The Book of the Damned

2020-09-28

time travel ufos mysterious planets stigmata rock throwing poltergeists huge footprints bizarre rains of fish and frogs nearly a century after charles fort s book of the damned was originally published the strange phenomenon presented in this book remains largely unexplained by modern science through painstaking research and a witty sarcastic style fort captures the imagination while exposing the flaws of popular scientific explanations virtually all of his material was compiled and documented from reports published in reputable journals newspapers and periodicals because he was an avid collector charles fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications

sent to him from around the globe this was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular if you agree that truth is often stranger than fiction then this book is for you taken from good reads website

A Century of Artists Books

1997-09

To Kill a Mockingbird

2014-07-08

voted america's best loved novel in pbs's the great american read harper lee's pulitzer prize winning masterwork of honor and injustice in the deep south and the heroism of one man in the face of blind and violent hatred one of the most cherished stories of all time to kill a mockingbird has been translated into more than forty languages sold more than forty million copies worldwide served as the basis for an enormously popular motion picture and was voted one of the best novels of the twentieth century by librarians across the country a gripping heart wrenching and wholly remarkable tale of coming of age in a south poisoned by virulent prejudice it views a world of great beauty and savage inequities through the eyes of a young girl as her father a crusading local lawyer risks everything to defend a black man unjustly accused of a terrible crime

Uncommon Vows

2003

from new york times bestselling author mary jo putney comes a passionate tale about a lady and an earl who become hostages to desire a single moment of impetuosity sweeps them both up in the royal battle of kings into a dangerous intrigue of sweet caresses and a fiery all consuming love

The Death of Expertise

2024

in the early 1990s a small group of aids denialists including a university of california professor named peter duesberg argued against virtually the entire medical establishment s consensus that the human immunodeficiency virus hiv was the cause of acquired immune deficiency syndrome science thrives on such counterintuitive challenges but there was no evidence for duesberg s beliefs which turned out to be baseless once researchers found hiv doctors and public health officials were able to save countless lives through measures aimed at preventing its transmission

The Talent Code

2010-12-15

talent you've either got it or you haven't not true actually in the talent code award winning journalist daniel coyle draws on cutting edge research to reveal that far from being some abstract mystical power fixed at birth ability really can be created and nurtured in the process he considers talent at work in venues as diverse as a music school in dallas and a tennis academy near moscow to demonstrate how the wiring of our brains can be transformed by the way we approach particular tasks he explains what is really going on when apparently unremarkable people suddenly make a major leap forward he reveals why some teaching methods are so much more effective than others above all he shows how all of us can achieve our full potential if we set about training our brains in the right way

Girl of the Limberlost

Developmental Psychology: The Growth of Mind and Behavior

2013-10-01

frank keil's developmental psychology represents his vision of how psychology should be taught and is based on nearly four decades of teaching a lecture course in developmental psychology and conducting developmental research with a cohesive narrative clear art program and carefully crafted pedagogy the book guides students through material that is as rich as it is intriguing keil's narrative reflects his passion for engaging students intellectual curiosity with an analytical approach that explores the big questions links theory with evidence and treats developmental psychology as a science developmental psychology invites readers to celebrate the beauty and to understand the depth of psychological development

Hyperion, Or the Hermit in Greece

2019-03-05

friedrich hölderlin's only novel hyperion 1797/99 is a fictional epistolary autobiography that juxtaposes narration with critical reflection returning to greece after german exile following his part in the abortive uprising against the occupying turks 1770 and his failure as both a lover and a revolutionary hyperion assumes a hermitic existence during which he writes his letters confronting and commenting on his own past with all its joy and grief the narrator undergoes a transformation that culminates in the realisation of his true vocation though hölderlin is now established as a great lyric poet recognition of his novel as a supreme achievement of

european romanticism has been belated in the anglophone world incorporating the aesthetic evangelism that is a characteristic feature of the age hyperion preaches a message of redemption through beauty the resolution of the contradictions and antinomies raised in the novel is found in the act of articulation itself to a degree remarkable in a prose work of any length what it means is inseparable from how it means in this skilful translation gaskill conveys the beautiful music and rhythms of hölderlin s language to an english speaking reader

The Egg & I

2016-11-01

a work of real comic genius a wonderful funny warm honest book and to use a much overused word a classic michael korda author of country matters when betty macdonald married a marine and moved to a small chicken farm on the olympic peninsula in washington state she was largely unprepared for the rigors of life in the wild with no running water no electricity a house in need of constant repair and days that ran from four in the morning to nine at night the macdonalds had barely a moment to put their feet up and relax and then came the children yet through every trial and pitfall through chaos and catastrophe this indomitable family somehow mercifully never lost its sense of humor a beloved literary treasure for more than half a century betty macdonald s the egg and i is a heartwarming and uproarious account of adventure and survival on an american frontier
