Revolution in the City of Heroes 2015-10-08 written by a 24 year old Indonesian medical student turned military commander named Suhario Padmodiwiryo alias Hario Kecik. Revolution in the City of Heroes is an evocative first hand account of the popular uprising in Surabaya. The book vividly portrays the chaotic swirl of events and the heady emotion of young people ready to sacrifice their lives for a great cause newly liberated from nearly four brutal years under Japanese control. The people of Indonesia faced great uncertainty in October 1945 as the British Army attempted to take control of the city of Surabaya, maintain order and deal with surrendered Japanese personnel. Their actions were interpreted by the young residents of Surabaya as a plan to restore Dutch colonial rule. In response, the youth of the city took up arms and repelled the force sent to occupy the city. They then held off British reinforcements for two weeks, battling tanks and heavy artillery with nothing more than light weapons and sheer audacity. Though eventually defeated, Surabaya's defenders had set the stage for Indonesia's national revolution.

Revolution, Rebellion, Resistance 2013-04-04 why do revolutions happen? Decades of social science research have brought us little closer to understanding where, when, and amongst whom they occur. In this groundbreaking book, Eric Selbin argues that we need to look beyond the economic, political, and social structural conditions to the thoughts and feelings of the people who make revolutions. In particular, he argues we need to understand the stories people relay and rework of past injustices and struggles as they struggle in the present towards a better future. Ranging from the French Revolution to the battle for Seattle, via Russia, China, Cuba, Vietnam, and Nicaragua, Selbin makes the case that it is myth, memory, and mimesis which create, maintain, and extend such stories. Revolution, Rebellion, Resistance identifies four kinds of enduring revolutionary story: civilizing and democratizing the social revolution, freedom and liberation, and the lost and forgotten, which do more than report on events; they catalyse changing the world.

Singapore's Permanent Territorial Revolution 2017-05-19 ever since Singapore became an independent nation in 1965, its government has been intent on transforming the island's environment. This has led to a nearly constant overhaul of the landscape, whether still natural or already manmade. Not only are the shape and dimensions of the main island and its subsidiary ones constantly modified, so are their relief and hydrology. No stone is left unturned, literally, and one could add, nor is a single cultural feature, be it a house, a factory, a road, or a cemetery. Given one of Singapore's unique features, namely that the state is the sole landlord, all types of property in all parts of the island, rural as well as urban, were and remain subject to expropriation. Fortunately, always with due compensation. This atlas illustrates, essentially through diachronic mapping of the changing distribution of all forms of land use, the universality of what has become a tool of social management by constantly replanning the rules of access to space. The Singaporean state is thus redefining territoriality even in its minute details. This is one reason it has been able to consolidate its control over civil society peacefully and to an extent rarely known in history.

Revolution by the Book 1993 why most modern revolutions have ended in bloodshed and failure and what lessons they hold for today's world of growing extremism. Why have so many of the iconic revolutions of modern times ended in bloody tragedies and what lessons can be drawn from these failures? Today, in a world where political extremism is on the rise and rational reform based on moderation and compromise often seems impossible to achieve, if you say you want a revolution, Daniel Chirot examines a wide range of right and left wing revolutions around the world from the late eighteenth century to today to provide important new answers to these critical questions. A powerful account of the unintended consequences of revolutionary change, if you say you want a revolution, is filled with critically important lessons for today's liberal democracies struggling with new forms of extremism. Back cover.

You Say You Want a Revolution? 2022-02-08 throughout eastern Europe, the unexpected and irrevocable fall of communism that began in the late 1980s presented enormous challenges in the spheres of politics and society as well as at the level of individual experience: excitement, uncertainty, and fear predicated the shaping of a new order, the outcome of which was anything but predetermined. Recent studies have focused on the ambivalent impact of capitalism, yet at the time, parliamentary democracy had equally few traditions to return to, and membership in the European Union was a distant dream at best. Nowadays, as new threats arise, Europe's current political crises prompt us to reconsider how liberal democracy in eastern Europe came about. In the first place, this book undertakes an analysis of the year 1990 in several countries throughout Europe to consider the role of uncertainty and change in shaping political nations.

