David Busch's Canon EOS 80D Guide to Digital SLR Photography 2016-09-19

written in concert with adobe's development of the photoshop lightroom 2 beta the adobe photoshop lightroom 2 book for digital photographers by 1 bestselling computer and technology author scott kelby is the most complete and concise lightroom how to book for digital photographers of all skill levels in the adobe photoshop lightroom 2 book for digital photographers scott walks readers through the basics of lightroom use leading them to a brilliantly devised and super efficient digital photography workflow that dramatically improves productivity and allows photographers to spend less time processing photos and more time shooting them throughout the book scott shares his personal camera and lightroom settings as well as the studio

tested techniques he s developed for his own photography workflow the book is written in his trademark step by step plain english style and because he knows what really works and what doesn t he isn t shy to tell you flat out which tools to use which to avoid and why this allows digital photographers of any skill level to jump right in using lightroom like a pro from the very start sidestepping a lot of the frustrations that typically haunt those unfamiliar with new applications especially those as powerful as lightroom what really sets the adobe photoshop lightroom 2 book for digital photographers apart from other lightroom books on the market are the last two bonus chapters where scott answers the questions in exactly what order am i supposed to do things in lightroom and where does photoshop fit in to the mix both chapters start with an on location photo shoot including full details on the equipment camera settings and lighting techniques readers then witness as he takes the photos from each shoot through the entire workflow process to the final output of the 16 x20 prints and because he incorporates photoshop seamlessly right into this workflow you ll learn some of the latest photoshop techniques for portrait and landscape photography as well if you re one of those people who learns best by actually doing the projects yourself who learns best without all the complicated technical explanations and confusing jargon and if you really want to start using lightroom today to unlock the productivity secrets of the new digital photography workflow there is no faster more straight to the point or more fun way to learn than this

groundbreaking new book and you are absolutely going to love it
