audi tfsi engines are turbocharged petrol units with a power rating from 25 to 70 learn the difference between tfsi and tsi and what tfsi e means for plug in hybrid models learn about the history versions and issues of the audi 2 0 tfsi engine a popular and turbocharged two liter engine that has been used in various vag group vehicles since 2004 find out the differences between tfsi and tsi the available versions of the engine and how to maintain it properly fsi stands for gasoline direct injection a technology that improves the efficiency of the engine by injecting fuel directly into the combustion chambers learn how fsi engines achieve higher performance and better dynamics than conventional engines and how they are used by all gasoline engines from audi learn about the two liter turbocharged engine that powers various vw audi models from the 125 200 kw 270 350nm versions to the 220 265 hp 300 350nm versions find out the common issues such as high oil consumption knocking and loss of power and the different versions and applications of the engine the 3 0 tfsi engine series encompasses a range of v6 powerplants with a 3 0 liter displacement this configuration strikes a balance between performance and compactness fitting seamlessly into audi s lineup of luxury vehicles supercharged perfection supercharging remains a cornerstone of the 3 0 tfsi series tfsi stands for turbo fuel stratified injection and is used by audi to describe its innovative gasoline engine technology it ensures precise fuel distribution optimum combustion and maximum engine power the abbreviation tfsi denotes turbocharging and direct injection a combination that audi was the first carmaker in the world to bring to large scale production in 2004 the exhaust gas turbocharger in the new rs 3 generates 1 5 bars of boost pressure relative complex measures reduce internal friction while increasing power output 09 15 2021 ingolstadt the legend lives the five cylinder engine is an expression of audi s dna stronger character the robust sound and characteristic firing order will give you goosebumps audi rs 3 new setup for unmatched acceleration and top speed download press contacts brought to the u s market for the first time in the audi s6 and s7 the epc comes paired to the 2 9 liter twin turbocharged tfsi v6 engine it consists of an electric motor with a small turbine that helps quickly build turbo boost pressure sharpening throttle response and reducing any noticeable turbo lag this one has a 261 hp 273 lb ft turbocharged direct injection 2 liter four cylinder gasoline lump the 16 valve dohc engine is typical vag fare it has an aluminum cylinder head with audi variable timing it is now also aided and abetted by an increasingly crucial 12 volt mild hybrid electric charge powering many new audi vehicles is the tfsi engine the tfsi turbo fuel stratified injection is the world s first turbocharged direct injection engine this system produces higher power
