Dark Mirror

2020-05-21

a remarkable authentic and chilling exposé of a global conspiracy that reads like a first rate conspiracy thriller a book of gripping compulsive and disturbing impact william boyd dark mirror is the ultimate inside account of the vast global surveillance network that now pervades all our lives barton gellman s informant called himself verax the truth teller it was only later that verax unmasked himself as edward snowden but gellman s primary role in bringing snowden s revelations to light for which he shared the pulitzer prize is only the beginning of this gripping real life spy story snowden unlocked the door here gellman describes what he found on the other side over the course of a years long journey of investigation it is also the story of his own escalating battle against unknown digital adversaries after he discovered his own name on a file in the leaked document trove and realised that he himself was under attack through a gripping narrative of paranoia clandestine operations and jaw dropping revelations dark mirror delineates in full for the first time the hidden superstructure that connects government espionage with silicon valley who is spying on us and why here are the answers

Surveillance After Snowden

2015-10-19

in 2013 edward snowden revealed that the nsa and its partners had been engaging in warrantless mass surveillance using the internet and cellphone data and driven by fear of terrorism under the sign of security in this compelling account surveillance expert david lyon guides the reader through snowden s ongoing disclosures the technological shifts involved the steady rise of invisible monitoring of innocent citizens the collusion of government agencies and for profit companies and the implications for how we conceive of privacy in a democratic society infused by the lure of big data lyon discusses the distinct global reactions to snowden and shows why some basic issues must be faced how we frame surveillance and the place of the human in a digital world surveillance after snowden is crucial reading for anyone interested in politics technology and society

The Snowden Reader

2015-04-24

when edward snowden began leaking nsa documents in june 2013 his actions sparked impassioned debates about electronic surveillance national security and privacy in the digital age the snowden reader looks at snowden s disclosures and their aftermath critical analyses by experts discuss the historical political legal and ethical issues raised by the disclosures over forty key documents related to the case are included with introductory notes explaining their significance documents leaked by snowden responses from the nsa the obama administration and congress statements by foreign leaders their governments and international

historic episode

The Snowden Files

2014-02-07

now a major motion picture directed by oliver stone and starring joseph gordon levitt edward snowden was a
29 year old computer genius working for the national security agency when he shocked the world by
exposing the near universal mass surveillance programs of the united states government his whistleblowing
has shaken the leaders of nations worldwide and generated a passionate public debate on the dangers of global
monitoring and the threat to individual privacy in a tour de force of investigative journalism that reads like a
spy novel award winning guardian reporter luke harding tells snowden s astonishing story from the day he
left his glamorous girlfriend in honolulu carrying a hard drive full of secrets to the weeks of his secret spilling
in hong kong to his battle for asylum and his exile in moscow for the first time harding brings together the
many sources and strands of the story touching on everything from concerns about domestic spying to the
complicity of the tech sector while also placing us in the room with edward snowden himself the result is a
gripping insider narrative and a necessary and timely account of what is at stake for all of us in the new digital
age

Permanent Record

2019-09-17

new york times bestseller edward snowden the man who risked everything to expose the us government s
system of mass surveillance reveals for the first time the story of his life including how he helped to build that
system and what motivated him to try to bring it down in 2013 twenty nine year old edward snowden
shocked the world when he broke with the american intelligence establishment and revealed that the united
states government was secretly pursuing the means to collect every single phone call text message and email
the result would be an unprecedented system of mass surveillance with the ability to pry into the private
lives of every person on earth six years later snowden reveals for the very first time how he helped to build
this system and why he was moved to expose it spanning the bucolic beltway suburbs of his childhood and the
clandestine cia and nsa postings of his adulthood permanent record is the extraordinary account of a bright
young man who grew up online a man who became a spy a whistleblower and in exile the internet s
conscience written with wit grace passion and an unflinching candor permanent record is a crucial memoir of
our digital age and destined to be a classic

