essence of top tasks is a prioritized list of what matters most to customers you then continuously improve these top tasks based on evidence of customers trying to complete them developed as a result of 15 years of research and practice implemented by some of the world's largest organizations cisco microsoft netapp ibm google european union toyota tetra pak and hundreds more more than 300 000 customers have participated in top tasks studies in over 40 countries and 30 languages your easy to follow step by step guide to configuring a cisco router from the ground up the accidental administrator™ cisco router step by step configuration guide is packed with more than 30 easy to follow interactive exercises loads of screen captures and lots of step by step examples to help you build a working router from scratch easily the most straightforward approach to learning how to configure a cisco router this book is filled with practical tips and secrets learned from years of don's teaching and consulting on cisco network devices as a bonus you won't waste your time on boring theory all the essentials are covered in chapters on installing backups and restores and tcp ip you'll learn the nitty gritty on subnetting remote administration routing protocols static routing access control lists site to site vpns network address translation nat dhcp password recovery and security there's even an entire chapter on the new internet protocol version 6 ipv6 here's just some of what you'll find how to configure and manage access lists how to set up a site to site vpn how to implement ipv6 all the information is presented in a straightforward style that you can understand and use right away with the accidental administrator cisco router step by step configuration guide you'll be able to sit down with your routers and build a working configuration in a matter of minutes of course some of the more advanced configs may take a little longer but even so you'll be able to get it done in a minimal amount of time in addition there are supporting videos and a supporting webpage to provide even more help and updated information improve operations and agility in any data center campus lan or wan today the best way to stay in control of your network is to address devices programmatically and automate network interactions in this book cisco experts ryan tischer and jason gooley show you how to do just that you'll learn how to use programmability and automation to solve business problems reduce costs promote agility and innovation handle accelerating complexity and add value in any data center campus lan or wan the authors show you how to create production solutions that run on or interact with nexus nx-os based switches cisco aci campus and wan technologies you'll learn how to use advanced cisco tools together with industry standard languages and platforms including python json and linux the authors demonstrate how to support dynamic application environments tighten links between apps and infrastructure and make devops work better this book will be an indispensable resource for network and cloud designers architects devops engineers security specialists and every professional who wants to build or operate high efficiency networks drive more value through programmability and automation freeing resources for high value innovation move beyond error prone box by box network management bridge management gaps arising from current operational models write nx-os software to run on access or extend your nexus switch master cisco's powerful on box automation and operation tools manage complex wans with netconf yang confd and cisco sdn controller interact with and enhance cisco application centric infrastructure aci build self service catalogs to accelerate application delivery find resources for deepening your expertise in network automation botnets have become the platform of choice for launching attacks and committing fraud on the internet a better understanding of botnets will help to coordinate and develop new technologies to counter this serious security threat botnet detection countering the largest security threat consists of chapters contributed by world class leaders in this field from the june 2006 aro workshop on botnets this edited volume represents the state of the art in research on botnets covers the most important and common configuration scenarios and features which will put you on track to start implementing asa firewalls right away find out how to isolate understand and solve problems encountered when managing users and pcs on windows learn from a microsoft mvp with many years experience supporting windows users with their group policy issues this book will help you face the complexity of real world hardware and software systems and the unpredictability of user behavior so you can get to the heart of the problem and set it right windows group policy troubleshooting is your best practice guide to group policy showing you all that it can achieve and how to repair problems when they occur what you'll learn understand how group policy works take a simple step by step approach to troubleshooting problems apply group policy in office applications absorb advanced group policy advice see expert tips and tricks related to group policy who this book is for it pros and system administrators are the

