Urban Climate Mitigation Techniques 2016-01-08

the urban climate is continuously deteriorating urban heat lowers the quality of urban life increases energy needs and affects the urban socio economy urban climate mitigation techniques presents steps that can be taken to mitigate this situation through a series of innovative technologies and examples of best practices for the improvement of the urban climate including tools for evaluation and a comparative analysis this book addresses anthropogenic heat green areas cool materials and pavements outdoor shading structures evaporative cooling and earth cooling case studies demonstrate the success and applicability of these measures in various cities throughout the world useful for urban designers architects and planners urban climate mitigation techniques is a step by step tour of the innovative technologies improving our urban climate providing a holistic approach supported by well established quantitative examples

Using Technology to Enhance Special Education 2023-02-02

using technology to enhance special education volume 37 of advances in special education focuses on how general and special educators can use technology to work with children and youth with disabilities

Transgenerational Technology and Interactions for the 21st Century 2022-10-25

this book is rooted in co design and co production taking an interdisciplinary lens and expertise from academia industry and stakeholder organisations to examine contemporary issues and to deliver a manifesto for technology innovation application and transgenerational living experiences for the 21st century

Singapore National Bibliography 1989

here s a wide ranging collection of practice problems typical of the fe exam in every respect all exam topics are covered and si units are used these multiple choice questions are conveniently arranged by subject so you can work through just the areas where you need practice or all 1001 problems a full step by step solution is provided for each problem since 1975 more than 2 million people preparing for their engineering surveying architecture leed interior design and landscape architecture exams have entrusted their exam prep to ppi

for more information visit us at ppi2pass.com

Library Technology for Visually and Physically Impaired Patrons *1991*

this comprehensive six volume collection addresses all aspects of online and distance learning including information communication technologies applied to education virtual classrooms pedagogical systems based learning library information systems virtual universities and more it enables libraries to provide a foundational reference to meet the information needs of researchers educators practitioners administrators and other stakeholders in online and distance learning provided by publisher

Korea Money *1997*

these simple math secrets and tricks will forever change how you look at the world of numbers secrets of mental math will have you thinking like a math genius in no time get ready to amaze your friends and yourself with incredible calculations you never thought you could master as renowned mathemagician arthur benjamin shares his techniques for lightning quick calculations and amazing number tricks this book will teach you to do math in your head faster than you ever thought possible dramatically improve your memory for numbers and maybe for the first time make mathematics fun yes even you can learn to do seemingly complex equations in your head all you need to learn are a few tricks you ll be able to quickly multiply and divide triple digits compute with fractions and determine squares cubes and roots without blinking an eye no matter what your age or current math ability secrets of mental math will allow you to perform fantastic feats of the mind effortlessly this is the math they never taught you in school

Resources in Education *1998*

covers the important concepts methodologies technologies applications social issues and emerging trends in this field provides researchers managers and other professionals with the knowledge and tools they need to properly understand the role of end user computing in the modern organization

1001 Solved Engineering Fundamentals Problems 2005

fluid flow and heat transfer processes play an important role in many areas of science and engineering from the planetary scale e g influencing weather and climate to the microscopic scales of enhancing heat transfer by the use of nanofluids understood in the broadest possible sense they also underpin the performance of many energy systems this topical special issue of energies is dedicated to the recent advances in this very broad field this book will be of interest to readers not only in the fields of mechanical aerospace chemical process and petroleum energy earth civil and flow instrumentation engineering but equally biological and medical sciences as well as physics and mathematics that is anywhere that fluid flow and heat transfer phenomena may play an important role or be a subject of worthy research pursuits

Online and Distance Learning: Concepts, Methodologies, Tools, and Applications 2007-07-31

this book covers elementary discrete mathematics for computer science and engineering it emphasizes mathematical definitions and proofs as well as applicable methods topics include formal logic notation proof methods induction well ordering sets relations elementary graph theory integer congruences asymptotic notation and growth of functions permutations and combinations counting principles discrete probability further selected topics may also be covered such as recursive definition and structural induction state machines and invariants recurrences generating functions

