elie wiesel plucked from the ashes of the holocaust became a nobel peace laureate an activist on behalf of the oppressed a teacher an award winning novelist and a renowned humanist he moved easily among world leaders but was equally at home among the disenfranchised following his nobel prize wiesel established the elie wiesel foundation for humanity one of their early initiatives was the founding of the elie wiesel ethics essay contest the reflections in this volume come from judges of the contest they share their personal and professional experiences working with and learning from wiesel providing a glimpse of the person behind the public figure at a time when the future seems ominous and chaotic at best these reflections hold on to the promise of an ethically and morally robust possibility the students whose essays prompt this sense of hope are remarkable for their insight and dedication the messages embedded in the judges reflections mirror wiesel s convictions about the importance of friendship the need to interrogate without abandoning god and the power of remembrance in order to fight indifference

this qualitative journey explores how literature informs and challenges my under standing of teaching and learning insights questions and conflicts are revealed through a series of essays in which my evolving teacher identity is illuminated through literature and imagination hopefully reading this portrayal of literature which has been a source of educational insight and imagination for me will be of use to other educators as they reflect on their own teaching the primary works of literature used to facilitate this journey are the red badge of courage 1895 les miserables 1862 and american idiot 2004 light in august 1932 seinfeld scripts 1991 98 and frankenstein 1818 and the odyssey night 1960 and the souls of black folk 1903 by delving beneath my exterior teacher mask a collage of images anecdotes reflections aspirations and fears is exposed as a resource for pre service teachers or a reflective exercise for veteran teachers this study aims to benefit educators by providing a new pathway through which to better understand their intrinsic identities as teachers each chapter concludes with recommendations for reflection that readers are encouraged to consider individu ally and or collectively the spirit of daydreams allows me to integrate literature autobiography and imagi nation through inventive and inspired discourses with literary figures using au thentic quotations as content for original commentaries that further examine the intrinsic nature of teacher identity my hope is that this journey will inspire other educators to further reflect on realities and possibilities of what it means to be a teacher
