excerpt from magna carta and other addresses to the student of american institutions it must appear singularly impressive and instructive that the members of the constitutional convention of the state of new york have paused in their important work to celebrate the seven hundredth anniversary of the great charter of english liberties and to look back reverently through the centuries to the sources of our constitutional law and to the days when our ancestors were laying the foundations of civil liberty and political justice it is indeed no exaggeration to assert that magna carta marked the greatest political epoch in the history of our race in that it saved england from becoming one of the arbitrary and degrading despotisms which arose in europe after the overthrow of the feudal system and that from its principles sprang representative and constitutional government with all that these terms have grown to mean to americans this ceremony must again emphasize the great truth that everything which has power to win the obedience and respect of men must have its roots deep in the past and that the more slowly institutions have grown so much the more enduring are they likely to prove about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at