the on managing rental properties a proven system for finding screening and managing tenants with fewer headaches and maximum profit
a groundbreaking look at the nsa surveillance scandal from the reporter who broke the story glenn greenwald
star of citizenfour the academy award winning documentary on edward snowden in may 2013 glenn
greenwald set out for hong kong to meet an anonymous source who claimed to have astonishing evidence of
pervasive government spying and insisted on communicating only through heavily encrypted channels that
source turned out to be the 29 year old nsa contractor and whistleblower edward snowden and his revelations
about the agency s widespread systemic overreach proved to be some of the most explosive and consequential
news in recent history triggering a fierce debate over national security and information privacy as the
arguments rage on and the government considers various proposals for reform it is clear that we have yet to
see the full impact of snowden s disclosures now for the first time greenwald fits all the pieces together
recounting his high intensity ten day trip to hong kong examining the broader implications of the surveillance
detailed in his reporting for the guardian and revealing fresh information on the nsa s unprecedented abuse of
power with never before seen documents entrusted to him by snowden himself going beyond nsa specifics
greenwald also takes on the establishment media excoriating their habitual avoidance of adversarial reporting
on the government and their failure to serve the interests of the people finally he asks what it means both for
individuals and for a nation s political health when a government pries so invasively into the private lives of
its citizens and considers what safeguards and forms of oversight are necessary to protect democracy in the
digital age coming at a landmark moment in american history no place to hide is a fearless incisive and essential
contribution to our understanding of the u s surveillance state

Political Manipulation and Weapons of Mass Destruction

2017-12-11

concerns about cbrn chemical biological radioactive nuclear weapons have featured prominently in both
political debates and media reporting about the ongoing threat from al qaeda since 9 11 this book provides a
chronological account of al qaeda s efforts to acquire a cbrn weapon capability and the evolution of the al qaeda
leadership s approach to actually using cbrn weapons set against the context of the politicisation of the threat of
cbrn terrorism in us security debates ben cole explores how the inherently political nature of terrorist cbrn
threats has helped to shape al qaeda s approach to cbrn weapons and shows how the heightened political
sensitivities surrounding the threat have enabled some governments to manipulate it in order to generate
domestic and international support for controversial policies particularly the 2003 invasion of iraq he assesses
the relative success of the al qaeda leadership s political approach to cbrn weapons together with the relative
success of efforts by the us uk and russian governments to exploit the al qaeda cbrn threat for their wider
political purposes shedding new light on al qaeda s tactics and strategy this book will be essential reading for
scholars of terrorism and extremism studies

Law, Privacy and Surveillance in Canada in the Post-Snowden Era

national security agency yet there is an important canadian side to the story the communications security establishment the canadian counterpart to the nsa has played an active role in surveillance activities both at home and abroad raising a host of challenging legal and policy questions with contributions by leading experts in the field law privacy and surveillance in canada in the post snowden era is the right book at the right time from the effectiveness of accountability and oversight programs to the legal issues raised by metadata collection to the privacy challenges surrounding new technologies this book explores current issues torn from the headlines with a uniquely canadian perspective

The Discourse of Propaganda

2019-01-18

in the early 1990s false reports of iraqi soldiers in kuwait allowing premature infants to die by removing them from their incubators helped to justify the persian gulf war just as spurious reports of weapons of mass destruction later undergirded support for the iraq war in 2003 in the discourse of propaganda john oddo examines these and other such cases to show how successful wartime propaganda functions as a discursive process oddo argues that propaganda is more than just misleading rhetoric generated by one person or group it is an elaborate process that relies on recontextualization ideally on a massive scale to keep it alive and effective in a series of case studies he analyzes both textual and visual rhetoric as well as the social and material conditions that allow them to circulate tracing how instances of propaganda are constructed performed and repeated in diverse contexts such as speeches news reports and popular everyday discourse by revealing the agents inter texts and cultural practices involved in propaganda campaigns the discourse of propaganda shines much needed light on the topic and challenges its readers to consider the complicated processes that allow propaganda to flourish this book will appeal not only to scholars of rhetoric and propaganda but also to those interested in unfolding the machinations motivating america s recent military interventions

Proximization

2013-06-15

this book proposes a new theory proximization theory in the area of political public legitimization discourse located at the intersection of pragmatics cognitive linguistics and critical approaches the theory holds that legitimization of broadly consequential political public policies such as pre emptive interventionist campaigns is best accomplished by forced construals of virtual external threats encroaching upon the speaker and her audience s home territory the construals which proceed along spatial temporal and axiological lines are forced by strategic deployment of lexico grammatical choices drawn from the three domains this proposal is illustrated primarily in the in depth analysis of the 2001 2010 us discourse of the war on terror and secondarily in a number of pilot studies pointing to a wide range of further applications environmental discourse health communication cyber threat discourse political party representation the theory and the empirical focus of the book will appeal to researchers working on interdisciplinary projects in pragmatics semantics cognitive