From Revolution to Uncertainty 2019-06-05 a major intellectual history of the american revolution and its influence on later revolutions in europe and the americas the expanding blaze is a sweeping history of how the american revolution inspired revolutions throughout europe and the atlantic world in the eighteenth and nineteenth centuries jonathan israel one of the world's leading historians of the enlightenment shows how the radical ideas of american founders such as paine jefferson franklin madison and monroe set the pattern for democratic revolutions movements and constitutions in france britain ireland the netherlands belgium poland greece canada haiti brazil and spanish america the expanding blaze reminds us that the american revolution was an astonishingly radical event and that it didn't end with the transformation and independence of america rather the revolution continued to reverberate in europe and the americas for the next three quarters of a century this comprehensive history of the revolution's international influence traces how american efforts to implement radical enlightenment ideas including the destruction of the old regime and the promotion of democratic republicanism self government and liberty helped drive revolutions abroad as foreign leaders explicitly followed the american example and espoused american democratic values the first major new intellectual history of the age of democratic revolution in decades the expanding blaze returns the american revolution to its global context

The Expanding Blaze 2017-08-29 revolution is an idea that has been one of the most important drivers of human activity since its emergence in its modern form in the 18th century from the american and french revolutionaries who upset a monarchical order that had dominated for over a millennium up to the arab spring this notion continues but has also developed its meanings equated with democracy and legal equality at first and surprisingly redefined into its modern meaning revolution has become a means to create nations change the social order and throw out colonial occupiers and has been labelled as both conservative and reactionary in this concise introduction to the topic jack r censer charts the development of these competing ideas and definitions in four chronological sections each section includes a debate from protagonists who represent various forms of revolution and counterrevolution allowing students a firmer grasp on the particular ideas and individuals of each era this book offers a new approach to the topic of revolution for all students of world history

Debating Modern Revolution 2016-02-11 although there are scores of books on the theme of revolution ilan rachum's study is unique in its analysis from the perspective of political discourse it examines how the term revolution entered western political vocabulary through a historical survey covering the early renaissance to the french revolution antecedents of the term revolution originated in italy from where they spread with modifications to france and finally england rachum also examines the use and significance of the term during the enlightenment the emergence of the epithet american revolution and the rebounding effects of this term on french intellectuals on the eve of 1789 this fascinating study will excite historians political scientists and anyone with an interest in the history of ideas that have had a lasting impact on how we perceive and describe social change

"Revolution" 1999 what can the great crises of the past teach us about contemporary revolutions jack goldstone shows the important role of population changes youth bulges urbanization elite divisions and fiscal crises in creating major political crises goldstone shows how state breakdowns in both western monarchies and asian empires followed the same patterns triggered when inflexible political economic and social institutions were overwhelmed by cumulative changes in population structure that collided with popular aspirations and state elite relations examining the great revolutions of europe the english and french revolutions and the great rebellions of asia which shattered dynasties in ottoman turkey china and japan he shows how long cycles of revolutionary crises and stability similarly shaped politics in europe and asia but led to different outcomes in this 25th anniversary edition goldstone reflects on the history of revolutions in the last twenty five years from the philippines and other color revolutions to the arab uprisings and the rise of the islamic state in a new introduction he re-examines his pioneering look at the role of population changes such as rising youth cohorts urbanization shifting elite mobility as continuing causal factors of revolutions and rebellions the new concluding chapter updates his major theory and looks to the future of revolutions in the middle east asia and africa

The Evolution of Revolution (1921) 2009-04-01 situating the french revolution in the context of early modern globalization for the first time this book offers a new approach to understanding its international origins and worldwide effects a distinguished group of contributors shows that the political culture of the revolution emerged out of a long history of global commerce imperial competition and the movement of people and ideas in places as far flung as india egypt guiana and the caribbean this international approach helps to explain how the revolution fused immense idealism with territorial ambition and combined the drive for human rights with various forms of exclusion the essays examine topics including the role of smuggling and free trade in the origins of the french revolution the entwined nature of feminism and abolitionism and the influence of the french revolutionary wars on the shape of american empire the french revolution in global perspective illuminates the dense connections among the cultural social and economic aspects of the french revolution revealing how new political forms at once democratic and imperial anticolonial and centralizing were generated in and through continual transnational exchanges and dialogues contributors rafe blaugarb florida state university ian coller la trobe university denise davidson georgia state university suzanne desan university of wisconsin madison lynn hunt university of california los angeles andrew jainchill queen's university michael kwass the johns hopkins university william max nelson university of toronto pierre serna université paris i panthéon sorbonne miranda spieler university of arizona charles walton yale university