audience for this book schools cannot do it alone tells of jamie vollmer businessman and attorney as he travels through through the land of public education his encounters with blueberries bell curves and smelly eighth graders lead him to two critical discoveries first we have a systems problem not a people problem we must change the system to get the graduates we need second we cannot touch the system without touching the culture of the surrounding town everything that goes on inside a school is tied to local attitudes values traditions and beliefs drawing on his work in hundreds of districts jamie offers teachers administrators board members and their allies a practical program to secure the understanding trust permission and support they need to change the system and increase student succes the stranger s long neck is a practical guide for any manager wishing to improve their organisation s online performance content specialist gerry mcgovern explains that all websites have a small set of tasks or long necks that are important to its customers and that must be easy to complete or customers will go elsewhere the stranger s long neck shows how to tune in effectively to what your customers want and then deliver it with aplomb understanding customer needs can be a difficult task when customers are strangers in that he or she is always on the outside particularly so in an online environment using case studies including tetra pak microsoft and the nhs and illustrated with web shots throughout the stranger s long neck shows how organisations can use the long neck theory to create and manage efficient and user friendly websites urban fantasy that is dark seductive and sexy as sin library journal a murdered demigod a powerful soul reaper bent on his resurrection a woman determined to stop him at any cost demigod dagan krayl hungers for the impossible resurrecting his murdered brother a quest that defies the rules of the underworld and threatens to unleash a world ending war blood drinker roxy tam is hell bent on stopping him willing to risk it all for humanity s survival when they are forced into an uneasy alliance loyalties are pushed to the brink and a forbidden desire ignites poised to reshape the destiny of gods and mortals alike for fans of dark fantasy egyptian mythology supernatural suspense and a kick butt heroine start the sins series now praise for the sins series sleek dark and utterly seductive new york times bestselling author lara adrian darkly delicious savagely beautiful fiercely seductive sins of the heart sets the new gold standard new york times bestselling author ann aguirre the sins series reading order sin s daughter novella that can be read at any point in the series sins of the heart sins of the soul sins of the flesh body of sin this reference examines the cellular molecular and genetic mechanisms involved in airway inflammation as well as the pathophysiology epidemiology and aetiology of asthma it explores strategies to prevent cellular injury and oxidative tissue damage inhibit key inflammatory pathways and identify disease specific targets to reduce the induction bull content maps to new ccna 3 0 curriculum bull additional chapters on difficult topics bull expanded cd rom includes 500 ccna test preparation questions instructional videos photozooms and more e labs than previous edition the forest products program has built up a large knowledge base on wood properties wood products and engineered wood composites access to this information can be a factor in the increased utilization of alberta forest products this report describes the technical information service provided to private industry government departments educational institutions municipal organizations and the general public by telephone through literature searches and through limited tested or pilot plant work a list of enquiries requiring laboratory work is also included there are over 50 stunning examples featured offering inspiration and guidance to aspiring fantasy artists are you an optimist are you a rebel do you think that because of digital technology power is shifting away from organizations towards citizens and customers are you a digital change agent do you want to transform your organization then this book is here to help you back cover dot tegydd is the third daughter of propertied parents who longed for a son hywel fletcher was born the day his father was killed in the pit and is bitterly resented by his mother and huw pettigrew is the much loved and hard working eldest child in a respected working family dot and hywel dream of a contented future caring for their land while huw s dreams are more like nightmare yet when tragedy strikes it is huw s vision which brings the three together and gives each of them in the end their heart s desire provides a comprehensive guide for troubleshooting lans and wans that use tcp ip ipx spx and appletalk protocols a riveting true story of the failure of the courts and police to protect a woman and her daughters the exuberant exhilarating photographs of dogs underwater that have become a sensation from the water s surface it s a simple exercise a dog s leap a splash and then a wet head surfacing with a ball triumphant but beneath the water is a chaotic ballet of bared teeth and bubbles paddling paws fur and ears billowing in the currents from leaping lab to diving dachshund the water is where a dog s distinct personality shines through some lounge in the current paddling slowly but others arch their bodies to cut through the water with the focus and determination of a shark in more than eighty portraits award winning

