hydrocarbons revenues still form the bulk of abu dhabi s gdp and while falling prices are a concern the emirate has been moving steadily towards its economic diversification targets in line with abu dhabi economic vision 2030 the past 10 years has seen the non oil sector expand strongly on the back of business friendly government policies as a result of which non oil sector growth now outpaces that of the oil sector outside of hydrocarbons construction and manufacturing represent the biggest gdp contributors in the emirate with the construction sector poised to enter a period of renewed expansion and manufacturing identified as a key area for future growth leveraging the emirate s natural resources growing downstream capabilities and strategic location elsewhere abu dhabi s financial sector continues to assert itself and the expected 2015 launch of abu dhabi global market the uae s second financial free zone is expected to boost activity in the sector meanwhile visitor numbers to abu dhabi continue to rise with around 3.5m arrivals in 2014 up 25% on the previous year this growth is expected to continue as major infrastructure upgrades continue apace these include the expansion of abu dhabi international airport and the development of the 1200 km wide etihad rail project

## **How to Read Texts 2013-09-26**

in a growing revisionist tradition comparative educational scholars challenge conventional assumptions about quality education as a singular undertaking dominated by standardised assessments and globalisation influences the contributors to this volume illustrate the complexities and global dimensions of educational quality that

emerged in their research several chapters critique educational reforms employing assessments aligned to global standards and large scale assessments revealing how considerations of contextual factors internal needs and local traditions are essential for developing a quality curriculum or for overhauling a national education system most chapters interrogate the uses and misuses of standardised assessment results the contributors reveal the importance of asking critical questions about quality education how to access it and for what purposes what contextual and cultural factors are important what implementation issues and local level realities must be considered for true understanding of standardized assessment results what content skills and values are necessary and desirable ingredients what roles teachers and administrators play and what benefits accrue in terms of outcomes for employment and labor market needs or for achieving autonomy and stakeholder participation critiques of narrow interpretations of standardised assessment data contrast with research based evidence that participation in large scale assessments such as pisa timss and pirls can indeed be beneficial to identify needed reform refinements and implementation shortcomings specific country cases include brazil canada the united states spain portugal ukraine kyrgyzstan and the philippines other chapters provide insights on quality education issues worldwide the volume offers readers a panorama of views on the diversity of paths to quality education

### **The Report: Abu Dhabi 2015 2016-05-09**

this book examines the shifting portrayal of the nation in school textbooks in 14 countries during periods of rapid political social and economic change drawing on a range of analytic strategies the authors examine history and civics textbooks and the teaching of such texts along with other prominent curricular materials children s readers a required text penned by the head of state a holocaust curriculum etc the authors analyze the uses of history and pedagogy in building reinforcing and or redefining the nation and state especially in the light of challenges to its legitimacy the primary focus is on countries in developing or transitional contexts issues include the teaching of democratic civics in a multiethnic state with little history of democratic governance shifts in teaching about the khmer rouge in post conflict cambodia children s readers used to define national space in former republics of the soviet union the development of holocaust education in a context where citizens were both victims and perpetrators of violence the creation of a national past in turkmenistan and so forth the case studies are supplemented by commentary an introduction and conclusion

### **Qualities of Education in a Globalised World 2014-09-11**

twenty years of education transformation in gauteng 1994 to 2014 an independent review presents a collection of 15 important essays on different aspects of education in gauteng since the advent of democracy in 1994 these essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects each essay is written by one or more specialist in the relevant focus area the book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader it sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially there has been no attempt to fit the book s chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the gauteng department of education s present and past we leave the reader to decide to what extent the gde has fulfilled its educational mandate over the last 20 years

### **(Re)Constructing Memory: School Textbooks and the Imagination of the Nation 2014-08-08**

how and what to teach about religion is controversial in every country the routledge international handbook of religious education is the first book to comprehensively address the range of ways that major countries around the world teach religion in public and private educational institutions it discusses how three models in

particular seem to dominate the landscape countries with strong cultural traditions focused on a majority religion tend to adopt an identification model where instruction is provided only in the tenets of the majority religion often to the detriment of other religions and their adherents countries with traditions that differentiate church and state tend to adopt a separation model thus either offering instruction in a wide range of religions or in some cases teaching very little about religion intentionally leaving it to religious institutions and the home setting to provide religious instruction still other countries attempt managed pluralism in which neither one nor many but rather a limited handful of major religious traditions are taught inevitably there are countries which do not fit any of these dominant models and the range of methods touched upon in this book will surprise even the most enlightened reader religious instruction by educational institutions in 53 countries and regions of the world are explored by experts native to each country these chapters discuss legal parameters in terms of subjective versus objective instruction in religion constitutional statutory social and political contexts to religious approaches distinctions between the kinds of instruction permitted in elementary and secondary schools versus what is allowed in institutions of higher learning regional assessments which provide a welcome overview and comparison this comprehensive and authoritative volume will appeal to educators scholars religious leaders politicians and others interested in how religion and education interface around the world