The French Revolution in Global Perspective 2013-03-19 the electrifying story of the turbulent year when the sixties ended and america teetered on the edge of revolution named one of the best books of the year by the st louis post dispatch as the 1960s drew to a close the united states was coming apart at the seams from august 1969 to august 1970 the nation witnessed nine thousand protests and eighty four acts of arson or bombings at schools across the country it was the year of the my lai massacre investigation the cambodia invasion woodstock and the moratorium to end the war the american death toll in vietnam was approaching fifty thousand and the ascendant counterculture was challenging nearly every aspect of american society witness to the revolution clara bingham's unique oral history of that tumultuous time unveils anew that moment when america careened to the brink of a civil war at home as it fought a long futile war abroad woven together from one hundred original interviews witness to the revolution provides a firsthand narrative of that period of upheaval in the words of those closest to the action the activists organizers radicals and resisters who manned the barricades of what students for a democratic society leader tom hayden called the great refusal we meet bill ayers and bernardine dohrn of the weather underground daniel ellsberg the former defense department employee who released the pentagon papers feminist theorist robin morgan actor and activist jane fonda and many others whose powerful personal stories capture the essence of an era we witness how the killing of four students at kent state turned a straitlaced social worker into a hippie how the civil rights movement gave birth to the women's movement and how opposition to the war in vietnam turned college students into prisoners veterans into peace marchers and intellectuals into bombers with lessons that can be applied to our time witness to the revolution is more than just a record of the death throes of the age of aquarius today when america is once again enmeshed in racial turmoil extended wars overseas and distrust of the government the insights contained in this book are more relevant than ever praise for witness to the revolution especially for younger generations who didn't live through it witness to the revolution is a valuable and entertaining primer on a moment in american history the likes of which we may never see again bryan burrough the wall street journal a rich tapestry of a volatile period in american history time a gripping oral history of the centrifugal social

forces tearing america apart at the end of the 60s this is rousing reportage from the front lines of us history o the oprah magazine the familiar voices and the unfamiliar ones are woven together with documents to make this a surprisingly powerful and moving book new york times book review an enthralling and brilliant chronology of the period between august 1969 and september 1970 buffalo news bingham captures the essence of these fourteen months through the words of movement organizers vets students draft resisters journalists musicians government agents writers and others this oral history will enable readers to see that era in a new light and with fresh sympathy for the motivations of those involved while bingham s is one of many retrospective looks at that period it is one of the most immediate and personal booklist Witness to the Revolution 2016-05-31 a compendium of original essays and contemporary viewpoints on the 1917 revolution the russian revolution of 1917 reverberated throughout an empire that covered one sixth of the world it altered the geo political landscape of not only eurasia but of the entire globe the impact of this immense event is still felt in the present day the historiography of the last two decades has challenged conceptions of the 1917 revolution as a monolithic entity the causes and meanings of revolution are many as is reflected in contemporary scholarship on the subject a companion to the russian revolution offers more than thirty original essays written by a team of respected scholars and historians of 20th century russian history presenting a wide range of contemporary perspectives the companion discusses topics including the dynamics of violence in war and revolution russian political parties the transformation of the orthodox church bolshevism liberalism and more although primarily focused on 1917 itself and the singular revolutionary experience in that year this book also explores time periods such as the first russian revolution early soviet government the civil war period and even into the 1920 s presents a wide range of original essays that discuss brings together in depth coverage of political history party history cultural history and new social approaches explores the long range causes influence on early soviet culture and global after life of the russian revolution offers broadly conceived contemporary views of the revolution largely based on the author s original research links russian revolutions to russian civil wars as concepts a companion to the russian revolution is an important addition to modern scholarship on the subject and a valuable resource for those interested in russian late imperial or soviet history as well as anyone interested in revolution as a global phenomenon

