easter this volume engages the interface between the development of human lives and social relational networks it focuses on the integration of two subfields of sociology social science the life course and social networks research practitioners studying social networks typically focus on social structure or social organization ignoring the complex lives of the people in those networks at the same time life course researchers tend to focus on individual lives without necessarily studying the contexts of social relationships in which lives are embedded and linked to one another through social networks these patterns are changing and this book creates an audience of researchers who will better integrate the two subfields it covers the role of social networks across the life span from childhood and adolescence to midlife through old age

the story of fatherhood and what it means to be a father today based on a decade long study of new and expectant fathers becoming a father is one of most common but also one of the most profoundly life altering experiences a man can have it is up there with puberty falling in love and experiencing your first loss fifty years ago a father s role was assumed to be clear he went to work he provided the pay cheque and he acted as a disciplinarian when he got home but today

a father's role is much more fluid and complex dr anna machin has spent the past decade working with new and expectant fathers studying the experiences of fathers and the questions fathers have will fatherhood change me how do other men fulfil the role how can i help my child grow into a healthy happy adult in the life of dad dr machin draws on her research and the latest findings in genetics neuroscience and psychology to tell the story of fatherhood she will show the extraordinary physiological changes a man undergoes when he becomes a father investigate how a man's genes can influence what sort of father he will be and will show how a dad makes a unique contribution to his child's life helping to foster independence of mind and spirit throughout the book readers will encounter the voices of real dads expectant and established as well as fascinating insights into fatherhood from across the globe the life of dad throws out the old stereotypes of fatherhood in an entertaining and informative journey through the role of dad helping you decide what sort of father you want to be a tour de force exploration of the forgotten half of the parenthood business essential reading for every expectant dad and mum robin dunbar professor of evolutionary psychology university of oxford

Family Stories and the Life Course

2004-04-26

this edited book draws from work that focuses on the act of telling family stories as well as their content and structure the process of telling family stories is linked to central aspects of development including language acquisition affect regulation and family interaction patterns this book extends across traditional developmental psychology personality theory and family studies drawing broadly on the epigenetic framework for individual development articulated by erik erikson as well as on conceptions of the family life cycle the editors bring together contemporary examples of psychological research on family stories and their implications for development and change at different points in the life course the book is divided into sections that focus on family stories at different points in the life cycle from early childhood and the beginnings of narrative skill through adolescence young adulthood midlife and then mature adulthood and its intergenerational meaning during each of these periods of the life cycle research focusing on individual development within an eriksonian framework of ego strengths and virtues is highlighted the dynamic role of family stories is also featured here with work exploring the links between family process intergenerational attachment and storytelling sociocultural theories that emphasize how such development is situated in the wider cultural context are also featured in several chapters this broad lifespan developmental focus serves to integrate the exciting diversity of this

work and foster further questions and research in the emerging field of family narrative the book is intended primarily for researchers and advanced level students in the fields of developmental and personality psychology as well as those in family studies and in gerontology it may also be of interest to those in the helping professions who are concerned with family therapy and family issues and may due to its content and illustrative material have appeal to a wider market of the lay public the chapters are written in a readily accessible style and the analyses are presented in a fairly non technical way because family stories are charted across the lifespan it would be a suitable companion book to a more traditional lifespan textbook in certain courses

1 New York Times bestseller a lucid intelligent page turner Los Angeles Times that challenges long held assumptions about Jesus from the host of believers two thousand years ago an itinerant Jewish preacher walked across the Galilee gathering followers to establish what he called the Kingdom of God the revolutionary movement he launched was so threatening to the established order that he was executed as a state criminal within decades after his death his followers would call him God sifting through centuries of mythmaking Reza Aslan sheds new light on one of history's most enigmatic figures by examining Jesus through the lens of the tumultuous era in which he lived balancing the Jesus of the gospels against the historical sources Aslan describes a man full of conviction and passion yet rife with contradiction he explores the reasons the early Christian church preferred to promulgate an image of Jesus as a peaceful spiritual teacher rather than a politically conscious revolutionary and he grapples with the riddle of how Jesus understood himself the mystery that is at the heart of all subsequent claims about his divinity Zealot yields a fresh perspective on one of the greatest stories ever told even as it affirms the radical and transformative nature of Jesus' life and mission praise for Zealot riveting Aslan synthesizes scripture and scholarship to create an original account the New Yorker fascinatingly and convincingly drawn Aslan may come as close as one can to respecting those who revere Jesus as the peace loving turn the other cheek true son of God depicted in modern Christianity even as he knocks down that image the Seattle Times Aslan's literary talent is as essential to the effect of Zealot as are his scholarly and journalistic chops a vivid persuasive portrait salon this tough minded

deeply political book does full justice to the real Jesus and honors him in the process. San Francisco Chronicle a special and revealing work one that believer and skeptic alike will find surprising, engaging and original. Jon Meacham, Pulitzer Prize winning author of Thomas Jefferson: The Art of Power, compulsively readable. This superb work is highly recommended. Publishers Weekly, starred review.

The life course of serious and violent youth grown up addresses significant gaps in the literature on youth involved in chronic serious and violent offending through longitudinal research and a long follow up into adulthood. It challenges common perceptions about offending outcomes using theoretically grounded, methodologically sophisticated and empirically driven research. This book culminates 20 years of data emerging from the incarcerated serious and violent young offender study (ISVYOS) initiated in 1998 to understand the origins of serious and violent youth offending. It follows 1,719 formerly incarcerated youth through adulthood and offers a contemporary perspective to questions about chronic offending in adolescence and social and offending outcomes in adulthood. The authors provide a theoretically framed examination of new findings from the ISVYOS regarding participants' justice system involvement from onset to persistence to desistance. Most participants experienced continued involvement in the justice system in adulthood, however, contrary to past literature, ISVYOS findings challenge static descriptions of chronic offending and notions of the youth super predator. ISVYOS findings also challenge assertions that experiences and risk factors in childhood and adolescence are not informative of adult justice system involvement. Together, the findings call for a more humanistic approach that recognizes that the complex lives of individuals formerly incarcerated in adolescence implies that desistance does not happen by default. This book will be of great interest to scholars, researchers and students of forensic psychology, developmental and life course criminology, youth justice and violent crime.

this volume engages the interface between the development of human lives and social relational networks it focuses on the integration of two subfields of sociology social science the life course and social networks research practitioners studying social networks typically focus on social structure or social organization ignoring the complex lives of the people in those networks at the same time life course researchers tend to focus on individual lives without necessarily studying the contexts of social relationships in which lives are embedded and linked to one another through social networks these patterns are changing and this book creates an audience of researchers who will better integrate the two subfields it covers the role of social networks across the life span from childhood and adolescence to midlife through old age
