## ***Evaluation of Relative Density and Its Role in Geotechnical Projects Involving Cohesionless Soils***

1973

the report presents a description of the equipment and procedures used in the laboratory test of the relative frost susceptibility of different soils on corps of engineers construction projects and includes typical results of freezing tests of natural soils the test uses a slow unidirectional freezing of a 6 in high remolded or undisturbed soil specimen with water available at the base open system the heaving rate measured during the test is used as the basis for classification of the frost susceptibility potential of the soil this type of test which measures heaving rate is considered most versatile and adaptable for evaluating the effects of numerous soil parameters on frost heave author

## ***Freezing Test for Evaluating Relative Frost Susceptibility of Various Soils***

1974

originally published in 1974 technical change relative prices and environmental resource evaluation explores the relationship between natural environmental resources and the differential implications of technological change and relative price appreciation smith claims that price is linked to technological progress and comments on the economic issues surrounding this this title will be of interest to students of environmental studies and economics

## **Technical Change, Relative Prices, and Environmental Resource Evaluation**

2018-10-24

this reissued book is one of the key works that influenced and shaped the contemporary evaluation field the book developed a new expanded conception of the validity of evaluation studies based on broad criteria of truth beauty and justice it also presented a widely used typology of evaluation approaches and critiqued these approaches with the validity criteria its long term influence is demonstrated by the book published in 1980 and criteria being prominently featured in the overall theme for the forthcoming american evaluation association s annual conference in november 2010

## **Limits to Relative Performance Evaluation**

2008

this book first published in 2001 features integrative theoretical and empirical work from social psychology sociology and psychology

## **The Relative Performance Matrix**

2001

this book enables petroleum reservoir engineers to predict the flow of fluids within a hydrocarbon deposit laboratory techniques are described for both steady state and unsteady state measurements and the calculation of relative permeability from field data is illustrated a discussion of techniques for determing wettability is included along with theoretical and empirical methods for the calculation of relative permeability and prediction techniques contents include measurement of rock relative permeability two phase relative permeability factors affecting two phase relative permeability three phase relative permeability and index

## ***Environmental cleanup DOD's implementation of the relative risk site evaluation process : report to the chairman and ranking minority member, Committee on Armed Services, U.S. Senate***

1998

s2attempts to correlate ray tissue as a percentage of total wood volume with sap sugar concentrations of sugar maple progenies were unsuccessful these results raise doubts about our ability to use a relatively constant value such as ray tissue volume in a selection program designed to increase the sap sugar concentration of sugar maple seedlings s3

## **A Re-evaluation of the Dichotomy of Absolute and Relative Responses in Transposition**

1955

in this brand new publication from eminent historian peter c smith we are regaled with the engaging and often incredibly disturbing history of the kamikaze tradition in japanese culture tracing its history right back to the original divine wind major natural typhoons that saved japan from invaders in ancient history smith explores the subsequent resurrection of the cult of the warrior in the late nineteenth century he then follows this tradition through into the second world war describing the many kamikaze suicide attacks carried out by the emperor s pilots against allied naval vessels in the closing stages of the pacific campaign these pilots were at the mercy of an overriding cultural tradition that demanded death over defeat capture or perceived shame despite often being under trained and ill prepared psychologically for the sacrifices they were about to make they were nonetheless expected to make them the dedication of sacrifice for the emperor and the nation is explored by dissecting the traces left behind by these pilots smith provides a detailed look at the heartbreak of the pilot s families and the men themselves the notes they left and the effects on those who did not share their philosophy the views of individuals under attack are also included in this balanced history countless attacks carried out over the philippine islands including the sinking of the st lo are analyzed and the okinawa campaign is afforded particularly strong coverage with the sinking of hmas australia explored in detail the collective sacrifice is then summed up with reflections from survivors on both sides appraising events in a humane historical context a detailed appendices then follows featuring units formed sorties mounted ships sunk and damages inflicted

## **Standard Test Method for Evaluating the Relative-Range Measurement Performance of 3D Imaging Systems in the Medium Range**

2022

exam board aqa level as a level subject history first teaching september 2015 first exam june 2016 aqa approved enhance and expand your students knowledge and understanding of their aqa breadth study through expert narrative progressive skills development and bespoke essays from leading historians on key debates builds students understanding of the events and issues of the period with authoritative well researched narrative that covers the specification content introduces the key concepts of change continuity cause and consequence encouraging students to make comparisons across time as they advance through the course improves students skills in tackling interpretation questions and essay writing by providing clear guidance and practice activities boosts students interpretative skills and interest in history through extended reading opportunities consisting of specially commissioned essays from practising historians on relevant debates cements understanding of the broad issues underpinning the period with overviews of the key questions end of chapter summaries and diagrams that double up as handy revision aids