Technology Review 1999

popular science gives our readers the information and tools to improve their technology and their world the core belief that popular science and our readers share the future is going to be better and science and technology are the driving forces that will help make it better

Classroom Connect Newsletter 1996

includes part 1 number 1 books and pamphlets including serials and contributions to periodicals january june

Secrets of Mental Math 2008-06-03

over 70 of north americans are water closet readers the uncle john s bathroom readers series is still the best selling book of its kind anywhere in the world millions of people have discovered it over the past 25 years making it one of the publishing industry s longest running humor series it s our 16th year running so to speak i mean we re still going uhh strong a light hearted easy to read collection of facts quotes history science word origins pop culture gossip humor and more organized by length short a quick read medium 1 3 pages long for those visits when something a little more involved is required and to satisfy every demand our popular extended sitting section for a leg numbing experience running feet on every page provide a book within a book of weird facts partial table of contents included

End-User Computing: Concepts, Methodologies, Tools, and Applications 2008-02-28

the tragedy of romeo and juliet the greatest love story ever

Selected Problems in Fluid Flow and Heat Transfer 2019-09-20

an overview of the rapidly growing field of ant colony optimization that describes theoretical findings the major algorithms and current applications the complex social behaviors of ants have been much studied by science and computer scientists are now finding that these behavior patterns can provide models for solving difficult combinatorial optimization problems the attempt to develop algorithms inspired by one aspect of ant behavior the ability to find what computer scientists would call shortest paths has become the field of ant colony optimization aco the most successful and widely recognized algorithmic technique based on ant behavior this book presents an overview of this rapidly growing field from its theoretical inception to practical applications including descriptions of many available aco algorithms and their uses the book first describes the translation of observed ant behavior into working optimization algorithms the ant colony metaheuristic is then introduced and viewed in the general context of combinatorial optimization this is followed by a detailed description and guide to all major aco algorithms and a report on current theoretical findings the book surveys aco applications now in use including routing assignment scheduling subset machine learning and bioinformatics problems antnet an aco algorithm designed for the network routing problem is described in detail the authors conclude by summarizing the progress in the field and outlining future research directions each chapter ends with bibliographic material bullet points setting out important ideas covered in the chapter and

exercises and colony optimization will be of interest to academic and industry researchers graduate students and practitioners who wish to learn how to implement ACO algorithms

Mathematics for Computer Science 2017-03-08

Absolute clarity is the aim with a new generation of revision guide for the 2020s this guide has been expertly compiled and edited by successful former teachers of computer science highly experienced examiners and a good dollop of scientific research into what makes revision most effective past examinations questions are essential to good preparation improving understanding and confidence this guide has combined revision with tips and more practice questions than you could shake a stick at all the essential ingredients for getting a grade you can be really proud of each specification topic has been referenced and distilled into the key points to make in an examination for top marks questions on all topics assessing knowledge application and analysis are all specifically and carefully devised throughout this book

Popular Science 1976-08

New Dark Age is among the most unsettling and illuminating books I've read about the internet which is to say that it is among the most unsettling and illuminating books I've read about contemporary life New Yorker as the world around us increases in technological complexity our understanding of it diminishes underlying this trend is a single idea the belief that our existence is understandable through computation and more data is enough to help us build a better world in reality we are lost in a sea of information increasingly divided by fundamentalism simplistic narratives conspiracy theories and post factual politics meanwhile those in power use our lack of understanding to further their own interests despite the apparent accessibility of information we're living in a new dark age from rogue financial systems to shopping algorithms from artificial intelligence to state secrecy we no longer understand how our world is governed or presented to us the media is filled with unverifiable speculation much of it generated by anonymous software while companies dominate their employees through surveillance and the threat of automation in his brilliant new work leading artist and writer James Bridle surveys the history of art technology and information systems and reveals the dark clouds that gather over our dreams of the digital sublime

Catalog of Copyright Entries. Third Series 1967

popular mechanics inspires instructs and influences readers to help them master the modern world whether it s practical diy home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science pm is the ultimate guide to our high tech lifestyle

