jan geurtz s famous classic verslaafd aan liefde in english in addicted to love jan geurtz clearly demonstrates how our search for love and approval stems from a fundamental self rejection we try to compensate for this by seeking other people s appreciation but this is counterproductive it actually makes us more insecure and therefore increasingly dependent this creates an addiction to love approval and the security of a relationship as a result most romantic relationships eventually fail or perhaps even worse are reduced to dreary co existence with little room for growth and happiness with humour and practical examples jan geurtz shows a way out of this vicious circle once we have let go of self rejection we find that our painful emotions and also our sexual desires are the gateway to a state of being that is completely free of restriction and dependence and is filled with love and clarity with or without a relationship jan geurtz has written several books on addictions including the bestseller quit smoking in one day he studied remedial pedagogy education sciences and philosophy of science and is inspired by buddhism