A Companion to the Russian Revolution 2020-10-19 the flow and counter flow of revolution and counterrevolution have become the norm of the twentieth century in this fascinating and well rounded volume the author illuminates the revolutionary process as it has developed from antiquity to the present day from the vantage points of political science history and sociology meisel s work is presented in the form of twelve absorbing episodes in the history of western civilization his remarkable for the detail with which he approaches a subject often difficult to define and even more difficult to explain he suggests a new and highly useful perspective of history by viewing it as a process of revolution and counterrevolution and their transitional stages as it is the nature of revolutions to fall short of their objectives and to enjoy only a brief heyday that becomes the stereotype accepted by posterity the author emphasizes their antithetical closing phases whose lessons posterity tends to forget meisel s belief is that second echelon figures teach us more about the natural process of revolution than the atypical men of destiny and he illustrates his account with many portrayals of comparative unknowns who lived through all the stages of revolution and counterrevolution but revolutions can also be aborted or be preceded by counterrevolutions as meisel demonstrates by enlightening analyses of mussolini s coup d utat the origins of the spanish civil war and general de gaulle s defeat of a potential army insurrection in behalf of french algeria in this profound and wide ranging work meisel achieves an admirable balance between theory action and biography the result is a unique survey of revolutionary history in which a sophisticated thinker provides on almost every page a deepening understanding of the problems of revolution for the scholar and student of political processes political theory and comparative politics the reader with a lively interest in the modus operandi of history will also find this book compelling reading

Counterrevolution 2018-02-06 from the american revolution to the conflicts in afghanistan revolutions have played a critical role in the course of history insight into the causes of revolutions and the factors that shape their outcomes is critical to understanding politics and world history and revolutions is a reader designed to address this need part one offers a combination of classic treatises and late breaking scholarship that develops students theoretical

understanding of revolutionary movements part two shows students how these theories play out in real life through rich accessible accounts of major revolutionary episodes in modern history

Revolutions 1994 in the 20th and 21st century revolutions have become more urban often less violent but also more frequent and more transformative of the international order whether it is the revolutions against communism in eastern europe and the ussr the color revolutions across asia europe and north africa or the religious revolutions in iran afghanistan and syria today s revolutions are quite different from those of the past modern theories of revolution have therefore replaced the older class based theories with more varied dynamic and contingent models of social and political change this new edition updates the history of revolutions from classical greece and rome to the revolution of dignity in the ukraine with attention to the changing types and outcomes of revolutionary struggles it also presents the latest advances in the theory of revolutions including the issues of revolutionary waves revolutionary leadership international influences and the likelihood of revolutions to come this volume provides a brief but comprehensive introduction to the nature of revolutions and their role in global history

Revolutions: a Very Short Introduction 2023 the fourth revolution shows how the cyclical nature of social movements has come to define not only american history but also the nation s ideal of progress

The Fourth Revolution 2006 french revolution the basics is an accessible and concise introduction to the history of the revolution in france combining a traditional narrative with documents of the era and references to contemporary imagery of the revolution the book traces the long and short term causes of the french revolution as well as its consequences up to the dissolution of the convention and the ascendancy of napoleon the book is written with an explicit aim for its reader to acquire understanding of the past whilst imparting knowledge using underlying historical concepts such as evidence continuity and change cause and effect significance empathy perspectives and contestability key topics discussed within the book include the structure of french society before 1789 the long and short term factors that contributed to the french revolution how ordinary french people including women and slaves participated in the revolution what brought about the end of the ancien régime the major reforms of the national assembly 1789 1791 and how they lead to the division and radicalisation of the revolution how the alternative visions of the new society divided the revolution and what were the internal and external pressures on the revolution that contributed to its radicalisation the forms of terror which enabled reality to triumph over the idealism the rise of napoleon bonaparte as military leader and emperor this book is an ideal introduction for anyone wishing to learn more about this influential revolution in the shaping of modern europe and the world

Revolution 1985 a theoretical analysis and historical investigation of the cold war nuclear arms race that challenges the nuclear revolution