Advances in Power-to-X: Processes, Systems, and Deployment 2021-06-04

an encyclopedia designed especially to meet the needs of elementary junior high and senior high school students

Teaching the Learning Disabled 1981

handbook of energy efficiency in buildings a life cycle approach offers a comprehensive and in depth coverage of the subject with a further focus on the life cycle the editors renowned academics invited a diverse group of researchers to develop original chapters for the book and managed to well integrate all contributions in a consistent volume sections cover the role of the building sector on energy consumption and greenhouse gas emissions international technical standards laws and regulations building energy efficiency and zero energy consumption buildings the life cycle assessment of buildings from construction to decommissioning and other timely topics the multidisciplinary approach to the subject makes it valuable for researchers and industry based civil construction and architectural engineers researchers in related fields as built environment energy and sustainability at an urban scale will also benefit from the books integrated perspective presents a complete and thorough coverage of energy efficiency in buildings provides an integrated approach to all the different elements that impact energy efficiency contains coverage of worldwide regulation

Publishers Directory 1991

the perennial ipod and itunes bestseller returns completely updated the popularity of ipods is not slowing down so you need to keep up now in its eighth edition ipod itunes for dummies is the ideal companion for getting started with the ipod and apple s itunes service bestselling veteran author tony bove helps you get comfortable with using the ipod as more than just a digital music player you ll learn

to shop at the itunes store surf the rent movies buy songs send and receive e mail get directions check finances organize and share photos watch videos and much more plus the new and expanded content touches on the latest ipod models including the ipod classic ipod nano ipod shuffle ipod touch and the newest version of itunes serves as the latest edition in the bestselling lineage of a helpful easy to understand guide to the ipod and itunes offers straightforward coverage of using your ipod as the ultimate digital music player and shows you how buy and download songs from itunes create playlists share content from your itunes library burn cds from itunes play music through your home or car stereo and more details how to import music videos audiobooks and podcasts find cool content in the app store choose the right accessories sync your ipod with your mac or pc and more reviews updating your ipod troubleshooting and maintaining the battery life ipod and itunes for dummies 8th edition guides you through all the latest updates and enhancements so that you can start enjoying your ipod today

Uncle John's Unstoppable Bathroom Reader *2012-05-01*

norman bereft norman d beech has narrowly squeezed by a fatal pile up on life s highway alcohol induced blackouts have deeply cratered all lanes behind him the road ahead is fogbound obscured by uncertainty and doubt jobless beset by creditors and facing dui charges the troubled 40 year old engineer struggles to get his life in order putting his connecticut house up for sale he flies back to his boyhood home near washington dc to be with his widowed mother ethel depression and anxiety attacks impede his recovery at his mother s urging he seeks and receives help from her pastor father bob hopkins the two men discover much in common meeting often to confront their fears together and begin a close friendship unemployed for over a year norm lands a job and meets kay bradley whose charms overcome his fear of getting involved unwilling to wait for the church s annulment of his previous marriage they elope to las vegas his job travel demands soon test the strength of their union but he is ecstatic when he learns that she is pregnant a trojan horse of uncertainty works its way back into norm s life a tiny seed of doubt precipitates a tragic act leading to the loss of all he holds dear overwhelmed by grief and depression he fixates on an alcoholic teenager as the source of all his misery norm has nothing left to live for but his revenge warren ward must pay with his life

Romeo and Juliet 1973

personalized learning a guide for engaging students with technology is designed to help educators make sense of the shifting landscape

in modern education while changes may pose significant challenges they also offer countless opportunities to engage students in meaningful ways to improve their learning outcomes personalized learning is the key to engaging students as teachers are leading the way toward making learning as relevant rigorous and meaningful inside school as outside and what kids do outside school connecting and sharing online and engaging in virtual communities of their own renowned author of the heck where the bad kids go series dale basye and award winning educator peggy grant provide a go to tool available to every teacher today technology as a way to personalize the education experience for every student enabling students to learn at their various paces and in the way most appropriate to their learning styles
