surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record january 2022 issue vol 99 no 1 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record march 2022 issue vol 99 no 3 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 100 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record october 2022 issue vol 99 no 10 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets since 1924 including metalworking and fabricating machine tools lathes cnc equipment machine centers woodworking equipment food equipment chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record june 2023 issue vol 100 no 7 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record august 2022 issue vol 99 no 8 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record september 2022 issue vol 99 no 9 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record november 2022 issue vol 99 no 11 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record june 2022 issue vol 99 no 6 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record march 2022 issue vol 100 no 1 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets since 1924 including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record april 2023 issue vol 100 no 4 this comprehensive text examines existing and emerging electrical drive technologies the authors clearly define the most basic electrical drive concepts and go on to explain the most important details

while maintaining a solid connection to the theory and design of the associated electrical machines also including links to a number of industrial applications the authors take their investigation of electrical drives beyond theory to examine a number of practical aspects of electrical drive control and application key features provides a comprehensive summary of all aspects of controlled speed electrical drive technology including control and operation handling of electrical drives is solidly linked to the theory and design of the associated electrical machines added insight into problems and functions are illustrated with clearly understandable figures offers an understanding of the main phenomena associated with electrical machine drives considers the problem of bearing currents and voltage stresses of an electrical drive includes up to date theory and design guidelines taking into account the most recent advances this book s rigorous coverage of theoretical principles and techniques makes for an excellent introduction to controlled speed electrical drive technologies for electrical engineering msc or phd students studying electrical drives it also serves as an excellent reference for practicing electrical engineers looking to carry out design analyses and development of controlled speed electrical drives surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets since 1924 including metalworking and fabricating machine tools lathes cnc equipment machine centers woodworking equipment food equipment chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record november 2023 issue vol 101 no 1 the third edition of induction machines handbook comprises two volumes induction machines handbook steady state modeling and performance and induction machines handbook transients control principles design and testing the promise of renewable hydro and wind energy via cage rotor and doubly fed variable speed generators e transport propulsion i home appliances makes this third edition state of the art tool conceived with numerous case studies timely for both academia and industry the first volume offers a thorough treatment of steady state modeling and performance of induction machines the most used electric motors generators in rather constant or variable speed drives for even lower energy consumption and higher productivity in basically all industries from home appliances through robotics to e transport and wind energy conversion the second volume presents a practical up to date treatment of intricate issues with induction machine im required for design and testing both in rather constant and variable speed with power electronics drives it contains ready to use in industrial design and testing knowledge with numerous case studies to facilitate thorough assimilation of new knowledge surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record may 2022 issue vol 99 no 5 energy efficiency is finally a common sense term nowadays almost everyone knows that using energy more efficiently saves money reduces the emissions of greenhouse gasses and lowers dependence on imported fossil fuels we are living in a fossil age at the peak of its strength competition for securing resources for fuelling economic development is increasing price of fuels will increase while availability of would gradually decline small nations will be first to suffer if caught unprepared in the midst of the struggle for resources among the large players here it is where energy efficiency has a potential to lead toward the natural next step transition away from imported fossil fuels someone said that the only thing more harmful then fossil fuel is fossilized thinking it is our sincere hope that some of chapters in this book will influence you to take a fresh look at the transition to low carbon economy and the role that energy efficiency can play in that process a guide to the automation body of knowledge 2nd edition has been updated and additional topics added covering custom software control equipment structure and continuous emissions monitoring systems to better provide the reader with comprehensive information about all major topics in the broad field of automation edited by vernon l trevathan with contributions from over thirty five leading experts from all aspects of automation this book defines the most important automation concepts and processes while also describing the technical skills professionals require to implement them in today s industrial environment whether you are an engineer manager control systems integrator student or educator you will turn to this book again and again as the ultimate source on what is encompassed by

automation surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 120 000 industrial assets since 1924 including metalworking and fabricating machine tools lathes cnc equipment machine centers woodworking equipment food equipment chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record november 2023 issue vol 100 no 12 this book gathers the latest advances innovations and applications in the field of machine science and mechanical engineering as presented by international researchers and engineers at the 11th international conference on machine and industrial design in mechanical engineering kod held in novi sad serbia on june 10 12 2021 it covers topics such as mechanical and graphical engineering industrial design and shaping product development and management complexity and system design the contributions which were selected by means of a rigorous international peer review process highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaborations surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets since 1924 including metalworking and fabricating machine tools lathes cnc equipment machine centers woodworking equipment food equipment chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record june 2023 issue vol 100 no 6 vols for 1970 71 includes manufacturers catalogs motion control is widely used in all types of industries including packaging assembly textile paper printing food processing wood products machinery electronics and semiconductor manufacturing industrial motion control applications use specialized equipment and require system design and integration to design such systems engineers need to be familiar with industrial motion control products be able to bring together control theory kinematics dynamics electronics simulation programming and machine design apply interdisciplinary knowledge and deal with practical application issues the book is intended to be an introduction to the topic for senior level undergraduate mechanical and electrical engineering students it should also be resource for system design engineers mechanical engineers electrical engineers project managers industrial engineers manufacturing engineers product managers field engineers and programmers in industry the death of professor arthur wright in the summer of 1996 deprived me of a friend and a colleague whose judgement and experience shaped this book i pay tribute to his contributions to protection and electrical engineering education in the five years since the first edition appeared many developments have taken place and it is now necessary to update the book the use of digital communications and advanced signal processing techniques is now widespread and several fully numeric relays are available from manufacturers two new chapters 13 and 14 have been added to introduce readers to these concepts and associated techniques artificial intelligence is making its impact in all engineering applications and power system protection is no exception expert systems fuzzy logic artificial neural networks adaptive and integrated protection synchronized measurements using the global positioning system genetic algorithms flexible a c transmission systems are some of the techniques considered in connection with protection although many of these techniques have not yet found major application in protection it is nevertheless essential for the educated protection engineer to have a basic understanding of the underlying principles and methodology so that he or she can evaluate their suitability for new relaying problems and applications chapter 15 was therefore added to guide readers through this developing area i have also added some new material in other chapters to reflect changes over the past years surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets since 1924 including metalworking and fabricating machine tools lathes cnc equipment machine centers woodworking equipment food equipment chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record november 2023 issue vol 100 no 11 this book reports the state of the art of energy efficient electrical motor driven system technologies which can be used now and in the near future to achieve significant and cost effective energy savings it includes the recent developments in advanced electrical motor end use devices pumps fans and compressors by some of the largest manufacturers policies and programs to promote the large scale

penetration of energy efficient technologies and the market transformation are featured in the book describing the experiences carried out in different parts of the world this extensive coverage includes contributions from relevant institutions in the europe north america latin america africa asia australia and new zealand this work constitutes the proceedings of the eighth international conference on electrical machines and drives there are 83 papers altogether

January 2022 - Surplus Record Machinery & Equipment Directory 2022-01-01 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record january 2022 issue vol 99 no 1

March 2022 - Surplus Record Machinery & Equipment Directory 2022-03-01 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record march 2022 issue vol 99 no 3

October 2022 - Surplus Record Machinery & Equipment Directory 2022-10-01 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 100 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record october 2022 issue vol 99 no 10

July 2023 - Surplus Record Machinery & Equipment Directory 2022-08-01 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets since 1924 including metalworking and fabricating machine tools lathes cnc equipment machine centers woodworking equipment food equipment chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record june 2023 issue vol 100 no 7

August 2022 - Surplus Record Machinery & Equipment Directory 2002 surplus record is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more over 1 100 businesses list with the surplus record august 2022 issue vol 99 no 8