Whistleblowing Nation

2020-03-31

the twenty first century witnessed a new age of whistleblowing in the united states disclosures by chelsea
manning edward snowden and others have stoked heated public debates about the ethics of exposing
institutional secrets with roots in a longer history of state insiders revealing privileged information bringing
together contributors from a range of disciplines to consider political legal and cultural dimensions
whistleblowing nation is a pathbreaking history of national security disclosures and state secrecy from world
war i to the present the contributors explore the complex politics motives and ideologies behind the revelation
of state secrets that threaten the status quo challenging reductive characterizations of whistleblowers as heroes
or traitors they examine the dynamics of state retaliation political backlash and civic contests over the
legitimacy and significance of the exposure and the whistleblower the volume considers the growing power
of the executive branch and its consequences for first amendment rights the protection and prosecution of
whistleblowers and the rise of vast classification and censorship regimes within the national security state
featuring analyses from leading historians literary scholars legal experts and political scientists whistleblowing
nation sheds new light on the tension of secrecy and transparency security and civil liberties and the politics of
truth and falsehood

Surveillance in Europe

2014-09-19

surveillance in europe is an accessible definitive and comprehensive overview of the rapidly growing multi
disciplinary field of surveillance studies in europe written by experts in the field including leading scholars
the companion s clear and up to date style will appeal to a wide range of scholars and students in the social
sciences arts and humanities this book makes the case for greater resilience in european society in the face of
the growing pervasiveness of surveillance it examines surveillance in europe from several different
perspectives including the co evolution of surveillance technologies and practices the surveillance industry in
europe the instrumentality of surveillance for preventing and detecting crime and terrorism social and
economic costs impacts of surveillance on civil liberties resilience in europe s surveillance society the
consequences and impacts for europe of the snowden revelations findings and recommendations regarding
surveillance in europe surveillance in europe s interdisciplinary approach and accessible content makes it an
ideal companion to academics policy makers and civil society organisations alike as well as appealing to top

Intelligence Elites and Public Accountability

2018-04-17

this book provides a definitive overview of the relationships of influence between civil society and intelligence elites the secrecy surrounding intelligence means that publication of intelligence is highly restricted barring occasional whistle blowing and sanitised official leaks these characteristics mean that intelligence if publicised can be highly manipulated by intelligence elites while civil society's ability to assess and verify claims is compromised by absence of independent evidence there are few studies on the relationship between civil society and intelligence elites which makes it hard to form robust assessments or practical recommendations regarding public oversight of intelligence elites addressing that lacuna this book analyses two case studies of global political significance the intelligence practices they focus on contemporary mass surveillance and bush era torture intelligence policies have been presented as vital in fighting the global war on terror enmeshing governments of scores of nation states while challenging internationally established human rights to privacy and to freedom from torture and enforced disappearance the book aims to synthesise what is known on relationships of influence between civil society and intelligence elites it moves away from disciplinary silos to make original recommendations for how a variety of academic disciplines most likely to study the relationship between civil society and intelligence elites international relations history journalism and media could productively cross fertilise finally it aims to create a practical benchmark to enable civil society to better hold intelligence elites publicly accountable this book will be of great interest to students of intelligence studies surveillance media journalism civil society democracy and in general

America's Covert War in East Africa

2019

clara usiskin has spent eight years investigating the war on terror and its effects in the east and horn of africa documenting hundreds of cases of rendition secret detention and targeted killings as a result of her work exposing abuses carried out by regional governments and their international partners clara was deported from kenya and uganda and is currently persona non grata in both countries her book sets out the historical background to today's covert war including the early somali jihads and british repression in colonial kenya through to the 1998 us embassy bombings in nairobi and dar es salaam and president clinton's early rendition programme america's covert war in east africa then looks at the us military's new africa command with its emphasis on counterterrorism alongside increasing use of targeted killings by security forces in the region and continued renditions and secret detention finally usiskin investigates the shorter and longer term consequences of such intensive militarisation and the proliferation of surveillance and other technologies of control in east africa and its surrounding waters focussing in particular on their impact on vulnerable ethnic and religious groups in a highly volatile region

