readers to consider both similarities and differences and to accept differences and challenges as being ok they ll learn how to help and support friends whose families might have their own unique differences national news reports periodically proclaim that american life is lonelier than ever and new books on the subject with titles like bowling alone generate considerable anxiety about the declining quality of americans social ties still connected challenges such concerns by asking a simple yet significant question have americans bonds with family and friends changed since the 1970s and if so how noted sociologist claude fischer examines long term trends in family ties and friendships and paints an insightful and ultimately reassuring portrait of americans personal relationships still connected analyzes forty years of survey research to address whether and how americans personal ties have changed their involvement with relatives the number of friends they have and their contacts with those friends the amount of practical and emotional support they are able to count on and how emotionally tied they feel to these relationships the book shows that americans today have fewer relatives than they did forty years ago and that formal gatherings have declined over the decades at least partially as a result of later marriages and more women in the work force yet neither the overall quantity of personal relationships nor more importantly the quality of those relationships has diminished americans contact with relatives and friends as well as their feelings of emotional

connectedness has changed relatively little since the 1970s although americans are marrying later and single people feel lonely few americans report being socially isolated and the percentage who do has not really increased fischer maintains that this constancy testifies to the value americans place on family and friends and to their willingness to adapt to changing circumstances in ways that sustain their social connections for example children now often have schedules as busy as their parents yet today s parents spend more quality time with their children than parents did forty years ago although less in the form of organized home activities and more in the form of accompanying them to play dates or sports activities and those family meals at home that seem to be disappearing while survey research shows that families dine at home together less often it also shows that they dine out together more often americans are fascinated by the quality of their relationships with family and friends and whether these bonds fray or remain stable over time with so many voices heralding the demise of personal relationships it s no wonder that confusion on this topic abounds an engrossing and accessible social history still connected brings a much needed note of clarity to the discussion americans personal ties this book assures us remain strong seal press originally published helping her get free with the title to be an anchor in the storm the survivor of an abusive relationship herself and a licensed counselor of abused women for more than a decade susan brewster teaches readers how to recognize the signs of abuse handle negative feelings become an effective advocate deal with the abuser and more with a new introduction and updated resource section this straightforward and compassionate book offers the information needed to help give strength to women who are trying to break free an engaging and entertaining gift book for adults and children to share which celebrate friendship and family in their many different forms milk and cookies salt and pepper we are best friends is full of best friend pairs and things that just belong together designed with a mixture of photographs and fun illustrations each best friend pair has an amusing rhyme to read and share an illustrated collection of essays about the various people events and experiments from henry ford s lifetime a collection of 20 books that will help parents teach their children to read at home written by literacy specialists each book includes stories plays games instruction text and much more 24k gold plated charm that you may keep on the ribbon bookmark or wear on a bracelet 80 page hardcover book 3 1 4 wide x 4 high through thick and thin or rain and shine a good friend will stick by you no matter what this little book is a collection of quotes from thinkers to comedians from winston churchill to winnie the pooh each quote celebrates the bonds we share with the people who know us best our friends the family we choose a study of how bonds of kinship friendship and lordship shaped medieval european political life how many siblings does the average girl your age have at what age do most girls start dating how do other girls your age handle friend drama find the answers to these questions and more as you try to be the best friend and family member you can be what is a vacation without the great meals it s a fork in the road some time away from home but add a great meal and it s an adventure one you will never forget laughing kids hot coals and sauce you can t get at a restaurant back home savor it the first time and the time years from now that you are reminded of it these are the best times of your life you can make em last just like the thirty year old story you just told family and friends and a trip to the grocery store are all the ingredients you need the rest is up to you
