this is the first book in the wrath of the northmen series by gustaf stahl time and the universe itself is a circle and each age eventually comes to its own distinct end the age which had lasted for several thousand years broadly speaking since the iron age was now about to pass the age had many names called the iron age or the age of kali by some legends from many peoples said it had come and gone before as part of a great cycle they were right regardless of mythos the age was bad in every sense of the word as with the night it was also apparently at its very darkest just before the dawn humanity consumed like never before and had expanded in size exponentially for centuries due to industrialized agriculture and medical advances almost everyone survived into old age and most managed to procreate the old slave caste who once worked the fields had exploded in numbers and humanity hardly resembled the vast majority of humans whom had populated the planet even centuries ago let alone their distant forefathers it eventually came crashing down a series of convergent catastrophes killed off over ninety percent of the human population and tribes arose as the only option to stay alive and free this book details events roughly seven decades after the collapse as it came to be known when the northern european tribes battle for their very survival against an evil empire bent on destroying or enslaving all of the remaining humanity the empire that controls all of southern europe follows a new and

distinctly distasteful religion which incorporates cannibalism child sacrifice and many other hair raising practices determined to live the northmen banded together and decided to form the elite warrior order of the oathsworn drawing upon legacies of the past this story tells the epic tale of the oathsworn as they fight to banish the darkness from the shores of europe

Hunter's Oath