French Revolution: The Basics 2021-12-22 the present is enough for common souls who never looking forward are indeed mere clay wherein the footprints of their age are petrified for ever i received a letter the other day it was from a man in arizona it began dear comrade it ended yours for the revolution i replied to the letter and my letter began dear comrade it ended yours for the revolution in the united states there are 400 000 men of men and women nearly 1 000 000 who begin their letters dear comrade and end them yours for the revolution in germany there are 3 000 000 men who begin their letters dear comrade and end them yours for the revolution in france 1 000 000 men in austria 800 000 men in belgium 300 000 men in italy 250 000 men in england 100 000 men in switzerland 100 000 men in denmark 55 000 men in sweden 50 000 men in holland 40 000 men in spain 30 000 men comrades all and revolutionists these are numbers which dwarf the grand armies of napoleon and xerxes but they are numbers not of conquest and maintenance of the established order but of conquest and revolution they compose when the roll is called an army of 7 000 000 men who in accordance with the conditions of to day are fighting with all their might for the conquest of the wealth of the world and for the complete overthrow of existing society there has never been anything like this revolution in the history of the world there is nothing analogous between it and the american revolution or the french revolution it is unique colossal other revolutions compare with it as asteroids compare with the sun it is alone of its kind the first world revolution in a world whose history is replete with revolutions and not only this for it is the first organized movement of men to become a world movement limited only by the limits of the planet

The Revolution that Failed 2020-03-05 beng hock and his brother beng huat who prefers to go

by archibald find themselves navigating a tumultuous singapore in the near future that has run out of oil and gas running afoul of the growing gangs could mean slavery or death jobs are scarce and food scarcer and home is a crumbling shanty town behind the city hall steam engine station and as if these changes aren't drastic enough a great power awakens inside beng hock and he must learn how to control it before it destroys everyone and everything in his way

Revolution 2021-04-24 this much is true you have been lied to the government is expanding taxes are increasing more senseless wars are being planned inflation is ballooning our basic freedoms are disappearing the founding fathers didn't want any of this in fact they said so quite clearly in the constitution of the united states of america unfortunately that beautiful ingenious and revolutionary document is being ignored more and more in washington if we are to enjoy peace freedom and prosperity once again we absolutely must return to the principles upon which america was founded but finally there is hope in the revolution texas congressman and presidential candidate ron paul has exposed the core truths behind everything threatening america from the real reasons behind the collapse of the dollar and the looming financial crisis to terrorism and the loss of our precious civil liberties in this book ron paul provides answers to questions that few even dare to ask despite a media blackout this septuagenarian physician turned congressman sparked a movement that has attracted a legion of young dedicated enthusiastic supporters a phenomenon that has amazed veteran political observers and made more than one political rival envious candidates across america are already running as ron paul republicans dr paul cured my apathy says a popular campaign sign the revolution may cure yours as well

Beng Beng Revolution 2019-07-12 taking on decades of received wisdom david waldstreicher has written the first book to recognize slavery's place at the heart of the u s constitution famously the constitution never mentions slavery and yet of its eighty four clauses six were directly concerned with slaves and the interests of their owners five other clauses had implications for slavery that were considered and debated by the delegates to the 1787 constitutional convention and the citizens of the states during ratification this peculiar institution was not a moral blind spot for america's otherwise enlightened framers nor was it the expression of a mere economic interest slavery was as important to the making of the constitution as the constitution was to the survival of slavery by tracing slavery from before the revolution through the constitution's framing and into the public debate that followed waldstreicher rigorously shows that slavery was not only actively discussed behind the closed and locked doors of the constitutional convention but that it was also deftly woven into the constitution itself for one thing slavery was central to the american economy and since the document set the stage for a national economy the constitution could not avoid having implications for slavery even more since the government defined sovereignty over individuals as well as property in them discussion of sovereignty led directly to debate over slavery's place in the new republic finding meaning in silences that have long been ignored slavery's constitution is a vital and sorely needed contribution to the conversation about the origins impact and meaning of our nation's founding document

