leading to a hyperconnected society where devices are not only used to **press**
exchange data but also are smart devices with more capabilities the chapters
reveal how these technologies are used in smart homes for intelligent sensor
based cognitive radio networks for different techniques for data fusion for the
synthesis and fabrication of nanosensor devices for monitoring agricultural
nutrient levels and more furthermore the fake user problems in wsns are
also investigated with a note on the current trends and the newer trends to
come in near future

this book constitutes the proceedings of the 10th international conference on
artificial intelligence and mobile services aims 2021 held as a virtual
conference as part of scf 2021 during december 10 14 2021 the 9 full
presented were carefully reviewed and selected from 20 submissions they
cover topics in ai modeling ai analysis ai and mobile applications ai
architecture ai management ai engineering mobile backend as a service
mbaas user experience of ai and mobile services

International Business Strategy 2021-09-23

organizational change for it people the first book of its kind written
specifically for it service management practitioners and executives most it
organizational structures are falling out of date with the shifts created by the
introduction of new technologies expanding services pace of business change
and the overall trend of lifting it up and out of the traditional data center and
into the cloud this is about transitioning the it organization from engineering
silos providing capabilities to valued it services that deliver business value it
organizations embarking on it service management must address both
cultural and structural barriers in a way that involves the whole enterprise if
they are going to be successful readers of this book will find practical
guidance for transitioning to the people and culture side of it service