How America Lost Its Secrets

2017-01-17

a groundbreaking exposé that convincingly challenges the popular image of edward snowden as hacker turned avenging angel while revealing how vulnerable our national security systems have become as exciting as any political thriller and far more important after details of american government surveillance were published in 2013 edward snowden formerly a subcontracted it analyst for the nsa became the center of an international controversy was he a hero traitor whistle blower spy was his theft legitimized by the nature of the information he exposed when is it necessary for governmental transparency to give way to subterfuge edward jay epstein brings a lifetime of journalistic and investigative acumen to bear on these and other questions delving into both how our secrets were taken and the man who took them he makes clear that by outsourcing parts of our security apparatus the government has made classified information far more vulnerable how snowden sought employment precisely where he could most easily gain access to the most sensitive classified material and how though he claims to have acted to serve his country snowden is treated as a prized intelligence asset in moscow his new home

China in the Xi Jinping Era

2016-07-30

this book examines the driving forces behind national level politics changes to the judiciary social control economic reform environmental protection urban development the management of ethnic relations as well as foreign and security policy orientation in china under xi jinping it explains xi s ambition examines the limitations he has to confront and maps the direction of reform he pursues the book starts off by examining how the consultative leninist nature of the political system continues to shape politics and policy in china under xi and what the china dream xi advocates actually entails domestically and beyond china it ends by highlighting the megatrends that will prevail in the decade when xi is expected to stay in power the book also includes contributions from five central party school professors whose views are taken seriously by the chinese leadership

The Killing of Osama Bin Laden

2016-04-01

electrifying investigation of white house lies about the assassination of osama bin laden in 2011 an elite group of us navy seals stormed an enclosure in the pakistani city of abbotabad and killed osama bin laden the man the united states had begun chasing before the devastating attacks of 9 11 the news did much to boost president obama s first term and played a major part in his reelection victory of the following year but much of the story of that night as presented to the world was incomplete or a lie the evidence of what actually went on remains hidden at the same time the full story of the united states involvement in the syrian civil war has been kept

Journalism and the Nsa Revelations

2017-03-30

edward snowden s revelations about the mass surveillance capabilities of the us national security agency nsa
and other security services triggered an ongoing debate about the relationship between privacy and security
in the digital world this discussion has been dispersed into a number of national platforms reflecting local
political realities but also raising questions that cut across national public spheres what does this debate tell us
about the role of journalism in making sense of global events this book looks at discussions of these debates in
the mainstream media in the usa united kingdom france germany russia and china the chapters focus on
editorials commentaries and op eds and look at how opinion based journalism has negotiated key questions on
the legitimacy of surveillance and its implications to security and privacy the authors provide a thoughtful
analysis of the possibilities and limits of transnational journalism at a crucial time of political and digital change

WikiLeaks

2011-02

it was the biggest leak in history wikileaks infuriated the world s greatest superpower embarrassed the british
royal family and helped cause a revolution in africa the man behind it was julian assange one of the strangest
figures ever to become a worldwide celebrity was he an internet messiah or a cyber terrorist information
freedom fighter or sex criminal the debate would echo around the globe as us politicians called for his
assassination award winning guardian journalists david leigh and luke harding have been at the centre of a
unique publishing drama that involved the release of some 250 000 secret diplomatic cables and classified files
from the afghan and iraq wars at one point the platinum haired hacker was hiding from the cia in david leigh
s london house now together with the paper s investigative reporting team leigh and harding reveal the
startling inside story of the man and the leak

 tisa between the eu and 22 other states have sparked a great deal of academic and public interest this edited
 collection brings together leading experts in the field of international economic law to address the legal
 complexities of these treaties and provide an explanation of their core principles in the first two chapters this
 book examines changing conceptions of international economic law and the main motivations for negotiating
 mega regional agreements in nine further contributions international experts examine sectoral issues such as
 the trade investment and dispute settlement procedures envisaged in these mega regional agreements the
 book goes on to consider the progress made in intellectual property protection the problems associated with
 data protection human rights labour and environmental standards issues of transparency and legitimacy and the
 relationship between ceta ttip and tisa on the one hand and eu law on the other it concludes with four chapters
 that discuss globalization and other fundamental questions surrounding these mega regional agreements from
 economic political science and legal perspectives
