for the spirit being somewhat forgotten is an occupational hazard the holy spirit is so actively involved in our lives that we can take his presence for granted as they say familiarity breeds contempt just as we take breathing for granted we can take the holy spirit for granted simply because we constantly depend on him like the cane that soon feels like an extension of the blind man s own body we too easily begin to think of the holy spirit as an extension of ourselves yet the spirit is at the center of the action in the divine drama from genesis 1 2 all the way to revelation 22 17 the spirit s work is as essential as the father s and the son s yet the spirit s work is always directed to the person and work of christ in fact the efficacy of the holy spirit s mission is measured by the extent to which we are focused on christ the holy spirit is the person of the trinity who brings the work of the father in the son to completion in everything that the triune god performs this perfecting work is characteristic of the spirit in rediscovering the holy spirit author pastor and theologian mike horton introduces readers to the neglected person of the holy spirit showing that the work of god s spirit is far more ordinary and common than we realize horton argues that we need to take a step back every now and again to focus on the spirit himself his person and work in order to recognize him as someone other than jesus or ourselves much less something in creation through this contemplation we can gain a fresh dependence on the holy spirit in every area of our lives

the united states differs from other developed nations in the extent to which its national bicycle transportation policy relies on the use of unmodified roadways with cyclists obeying the same traffic regulations as motor vehicles this policy known as vehicular cycling evolved between 1969 when the 10 speed boom saw a sharp increase in adult bicycling and 1991 when the american association of state highway and transportation officials adopted an official policy that on road bikeways were not desirable this policy resulted from a growing realization by highway engineers and experienced club cyclists that they had parallel interests the cyclists preferred to ride on highways because most bikeways were not designed for high speeds and pack riding and the highway engineers did not want to divert funding from roadways to construct bikeways using contemporary magazine articles government reports and archival material from industry lobbying groups and national cycling organizations this book tells the story of how america became a nation of bicyclists without bikeways

cbs camera man mike marriott was on the last plane to escape from danang before it fell in the spring of 1975 the scene was pure chaos thousands of panic stricken vietnamese storming the airliner soldiers shooting women and

children to get aboard first refugees being trampled to death marriott remembers standing at the door of the aft stairway which was gaping open as the plane took off there were five vietnamese below me on the steps as the nose of the aircraft came up because of the force and speed of the aircraft the vietnamese began to fall off one guy managed to hang on for a while but at about 600 feet he let go and just floated off just like a skydiver what was going through my head was i've got to survive this and at the same time i've got to capture this on film this is the start of the fall of a country this country is gone this is history right here and now in tears before the rain a stunning oral history of the fall of south vietnam larry engelmann has gathered together the testimony of seventy eyewitnesses both american and vietnamese who like mike marriott capture the feel of history right here and now we hear the voices of nurses pilots television and print media figures the american ambassador graham martin the cia station chief thomas polgar vietnamese generals amerasian children even vietcong and north vietnamese soldiers through this extraordinary range of perspectives we experience first hand the final weeks before saigon collapsed from president thieu's cataclysmic withdrawal from pleiku and kontum colonel le khac ly put in command of the withdrawal recalls receiving the order i opened my eyes large large large i thought i wasn't hearing clearly to the last minute airlift of americans from the embassy courtyard and roof i remember when the bird ascended says stuart herrington who left on one of the last helicopters it banked and there was the embassy the parking lot the street lights and the silence touching heroic harrowing and utterly unforgettable these dramatic narratives illuminate one of the central events of modern history it was like being at waterloo concludes ed bradley of 60 minutes it was so important so historical and today it is still very obvious that we americans have not recovered from vietnam nothing else in my lifetime was as important as that as important as vietnam

an innovative narrative approach combines history politics and legal doctrine to explore the origin and evolution of americans constitutional right to free speech in a field dominated by jargon filled texts and march of progress treatments this book presents an insightful introduction to freedom of speech skillfully blending legal analysis with accounts of how staunchly contested historical political and cultural issues often influenced legal reasoning the volume traces the origins of the freedom in english law and its development through the founding of the united states and examines how the unique struggles of 19th century americans over such issues as political parties slavery women s rights and economic inequality transformed this traditional english right into a distinctively american one the book outlines the ways in which the u s supreme court became the prime interpreter of the meaning of free speech and introduces readers to current court rulings on the first amendment it also speculates about the political and legal
