therapy in great detail this author has condensed the same information down to
the bare essentials of what is needed to pass the exam this is not meant to serve as
a thorough review of everything you already learned in graduate school instead it
will review such knowledge in ways congruent to what the exam will measure the
philosophy of this manual was to teach you how to pass the exam as opposed to
reviewing the textbook the context contains a review of each primary theory to
marriage family therapy as organized by the knowledge domains stated by the
association for marital family therapy regulatory board to further grasp how these
theories are applied to families keeping in line with the application based nature of
the licensing exam the author has provided a glossary containing narratives of
each approach applied to the same family vignette to further differentiate this
manual from the other available options part i contains an overview of the exam
test taking strategies and study techniques to ensure that your preparations are
effective and efficient it will also move beyond theory and into the other knowledge
domains covered on the exam as well as provide a thorough glossary of all key
terms and primary interventions labeled by the theory in which they belong finally
the manual includes a practice exam with correct answers stated along with a
rationale as to why each answer was correct or incorrect ~~definitiva a cura di renato~~