pet photographer and animal rights activist seth casteel captures new sides of our old friends with vibrant underwater photography that makes it impossible to look away each image bubbles with exuberance and life a striking reminder that even in the most loveable and domesticated dog there are more primal forces at work in underwater dogs seth casteel gives playful and energetic testament to the rough and tumble joy that our dogs bring into our lives speaking out when it s unpopular back in the day henry david thoreau raged at the robber barons the big shots of their age despoiling the environment in the name of progress deep in the throes of the seemingly unstoppable growth of tech a modern day thoreau has emerged in the guise of gerry mcgovern decrying the massive hidden negative impacts of tech on the environment mcgovern has thoroughly documented in world wide waste how tech damages the earth and what we should be doing about it it is not just the acres of discarded computer hardware conveniently dumped in third world countries every time an email is downloaded it contributes to global warming every tweet search check of a webpage creates pollution digital is physical those data centers are not in the cloud they re on land in massive physical buildings packed full of computers hungry for energy it seems invisible it seems cheap and free it s not digital costs the earth i know that better than most since rejoining the pride i ve made big decisions and even bigger mistakes the kind paid for with innocent lives as the first and only female enforcer i have plenty to prove to my father the pride and myself and with murdered toms turning up in our territory i m working harder than ever though i always find the energy for a little after hours recreation with marc my partner both on and off duty but not all my mistakes are behind me we re beginning to suspect that the dead are connected to a rash of missing human women and that they can all be laid at my feet two or four take your pick and one horrible indiscretion may yet cost me more than i can bear this revised version of the bestselling first edition provides a self study complement to the cisco ccip training course implementing cisco mpls extensive case studies guide readers through the design and deployment of real world mpls vpn networks mpls and vpn architectures the better together series presents an introductory look at some of nature s most exciting cooperative pairs egrets and hippos explores the close mutualistic relationship between the two animals sidebars encourage readers to engage in the material by asking deeper questions or conducting individual research full color photos a glossary and a listing of additional resources all enhance the learning experience brodlim x julien raynaud le penseur 2015 kashmiri embroidery 80 cm x 80 cm reproduced with permission of the artist julien raynaud and brodlim brodlim julien raynaud brodlim com julienraynaudart com this book introduces students to a number of critical legal perspectives and demonstrates how such perspectives might be used to influence and reimagine existing legal doctrines it extends the seminal feminist judgments project and adapts it specifically for the purpose of teaching critical legal thinking each chapter provides extracts and commentary on the prominent thinkers within the critical discipline before a leading critical scholar rewrites the judgment in the famous 2013 decision of the high court of australia monis v the queen informed and reimagined through this perspective the case required the high court to engage with deep issues about the role of free speech in democracy the appropriate role of the state in regulating civility of discourse and protecting vulnerable groups and the ongoing influence of gender and race in approaching these issues the decision was the first in which the court split over the relevant issues along gender lines the saliency of the identity of the judges in the case makes it natural for introducing students to the idea that who judges are and how they understand notions of constitutional justice may matter to the resolution of concrete constitutional questions the book builds on the seminal work undertaken in the feminist judgments project by pluralising not just the feminist critique but the wider range of critical perspectives brought to the judicial method the critical perspectives in this project include feminism and the public private divide anti subordination feminism critical race theory queer theory post structural feminism law and literature political liberalism intersectional theory law and economics restorative justice and deliberative democratic theory following the international success of volume 1 in 2010 volume 2 presents a brand new selection of cases that have changed our lives this collection of essays examines key cases both uk and international that have changed or created the rules and procedures which govern our lives and which we abide by it takes a retrospective look at the circumstances behind the results of these great cases examining the facts and the lasting legacies as well as revealing a human side to the events that is not always apparent from the law reports the themes addressed by the book demonstrate the rule of law showing that through something as abstract as judicial reasoning we create a set of rules and procedures which govern our lives in support of the rule of law and the causes championed by lexisnexis a sum of gbpl from every copy of the book sold will be donated to stop the traffik a global movement of activists around the world who passionately give their time and energy to build resilient

communities and prevent human trafficking
