itself after all this probing of opinions and following of clues and observing of human beings in action they have come out strongly on the side of the nonapparitionists the authors base their conclusion on analyses of character centrally that of the governess whom they consider the protagonist of the fearsome drama but peripherally those of mrs grose the children the uncle in harley street and even the deceased miss jessel and peter quint relentlessly they relate every episode action and speech to the character of the governess and her relationships with those around her at bly picturing her as a psychological case whose abnormal mental state brings to those around her the inescapable misery they all suffer the authors analysis unfolds as interestingly in terms of character and motive as if the reader did not already know what happens in james s much read story it moves moreover with something of the same suspense as james s horror tale although the tension is intellectual rather than emotional each additional disclosure of evidence the resolution of each situation and the clarification of every puzzling ambiguity builds the analysis step by inevitable step to its inescapable conclusion the style of the analysis is graceful urbane and witty the introduction gives an excellent appraisal of literary comment on james s story and an illuminating summary of the literary war over the meaning of it the bibliography provides an impressive list of books and articles on this subject annotated to indicate in what particular ways each makes a contribution to the controversy

this book investigates the relationship between the fascinating and misunderstood penny blood early victorian popular fiction for the working class and victorian anatomy in 1832 the controversial anatomy act sanctioned the use of the body of the pauper for teaching dissection to medical students deeply affecting the victorian poor the ensuing decade such famous penny bloods as manuscripts from the diary of a physician varney the vampyre sweeney todd and the mysteries of london addressed issues of medical ethics social power and bodily agency challenging traditional views of penny bloods as a lowlier un readable genre this book rereads these four narratives in the light of the 1832 anatomy act putting them in dialogue with different popular artistic forms and literary genres as well as with the spaces of death and dissection in victorian london exploring their role as channels for circulating discourses about anatomy and ethics among the victorian poor
