plentiful cheap money made much more use of complex financial instruments without fully understanding the risks to which they were exposing themselves and the financial system defaults on subprime mortgages underlying some of the instruments shattered confidence and financial markets seized up the framework of regulation and supervision in britain failed to avoid or mitigate the crisis the tripartite authorities in the united kingdom bank of england financial services authority fsa and treasury failed to maintain financial stability and were found wanting in part because the roles of the three parties were not well enough defined and it was not clear who was in charge too little attention was paid to macro prudential supervision oversight of the aggregate impact on financial stability of individual banks actions only the bank of england and the fsa were in a position to assess it the fsa concentrated on its responsibility for conduct of business supervision concerned mainly with consumer protection and did not pay full attention to the solvency and sustainability of individual banks it also had an inadequate understanding of the complexity and limitations of the risk assessment models used by the banks it was supervising the banking act 2009 showed the government had learnt the lesson that special resolution provisions are needed for banks since their failure can threaten the whole financial system the committee calls on the government urgently to revisit the tripartite supervisory system in the united kingdom and it should return responsibility for macro prudential supervision to the bank of england other recommendations cover bank capital regulation ratings agencies and bank governance this is a practical and accessible guide for those supervising