The Revolution 2008-04-30 from 1789 in france to 2011 in cairo revolutions have shaken the world in their pursuit of social justice revolutionaries have taken on the assembled might of monarchies empires and dictatorships they have often though not always sparked cataclysmic violence and have at times won miraculous victories though at other times suffered devastating defeat this very short introduction illuminates the revolutionaries their strategies their successes and failures and the ways in which revolutions continue to dominate world events and the popular imagination starting with the city states of ancient greece and rome jack goldstone traces the development of revolutions through the renaissance and reformation the enlightenment and liberal constitutional revolutions such as in america and their opposite the communist revolutions of the 20th century he shows how revolutions overturned dictators in nicaragua and iran and brought the collapse of communism in the soviet union and eastern europe and examines the new wave of non violent color revolutions the philippines yellow revolution ukraine's orange revolution and the arab uprisings of 2011 12 that rocked the middle east goldstone also sheds light on the major theories of revolution exploring the causes of revolutionary waves the role of revolutionary leaders the strategies and processes of revolutionary change and the intersection between revolutions and shifting patterns of global power finally the author examines the reasons for diverse revolutionary outcomes from

democracy to civil war and authoritarian rule and the likely future of revolution in years to come about the series oxford's very short introductions series offers concise and original introductions to a wide range of subjects from islam to sociology politics to classics literary theory to history and archaeology to the bible not simply a textbook of definitions each volume in this series provides trenchant and provocative yet always balanced and complete discussions of the central issues in a given discipline or field every very short introduction gives a readable evolution of the subject in question demonstrating how the subject has developed and how it has influenced society eventually the series will encompass every major academic discipline offering all students an accessible and abundant reference library whatever the area of study that one deems important or appealing whatever the topic that fascinates the general reader the very short introductions series has a handy and affordable guide that will likely prove indispensable

Slavery's Constitution 2010-06-22 the french revolution remains the most examined event and period in world history most historians would argue that it was the first modern revolution an event so momentous that it changed the very meaning of the word revolution to its current connotation of a political and or social upheaval that marks a decisive break with the past moving the society in a forward or progressive direction no revolution has occurred since 1789 without making reference to this first revolution and most have been measured against it when revolution shook the foundations of the old regime in france shock waves reverberated throughout the western world the a to z of the french revolution examines the causes and origins the roles of significant persons crucial events and turning points important institutions and organizations and the economic social and intellectual factors involved in the event that gave birth to the declaration of the rights of man and citizen the introduction of universal manhood suffrage and the napoleonic empire an introductory essay chronology and comprehensive bibliography complement the more than 400 cross referenced dictionary entries making this a great resource for students and history enthusiasts alike

Revolutions: A Very Short Introduction 2014-01-06 2021 reprint of the 1938 first edition full facsimile of the original edition and not reproduced with optical recognition software the anatomy of revolution outlines the uniformities of four major political revolutions the english revolution of the 1640s the american revolution the french revolution and the 1917 russian revolution brinton notes how the revolutions followed a life cycle from the old order to a moderate regime to a radical regime to thermidorian reaction the book has been described as a classic famous and a watershed in the study of revolution it has been influential enough to have inspired advice given to us president jimmy carter by his national security advisor zbigniew brzezinski during the iranian revolution revised editions of brinton's book were published in 1952 and 1965 and it remains in print our edition reprints the classic account first published in 1938 brinton summarizes the revolutionary process as moving from financial breakdown to organization of the discontented to remedy this breakdown revolutionary demands on the part of these organized discontented demands which if granted would mean the virtual abdication of those governing attempted use of force by the government its failure and the attainment of power by the revolutionists these revolutionists have hitherto been acting as an organized and nearly unanimous group but with the attainment of power it is clear that they are not united the group which dominates these first stages we call the moderates power passes by violent methods from right to left contents old regimes first stages of revolution types of revolutionists rule of the moderates accession of the extremists reigns of terror and virtue thermidor summary of the work of revolutions

