airwaves the show's finale was one of the most watched in all of television history this collection of new essays by british and american contributors explores how a series about life in an early 20th century english manor home resonated with american audiences topics include the role of the house in literature and film the changing roles of women and the servant class the influence of jazz and fashion and attitudes regarding education and the class system when was feminism born in the 1960s or in the 1660s for england one might answer the early decades of the seventeenth century james i was king of england and women were expected to be chaste obedient subordinate and silent some however were not and these are the women who interest barbara lewalski those who as queens and petitioners patrons and historians and poets took up the pen to challenge and subvert the repressive patriarchal ideology of jacobean england setting out to show how these women wrote themselves into their culture lewalski rewrites renaissance history to include some of its most compelling and neglected voices as a culture dominated by a powerful queen gave way to the rule of a patriarchal ideologue a woman's subjection to father and husband came to symbolize the subjection of all english people to their monarch and all christians to god remarkably enough it is in this repressive jacobean milieu that we first hear englishwomen's own voices in some number elizabeth cary aemilia lanyer rachel speght and mary wroth published original poems dramas and prose of considerable scope and merit others inscribed their thoughts and experiences in letters and memoirs queen anne used the court masque to assert her place in palace politics while princess elizabeth herself stood as a symbol of resistance to jacobean patriarchy by looking at these women through their works lewalski documents the flourishing of a sense of feminine identity and expression in spite of or perhaps because of the constraints of the time the result is a fascinating sampling of jacobean women's lives and works restored to their rightful place in literary history and cultural politics in these women's voices and perspectives lewalski identifies an early challenge to the dominant culture and an ongoing challenge to our understanding of the renaissance world the year is 2015 chris randall is an average american male growing up during the 1990s he witnesses the turmoil of the world through the safety of a television set his idols include popular musicians and sports figures he cannot point out the country of mongolia on a map the hardest decision he faces is whether to go to college or join the military

like so many of his friends but something happens that changes all of that in one day his entire world is unraveled a massive electromagnetic pulse cripples all electronic devices throughout the country and temporary chaos sets in what emerges is a different but strangely familiar world a world that had always been seething just beneath the surface as the dust settles only the strong and resourceful survive millions of others die from famine disease and disorder chris must make a choice succumb to nihilism hatred and self destruction or find redemption by leaving behind everything he has ever known this 2nd revised edition features a new introduction by the author the peruvian mystic st rose of lima isabel flores y oliva 1586 1617 was canonized in 1671 as the first saint of the new world and remains the object of widespread devotion today in this engrossing new study frank graziano uses the example of st rose to explore the meaning of female mysticism and the way in which saints are products of their cultures virginity austerity eucharistic devotion incessant mortification and mystical marriage to christ characterized the devotional regimen that structured st rose s entire life many of her mystical practices echo the symptoms of such modern psychological disorders as masochism depression hysteria and anorexia nervosa graziano offers a sophisticated argument not only for the origins and meaning of these behaviors in rose s case but also for the reason her culture venerated them as signs of sanctity in the process he explores a wide range of themes from the idea of suffering as an expression of love to the assimilation of childhood trauma through religious repetition graziano also offers a penetrating analysis of the politics of rose s canonization he finds that her mystical union with god bypassing the institutional channels of sacrament and priestly mediation was inherently subversive to the bureaucratized church canonization was a cooptation by which rose s competing claim to christ was integrated into the catholic canon the book concludes with a fascinating exploration of mystical eroticism with its intense experiences of vision and ecstasy the eroticized suffering of many mystics is shown to be very human in origin the mystic s wounded love is projected onto a god conceived to accommodate it wounds of love is based on a decade of research in archives rare books and an extraordinary range of secondary sources introducing an innovative method that integrates history cultural studies psychoanalysis and clinical psychology this compelling work offers a bold new interpretation of female mysticism reproduction of the original the andes and the amazon by james orton andrea staton an army colonel dedicates her career and her