## **Evaluating with Validity**

2010-10

every day we make decisions about our health some big and some small what we eat how we live and even where we live can affect our health but how can we be sure that the advice we are given about these important matters is right for us this book will provide you with the right tools for assessing health advice

## Relative Deprivation

2002

excerpt from an evaluation of the relative appeal of reading assignments about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

## *Evaluation of Relative Performance of a QRS Complex Detection Algorithm*

1993

originally published in 1974 technical change relative prices and environmental resource evaluation explores the relationship between natural environmental resources and the differential implications of technological change and relative price appreciation smith claims that price is linked to technological progress and comments on the economic issues surrounding this this title will be of interest to students of environmental studies and economics

## Relative Permeability Of Petroleum Reservoirs

2018-01-18

the binding of small ligands to biological molecules is central to most aspects of biological function the past twenty years has seen the development of an increasing armoury of biophysical methods that not only detect such binding but also provide varying degrees of information about the kinetics thermodynamics and structural aspects of the process these methods have received increasing attention with the growth in more rational approaches to drug discovery and design this book reviews the latest advances in the application of biophysics to the study of ligand binding it provides a complete overview of current techniques to identify ligands characterise their binding sites and understand their binding mechanisms particular emphasis is given to the combined use of different techniques and their relative strengths and weaknesses consistency in the way each technique is described makes it easy for readers to select the most suitable protocol for their research the introduction explains why some techniques are more suitable than others and emphasizes the possible synergies between them the following chapters all written by a specialist in the particular technique focus on each method individually the book finishes by describing how several complimentary techniques can be used together for maximum effectiveness this book is suitable for biomolecular scientists at graduate or post doctoral level in academia and industry biologists and chemists will also find it a useful introduction to the techniques available

## Ray Tissues as an Indirect Measure of Relative Sap-sugar Concentration in Sugar Maple

1989

the book includes new research results of scholars from the third international conference on advanced intelligent technologies icaict 2022 organized by irnet international academic communication center held during october 28 30 2022 the book covers research work from active researchers who are working on collaboration of industry and various intelligent technologies such as intelligent technologies applicable applied to manufacturing and distribution of industrial products factory automation and business the topics included are all computational intelligence techniques applicable applied to industry intelligent techniques in data science applicable applied to business and management intelligent network systems

applicable applied to industrial production intelligent technologies applicable to smart agriculture and intelligent information systems for agriculture

## **The California Relative Value Studies, an Overview, and the California Physicians Service, the Corporation, and Its Relationship with the California Medical Association**

1979

an overview of experimental research and methods in public management and their impact on theory research practices and substantive knowledge

## **Kamikaze**

2014-11-28

abstract the tasks involved in planning an evaluative study are examined in terms of the social political and economic factors which constrain evaluators these constraints affect the design goals focus variables and implementation of an evaluation basic techniques and procedures in evaluation research methodology are described with reference to practical problems which must be addressed by the evaluator specific directions for planning evaluations are given conceptual and methodological issues are illustrated with examples of evaluations from health education and social programs topics include evaluability assessment problems of measurement experimental designs data analysis information systems and benefit cost evaluation nm

## **AQA A-level History: Stuart Britain and the Crisis of Monarchy 1603-1702**

2015-09-18

organizational effectiveness a comparison of multiple models directly addresses the issues of non integration and non comparability this book not only provides well thought out approaches to effectiveness as a construct but also practical suggestions for improving effectiveness in organizations a set of integrating questions that raise theoretical conceptual empirical research practical and managerial issues are also included this text likewise compares and contrasts theoretical and philosophical roots of a particular perspective with other perspectives this publication is intended for scholars and researchers seeking to understand and measure organizational effectiveness as well as practitioners who are faced with the problem of managing and improving their own organization s effectiveness

## **Smart Health Choices**

2008

a computerized ranch simulation model of an eastern oregon cattle ranch was tested for its ability to evaluate the economics of public rangeland improvement practices the model was used to estimate likely impacts of various public policy alternatives for rangeland improvement on the relative profitability of a 400 mother cow ranch operation under alternative cattle prices at constant costs the simulation model described herein is a tool to assist in making decisions concerning the efficient use of available public resources i e labor capital in agriculturally dependent areas statistical analysis of the results showed the model was sensitive to different range improvement prescriptions at different sizes the model was insensitive to changes caused by random forage production values subjective interpretation of annual changes in net worth among alternatives over time provided information useful for decision making a scoping process was used to reduce the number of alternatives for intensive evaluation at each step in the scoping process a more specific decision criterion was imposed and the least desirable alternative s eliminated when the number of alternatives was reduced to a manageable level or when decision criteria were exhausted the remaining alternatives were compared on a year by year basis in order to ascertain if there were any qualitative differences from the private point of view it could be inferred that public investments in range

improvements would best be concentrated on projects with earlier returns from the public decision makers point of view this information would be only one of many decision variables to consider in the selection of an alternative