The A to Z of the French Revolution 2007-02-23 this new edition of the most authoritative comprehensive history of the french revolution of 1789 draws on a generation of extensive research and scholarly debate to reappraise the most famous of all revolutions updates for this second edition include a generous chronology of events plus an extended bibliographical essay providing an examination of the historiography of the revolution opening with the accession of louis xvi in 1774 the book traces the history of france through revolution terror and counter revolution to the triumph of napoleon in 1802 and analyses the impact of events both in france itself and the rest of europe william doyle shows how a movement which began with optimism and general enthusiasm soon became a tragedy not only for the ruling orders but for the millions of ordinary people all over europe whose lives were disrupted by religious upheaval and civil and international war it was they who paid the price for the destruction of the old political order and the struggle to establish a new one based on the ideals of liberty and revolution in the

face of widespread indifference and hostility

The Anatomy of Revolution 2021-12 revolution goes east is an intellectual history that applies a novel global perspective to the classic story of the rise of communism and the various reactions it provoked in imperial japan tatiana linkhoeva demonstrates how contemporary discussions of the russian revolution its containment and the issue of imperialism played a fundamental role in shaping japan s imperial society and state in this bold approach linkhoeva explores attitudes toward the soviet union and the communist movement among the japanese military and politicians as well as interwar leftist and rightist intellectuals and activists her book draws on extensive research in both published and archival documents including memoirs newspaper and journal articles political pamphlets and comintern archives revolution goes east presents us with a compelling argument that the interwar japanese left replicated the orientalist outlook of marxism leninism in its relationship with the rest of asia and that this proved to be its undoing furthermore linkhoeva shows that japanese imperial anticommunism was based on geopolitical interests for the stability of the empire rather than on fear of communist ideology thanks to generous funding from new york university and its participation in tome toward an open monograph ecosystem the ebook editions of this book are available as open access oa volumes from cornell open cornellpress cornell edu cornell open and other repositories

The Oxford History of the French Revolution 2002-11-28 sewell synthesizes the material on the social history of the french labor movement from its formative period to the first half of the 19th century centers on the revolutions of 1789 1830 and 1848

Revolution Goes East 2020-03-15 what is indeed striking is the degree to which the essays reveal a shared set of interests and adopt languages and concerns that reflect back and forth in stimulating ways richard w kroll author of the material world

A Popular History of France from the First Revolution to the Present Time: 1795-1832 1878 this masterful comparative history traces the west s revolutionary tradition and its culmination in the communist revolutions of the twentieth century unique in breadth and scope history s locomotives offers a new interpretation of the origins and history of socialism as well as the meanings of the russian revolution the rise of the soviet regime and the ultimate collapse of the soviet union history s locomotives is the masterwork of an esteemed historian in whom a fine sense of historical particularity never interfered with the ability to see the large picture martin malia explores religious conflicts in fifteenth and sixteenth century europe the revolutions in england american and france and the twentieth century russian explosions into revolution he concludes that twentieth century revolutions have deep roots in european history and that revolutionary thought and action underwent a process of radicalization from one great revolution to the next malia offers an original view of the phenomenon of revolution and a fascinating assessment of its power as a driving force in history

Work and Revolution in France 1980-10-31 this innovative new book argues that diplomacy which emerged out of the french revolution has become one of the central ideological state apparatuses of the modern democratic nation state the book is divided into four thematic parts the first presents the central concepts and theoretical perspectives derived from the work of slavoj žižek focusing on his understanding of politics ideology and the core of the conceptual apparatus of lacanian psychoanalysis there then follow three parts treating diplomacy as archi politics ultra politics and post politics respectively highlighting three eras of the modern history of diplomacy from the french revolution until today the first part takes on the question of the creation of the term diplomacy which took place during the time of the french revolution the second part begins with the effects on diplomacy arising from the horrors of the two world wars finally the third part covers another major shift in western diplomacy during the last century the fall of the soviet union and how this transformation shows itself in the field of diplomacy studies the book argues that diplomacy s primary task is not to be understood as negotiating peace between warring parties but rather to reproduce the myth of the state s unity by repressing its fundamental inconsistencies this book will be of much interest to students of diplomacy studies political theory philosophy and international relations

Refiguring Revolutions 1998-01-01 this book reasserts the importance of the french revolution to an understanding of the nature of modern european politics and social life livesey argues that the european model of democracy was created in the revolution a model with very specific commitments that differentiate it from anglo american liberal democracy
