L2 Pragmatics in Action

2001

the present study exploratively investigated the role of organizational culture in performance management practices in kenyan higher education institutions specifically the influence of organizational culture on the purpose and extent to which performance information is used was explored qualitative interviews were conducted followed by quantitative surveys which were filled out by teaching and non teaching staff in various universities in kenya the findings provide evidence of linkages

between performance information use diversity of measure and organizational culture it has been established that depending on whether flexibility or control values are dominant in the culture of an institution performance information is used in varying ways institutions where flexibility values were dominant in their organizational cultures used performance information for attention focus monitoring and decision making to a higher extent than universities where control values were dominant institutions where flexibility values were dominant also showed a more diverse set of performance measures than in those where control values were dominant

the renowned philosopher and author of homo sacer continues his groundbreaking work with this examination of selfhood and western ontology giorgio agamben s homo sacer was one of the most influential works of political philosophy in recent decades it was also the beginning of a series of studies investigating the deepest foundations of western politics and thought the use of bodies represents the ninth and final volume in this twenty year undertaking breaking considerable new ground while clarifying the stakes and implications of the project as a whole the use of bodies comprises three major sections the first uses aristotle s discussion of slavery as a starting point for radically rethinking notions of selfhood the second calls for a complete reworking of western ontology and the third explores the enigmatic concept of form of life which is in many ways the motivating force behind the entire homo sacer project interwoven between these major sections are shorter reflections on individual thinkers debord foucault and heidegger while the epilogue pushes toward a new approach to political life that breaks with the destructive deadlocks of western thought the use of bodies represents a true masterwork by one of our greatest living philosophers
